Aviation Week & Space Technology

# 1984 Editorial Index

**ADVANCED TACTICAL FIGHTER**

- Companies submit tactical fighter studies 5/21, p. 26
- Outlook for new airplanes 8/13, p. 13
- USAF advanced fighter program nears acquisition review 11/19, p. 46
- ATF project stresses range, supportability 11/19, p. 53
- Services specify 1990s aircraft design goals 11/19, p. 58

**AEROSPACE HISTORY**

- Bendix's acquisition of King broadens market strength. 11/5, p. 79
- King traces origins to Rockwell/Collins 11/5, p. 83

**AEROSPACE INDUSTRY**

- **Asia**
  - Pacific council 10/8, p. 20
- **Australia**
  - Westland offers Australia share in program 6/11, p. 26
- **Belgium**
  - Small firms cooperate for U.S. Market 9/3, p. 83
  - Terrorists bomb offices 10/22, p. 29
- **Brazil**
  - Avibras seeks better balance of domestic, export business 6/25, p. 209
- **Canada**
  - Canadian aircraft sales slump 1/9, p. 22
  - Canadian aerospace sales and exports 3/12, p. 89
  - De Havilland brings in DHC-8 at $3 million below estimates 4/23, p. 142
  - Canadair reorganizes Challenger sales division 5/7, p. 95
  - Canada to continue industry investment 9/3, p. 224
  - Canadian government supports for aerospace 9/3, p. 224
  - U.S. civil exports to Canada fall to $1 billion 9/3, p. 224
  - Spar targets third world as key market 9/10, p. 141
- **China**
  - Chinese will visit McDonnell Douglas, Boeing 6/11, p. 22
  - U.S. companies return to Paris Air Show 12/3, p. 26
- **Europe**
  - Europeans agree on future fighter 1/2, p. 17
  - Airbus logs 30 transport sales in 1983 1/2, p. 29
  - European/U.S. balance of trade in civil aircraft 2/13, p. 135
  - Market share won by EEC-built aircraft 2/13, p. 137
  - Status of major U.S., European defense, aerospace programs 3/12, p. 10
  - Europe ties sales to economic recovery 3/12, p. 196
  - Europe promotes conventional forces 3/12, p. 74
  - Sales by European aerospace firms 3/12, p. 74
  - Total aerospace industry revenues 3/12, p. 93
  - Europe's new independence 6/4, p. 11
  - Large engine design costs dictate consortium efforts 6/18, p. 108
  - Dueling with industry 7/16, p. 11
  - Changing allegiances and NATO 7/30, p. 11
  - Japan will sponsor industry forum in London 8/20, p. 14
  - Governments' attitudes on exports vary 9/3, p. 113
  - Trade balance—Aerospace equipment, components for Europe vs. the U.S. 9/3, p. 113
  - Europeans question value of U.S. subcontract work 9/3, p. 189
  - World export sales patterns shift 9/3, p. 78
  - Percentage of aerospace industry revenues from airframes, engines and equipment 9/3, p. 92
  - Dutch to participate in EFA program 9/10, p. 28
  - Makers weigh future airline needs 9/10, p. 44
  - The toils of collaboration 9/17, p. 11
  - U.S., Europe to coordinate airworthiness regulations 9/17, p. 34
  - Europeans endorse scientific cooperation 9/24, p. 15
  - Eutelsat seeks guarantee of monopoly inside Europe 10/1, p. 139
  - Sabreliner, Agusta negotiate pact 10/1, p. 18
  - Rising value of U.S. dollar hinders Europe operations 10/1, p. 59
  - Europeans hone U.S. sales strategy 11/5, p. 42
- **France**
  - Jaeger transfer 1/16, p. 162
  - French near decision on loan to Dassault for Falcon 900 1/16, p. 20
  - Sales lag spurs Aerospatiale cuts 1/16, p. 20
  - Dassault to increase Falcon 50 output 1/30, p. 48
  - Voice command unit enters new tests 1/30, p. 65
  - SEP developing ceramic parts 2/13, p. 145
  - Growth trends: French aerospace industry 3/12, p. 87
  - Slump in orders may slow French aerospace upturn 3/12, p. 87
  - French aerospace exports fell in 1983 4/23, p. 63
  - Aerospatiale uses robots to build missiles 5/21, p. 139
  - France to put SEP Ariane engine company under Snecma control 5/21, p. 28
  - ESA will negotiate with MBB, Aerospatiale for ISO satellite 5/28, p. 122
  - Dassault-Breguet reports revenue increase 6/4, p. 67
  - French approve start of Atlantique 2 production 6/25, p. 28
  - French aerospace sales declined in 1983 7/16, p. 16
  - French begin armed ecureuil firing tests 8/13, p. 63
  - SEP modifying programs after merger 8/13, p. 81
  - French/Italian ATR42 begins flight tests 8/27, p. 31
  - U.S. airlines purchasing French radio altimeters 9/3, p. 155
  - French Messier raises carbon brake output 9/3, p. 164
  - Crouzet performing laser test of airspeed 9/17, p. 61
  - French firms bombed 10/29, p. 26
  - Airbus Industrie increases penetration of North American market 11/12, p. 150
  - Airbus transport family specifications 11/12, p. 156
- **Germany**
  - MBB creates divisions to seek high-technology opportunities 2/20, p. 40
  - End sought to German missile range limits 2/27, p. 27
  - Lufthansa will market system to check engine performance 6/18, p. 40
  - Germans consider Locust Drone project restart 8/13, p. 25
  - Dornier optimistic despite 25% decline in revenues 9/3, p. 193
  - Dornier Amphibian enters flight testing 9/3, p. 247
  - Europeans sign to build, market U.S. rotorcraft 9/10, p. 35
- **Great Britain**
  - British Aerospace unifies sales group 1/16, p. 188
  - 146 production rate 1/16, p. 32
  - British Aerospace to cut work force by 850 1/23, p. 21
  - British firm consolidating aircraft group 2/13, p. 141
  - Britain caps defense fund rise 2/27, p. 21
  - Growth trends: British aerospace industry 3/12, p. 206
  - Britain's aerospace export level holds steady in 1983 3/12, p. 253
  - British financing tied to future A320 sales 3/12, p. 270
  - Rolls-Royce invests in Jet Express 4/23, p. 31
  - British Aerospace, Thorn EMI discuss merger 5/21, p. 27
  - GEC bids for British Aerospace 6/11, p. 21
  - Westland offers Australia share in program 6/11, p. 26
  - British Aerospace, Thorn end merger talks 6/18, p. 26
  - Plessey Co. of England buying 35% of Italian firm 6/18, p. 27
  - British Aerospace cancels merger talks 7/23, p. 24
  - British Rapier Laserfire completes first firing 9/3, p. 107
  - Dowty Rotol studies large turboprops 9/10, p. 123
  - Europeans sign to build, market U.S. rotorcraft 9/10, p. 35
  - Raytheon subsidiary in Britain to upgrade Royal Navy radar 9/17, p. 62
  - Vinten working on flir for U.S. drug unit 9/17, p. 62
  - British expand SkyHook launch system uses 10/22, p. 65
  - British Aerospace pushing ring laser gyro effort 11/19, p. 91
  - British Aerospace uses superplastic bonding 12/3, p. 116
- **Indonesia**
  - U.S. companies return to Paris Air Show 12/3, p. 26
- **Italy**
  - Plessey Co. of England buying 35% of Italian firm 6/18, p. 27
  - French/Italian ATR42 begins flight tests 8/27, p. 31
  - Agusta seeks profit turnaround through fewer aircraft types 10/22, p. 125
- **Japan**
  - Japan seeks $12.5-billion defense budget 1/30, p. 21
  - Growth trends: Japanese aerospace industry 3/12, p. 129
  - Japan plans new fighter as Soviet threat changes 3/12, p. 81
  - Japanese defense contracts total $4.9 billion 4/23, p. 61
  - Users challenging policies of Japan 6/25, p. 190
  - Changing allegiances and NATO 7/30, p. 11
  - Japan will sponsor industry forum in London 8/20, p. 14
  - Japanese study space commerce 8/20, p. 14
  - Japan forecast $2.37 billion in Aerospace sales 10/1, p. 29
- **Netherlands**
  - Small firms cooperate for U.S. Market 9/3, p. 83
- **Northern Ireland**
  - Lear Fan lays off workers in Northern Ireland 1/16, p. 24
  - Lear Fan lays off almost all workers at its Belfast plant 6/4, p. 25
- **Pacific**
  - Pacific council 10/8, p. 20
- **Spain**
  - CASA assembling 32 BO.105 helicopters 1/23, p. 93
  - Spain to modernize aerospace industry 1/23, p. 93
  - CASA agreement 6/25, p. 26
- **Sweden**
  - Intrusions into Swedish waters spurring defense spending 3/12, p. 93
- **Switzerland**
  - Second Pilatus PC-9 trainer joins flight test program 8/20, p. 50
- **U.S.**
  - Martin Baltimore reverses downtrend 1/2, p. 53
  - Aircraft makers urge American purchases 1/9, p. 23
  - McDonnell Douglas cuts aircraft construction time 1/9, p. 71
  - Aviation trade mission to visit Asia 1/16, p. 134
  - U.S. aerospace growth forecast at 3% annually 1/16, p. 191
  - GE realigns avionics, ordnance operations 1/16, p. 25
  - General aviation predicts sales rebound 1/16, p. 25
  - Spares changes concern industry 1/23, p. 16
  - Boeing rolls out 737-300 version 1/23, p. 30
  - Hiller Aviation files for bankruptcy 1/30, p. 26
  - Boeing offers used aircraft support work 1/30, p. 45
  - Beech sales increase 13% in 1983 1/30, p. 48
  - Gulfstream gains 1/30, p. 49
  - Defense Dept. stresses research, readiness, upgrades 2/6, p. 14
  - Boeing reports sales increase 2/6, p. 34
  - Deficits may force "buy Europe" policy 2/13, p. 135
  - European/U.S. balance of trade in civil aircraft 2/13, p. 135
  - LTV head urges new technical university 2/13, p. 135
  - Ford realigns space, defense functions 2/13, p. 139
  - Piper seeks recovery from financial losses 2/13, p. 59
  - Recruiting high technology 2/27, p. 11
  - Industry backs commerce role in show 2/27, p. 19
  - Defense, industry officials push warranty law repeal 3/5, p. 24
  - Status of major U.S., European defense, aerospace programs 3/12, p. 10
  - U.S. aerospace exports 3/12, p. 110
  - Growth trends: U.S. aerospace industry 3/12, p. 16
  - Airframe firms see end of sales slump 3/12, p. 179
  - Growth trends: U.S. scheduled airline traffic & U.S. transport sales 3/12, p. 179
  - Civil aircraft exports forecast to drop $1 billion 3/12, p. 188
  - Growth trends: U.S. business flying 3/12, p. 259
  - Manufacturers set to offer new designs 3/12, p. 259
  - U.S. business flying exports 3/12, p. 260
  - Helicopter makers eye medevac market 3/12, p. 262
  - Boeing, Douglas question market response 3/12, p. 269
  - SBS cuts staff 3/12, p. 271
  - Total aerospace industry revenues 3/12, p. 93
  - Exports of military aircraft expected to rise in 1984 3/12, p. 94
  - Growth trends: U.S. space sales 3/12, p. 99
  - Sikorsky negotiating Belgian helicopter buy 3/26, p. 26
  - Pentagon asks change in weapons guarantees 4/2, p. 14
  - Steps urged to upgrade U.S. aerospace 4/2, p. 25
  - Firms in field 4/16, p. 187
  - U.S. closing robot technology gap with Japan 4/16, p. 76
  - Piper consolidation 4/23, p. 142
  - Hiller assets 4/23, p. 149
  - Trouble in the export market 4/30, p. 9
  - Cessna increases reliance on turbine-powered line 5/7, p. 100
  - Piper will end production in Pennsylvania 5/7, p. 18
  - Rockwell expansion 5/7, p. 23
  - Boeing expanding workforce based on transport order gain 5/7, p. 26
  - NASA defining technology required by space station 5/14, p. 80
  - Republic Steel negotiates sale of Mooney 6/11, p. 26
  - Engine makers use derivatives to build in reliability, cut costs 6/18, p. 112
  - Honeywell moves into new EW markets 6/18, p. 123
  - Cessna reorganizes divisions, stretches shutdown of plant 6/18, p. 28
  - Study by industry identifies surge capability shortfall 6/18, p. 95
  - Subcontractors cite encroachment by primes 6/18, p. 95
  - Industry fighting to save tax credit for research 6/25, p. 222
  - U.S. business group finds initiatives to be feasible 6/25, p. 93
  - Agency to conduct aviation safety audit 7/2, p. 38
  - Dueling with industry 7/16, p. 11
  - Government focus on data transfer to industry urged 7/23, p. 131
  - R22 helicopter sales 7/23, p. 19
  - Boeing expansion 7/23, p. 22
  - Republic, unions agree on concessions 7/23, p. 34
  - Changing allegiances and NATO 7/30, p. 11
  - Salvaging a reputation 8/6, p. 11
  - Hughes expands Mesa operations 8/6, p. 20
  - Extended sales lag slows general aviation projects 8/6, p. 66

State seeks technology center statu[illegible] 8/6, p. [illegible]8
Electronics companies by state 8/6, p. 6[illegible]
Gates Learjet forms aerospace division 8/13, p. 149
Hughes halts IIR Maverick line 8/13, p. 18
Business flying manufacturers extend layoffs 8/13, p. 28
Austin's lead in research spurs growth 8/13, p. 73
Dallas sees high technology resource growth 8/13, p. 76
Venture capital 8/13, p. 76
New TRW division 8/20, p. 15
Exports of U.S. aircraft, parts falling in 1984 8/20, p. 24
Job growth in aerospace sector to slow 8/20, p. 58
Lockheed will open new modification facilities 8/20, p. 60
Senate procurement bill would aid small business 8/20, p. 75
Production rates 8/27, p. 25
Another deregulation quandry 8/27, p. 9
Project seeks to boost exports to Britain 9/3, p. 101
U.S. Embassy offers data on industry during show 9/3, p. 101
Trade balance—Aerospace equipment, components for Europe vs. the U.S. 9/3, p. 113
States luring foreign technology firms 9/3, p. 121
Science advisers cite research need 9/3, p. 173
U.S. civil exports to Canada fall to $1 billion 9/3, p. 224
Beech employees return to work after strike 9/3, p. 273
Company flight units turn to computers 9/3, p. 313
New options for old sites 9/3, p. 39
Hughes reorganizes Tucson Facility 9/3, p. 45
Manufacturers' production drops, layoffs continue despite upturn 9/3, p. 50
World export sales patterns shift 9/3, p. 78
Europeans sign to build, market U.S. rotorcraft 9/10, p. 35
Boeing sales drop in second quarter 9/10, p. 82
NASA preparing 412 space station contracts 9/17, p. 16
Alloy makers react to composite gains 9/24, p. 57
Helicopter sales continue flat in 1984 10/1, p. 107
University students design supersonic corporate jet 10/1, p. 133
U.S. agencies review ball bearing firm sale 10/8, p. 29
Ft. Collins facility 10/8, p. 69
State stresses expansion in aerospace 10/8, p. 69
Industry urges upgrades in engineering education 10/8, p. 72
Martin spends $57 million on high-tech growth 10/8, p. 72
Martin drops aluminum 10/22, p. 30
E-Systems building plant 10/22, p. 72
Unions rally opposition to military cost moves 10/29, p. 25
U.S. airframe manufacturers face uncertainties in product planning 11/12, p. 145
Signetics Corp. stops shipments of suspect military circuit products 11/12, p. 25
F100 sales drop affects Bendix controls 11/19, p. 28
Manufacturers restructure sales organizations in depressed market 11/19, p. 88
GAO report studies aerospace executive salaries, benefits 11/26, p. 60
Semi-automated plant enhances quality, cuts manufacturing cost 11/26, p. 66
Rolls-Royce Miami facility seeks new work despite losses 12/3, p. 110
Justice Dept. would remove obstacles to joint ventures 12/3, p. 149
Analysts forecast little chance for passage of tax proposal 12/3, p. 24
U.S. companies return to Paris Air Show 12/3, p. 26
USAF emphasizing technology to improve quality assurance 12/3, p. 78
Companies focus research activity on artificial intelligence applications 12/10, p. 25
Textron, Avco to merge 12/10, p. 25
GAMA expects sharp delivery drop 12/10, p. 71
Analysts predict sound, long-term future for General Aviation market 12/10, p. 74

**USSR**
Soviet defense spending 2/13, p. 11
NATO cites Soviet military funding slowdown 2/13, p. 140
New Soviet aircraft focus U.S. attention on advanced fighter 3/19, p. 46

**AFGHANISTAN**
Soviets use flares to counter missiles 3/26, p. 54
U.S. [illegible]rges Soviets expand Afghanistan war 4/30, p. 21
Soviets us[illegible]-25[illegible] in attacks on rebel units 10/29, p. 38
Afghanistan cover[illegible] 10/29, p. 40
Su-24s, Tu-16s supp[illegible]viet ground forces [illegible]/29, p. 40
Soviet helicopters sustain da[illegible]m SAM-7 infrared missiles [illegible]29, p. [illegible]

**AFRICA**
Togo to buy Epsilon trainer 10/15, p. 21

**AIR CARGO AND AIR MAIL**
Freight shipments turn around 1/9, p. 31
IATA reduces airline loss estimate 1/9, p. 34
Purolator moving hub to Indianapolis 1/30, p. 40
Federal Express test 2/13, p. 29
Former Alaskan cargo carrier to initiate passenger service 2/13, p. 39
IATA to charge tariffs in local currencies 3/12, p. 191
Air freight traffic and revenues 3/12, p. 205
Volume of U.S. air freight to increase 10% this year 3/12, p. 210
British cargo carrier seeks U.S. market 4/16, p. 37
Ryan expands charter service to airline category transports 5/7, p. 39
Future growth in cargo forecast 5/14, p. 27
Revenue ton miles 1973 vs 1983 5/14, p. 27
Continental Airlines forms cargo subsidiary 6/18, p. 49
Postal Service negotiates mail contracts 7/9, p. 29
Carrier begins package service in South 7/23, p. 31
United Parcel acquires 13 more aircraft 8/13, p. 32
Firm converting 727s to all-cargo aircraft 9/10, p. 67
Air France freight traffic rises sharply 9/10, p. 71
Lufthansa subsidiary converting to DC-8 freighters 10/22, p. 52
Federal Express forms facsimile unit 11/12, p. 24
Boeing nears completion of Nippon Cargo 747F Freighter 11/12, p. 31
Air France offers small package international express delivery 11/12, p. 41
Air freight carriers undergoing period of transition 11/12, p. 62
Traffic gains, fares stabilize on North Atlantic routes 11/12, p. 63
European carriers expect net profit in 1984 11/26, p. 45
Lockheed-Georgia develops concept for future freighter 12/3, p. 141

**AIR SHOWS**
**Brighton, Great Britain**
  Split grows over U.S. air show in Europe 2/13, p. 59
  Commerce Dept. cancels Air Show in Britain 4/23, p. 27
**Farnborough**
  Farnborough rations show exhibit space 1/30, p. 64
  U.S. Embassy offers data on industry during show 9/3, p. 101
  Soviets attend first Farnborough show 9/3, p. 54
  A healthy Farnborough 9/10, p. 23
  Air show coverage 9/10, p. 28
  Soviets look west for helicopter sales 9/10, p. 30
  DHC-5 crash damages several aircraft at show 9/10, p. 32
  NDN Fieldmaster scoops water in flight 9/17, p. 47
  Propfan concepts gain in development 9/17, p. 54
  New 30-50 seat aircraft vie for commuter market 9/17, p. 58
  Consortium weighs airlift/cargo aircraft 9/17, p. 61
  Soviet An-72 transport flies at Farnborough Air Show 9/24, p. 58
  Saab-Fairchild 340 commuter demonstrates capabilities at Farnborough 9/24, p. 63
  British exhibit Hawk 200 fighter mockup 9/24, p. 64
  Dornier exhibits model of European fighter 9/24, p. 84
  Partenavia's P.68 Observer has TV surveillance system 9/24, p. 85
  Companies show new Inmarsat design 10/1, p. 137
  Yugoslavia, Romania eye export market 10/8, p. 37
  [illegible]iets display helicopter, transport 10/8, p. 64
  Airborne [illegible] warning defender makes appearanc[illegible] Britain 10/15, p. 64
  Westland 30, Lynx 3 [illegible]m in flight during air show [illegible]/15, p. 69
  USAF demonstrates F-15, F-16 [illegible] 71
  Saab displays Tele-X Satcom at Farn[illegible]ough 10/22, p. 97
  Dassault's Mirage 3NG fighter displays handling capabilities 10/29, p. 57
  British demonstrate active control Jaguar 10/29, p. 66
  Variety of new trainers compete for military market 11/19, p. 54
**[illegible]anover**
  [illegible]umber of exhibitors increases at Hanover 5/28, p. 19
  AWACS, amphibian on display at Hanover Air Show 6/4, p. 17
  Commuters spark interest at Hanover 6/[illegible], p. 34
  Hanover Air Show management will increase exhibition space 10/22, p. 120
**Paris**
  Industry backs commerce role in show 2/27, p. 19
  Paris Air Show survey reopens dispute 3/19, p. 24
  Exhibit firm asks injunction on Commerce Dept. 11/5, p. 49
  U.S. companies return to Paris Air Show 12/3, p. 26
**U.S. General Aviation Show, London**
  U.S. General Aviation Show in London sold out 6/11, p. 71

**AIR TRAFFIC CONTROL**
FAA nears adoption of Olympic Games air traffic procedures 1/9, p. 39
Control errors spur FAA probe 1/16, p. 29
Martin Marietta wins airspace plan award 2/6, p. 31
Datasaab fined $3.1 million 5/7, p. 20
FAA probes harassment of Continental 5/7, p. 30
Indonesian ATC 5/28, p. 151
Gould Electronics demonstrates high-resolution display for air traffic control 6/4, p. 83
Union launches program to organize controllers 7/9, p. 32
FAA planning new procedures to eliminate worsening delays 7/23, p. 29
Vertical separation cut weighed 7/30, p. 27
Witnesses urge area navigation to solve congestion at airports 8/6, p. 41
Marconi to display air defense, terminal radar at Farnborough 8/6, p. 81
FAA centralizes traffic control 8/13, p. 30
FAA warns new controls possible if delays persist 8/20, p. 30
ATC update studies 8/27, p. 20
Union organizers gain in signature drive 8/27, p. 36
Carriers join to halt congestion 9/3, p. 57
Martin finishes its initial audit of ATC system 9/3, p. 59
Makers weigh future airline needs 9/10, p. 44
Airlines reach schedule accord 9/17, p. 28
ATC users urge agency to add 1,000 controllers 10/8, p. 32
Taiwan air traffic control update includes fault-assessing computers 10/22, p. 36
Midair study likely to speed adoption of alert systems 10/29, p. 32
FAA seeks user guidance on national airspace system 11/12, p. 199
Deregulation-altered World presents fresh challenges 11/12, p. 44

**AIRBORNE WARNING AND CONTROL SYSTEMS**
Grumman to ask French why E-2C dropped from AEW buy 1/23, p. 28
U.S. assigns two AWACS to Egypt 3/26, p. 27
Soviets fill low-altitude air defense gap 4/23, p. 55
Aeritalia studying follow-on versions of military transport 4/30, p. 44
Lockheed developing P-3 airborne warning version 6/11, p. 25
Lockheed rolls out P-3 airborne early warning probe 6/18, p. 17
Lockheed P-3B airborne early warning prototype makes its first flight 6/25, p. 19
NATO seeking more sensors on E-3A force 7/9, p. 23
Global's data link to aid in-flight plans 10/1, p. 115
AWACS bases will be operational in 1985 10/8, p. 24
French p[illegible]ose defense budget of $15.8 billion for next y[illegible] 10/22, p. 29
British form airb[illegible] early warning helicopter squadron 11/19, p. 26
France will acquire E-3[illegible]craft powered by CFM56 11/19, p. 27

**AIRCRAFT CARRIERS, SHIPS, SUBMARINES**
Swedish military funding 1/2, p. 24
Swedish Navy radar 1/16, p. 24
Tomahawk launched 1/16, p. 27
Navy cruiser carrying Aegis system completes initial tests 2/13, p. 158
[illegible] develops new plan for Aegis weapon tests 2/20, p. 30
Intrusions [illegible] waters spurring defense spending [illegible]
Test launch verifies ASW weapon performance 4/2, p. 22
F/A-18s readied for carrier deployment 4/16, p. 57
Britain selects Harpoon missile to arm Navy surface warships 4/23, p. 163
Soviet carriers 4/30, p. 26
Navy improving antisubmarine weapons 4/30, p. 43
British nearing completion of third ski-jump-deck aircraft carrier 5/7, p. 82
Soviet ship holds U.S. target drone 24 hours 5/21, p. 20
Navy plans new ASW helicopter, sonar 5/28, p. 66
Norwegians photograph Soviet Oscar-class submarine 6/4, p. 75
Bell Aerospace Textron rolls out air cushion landing craft 6/4, p. 81
New Zealand uses UH-1Hs in exercise 6/18, p. 115
Hughes studies AH-64 adapted for Marine operations 6/25, p. 212
Brazilian navy evaluates buy of A-4s for carrier deployment 6/25, p. 229
Missile launch 7/9, p. 20
Argentine Navy studies making aircraft carrier replacement 7/16, p. 48
British Aerospace Sea Eagle hits destroyer in guided test 7/30, p. 22
Soviets building aircraft carrier that will become operational in 1990s 8/13, p. 26
Cruise missile hits, destroys bunker target 8/20, p. 17
Norwegians photograph new Soviet submarine 9/24, p. 87
Analyst charged in satellite photo disclosure 10/8, p. 27
SkyHook could alter roles of aircraft carriers 10/22, p. 72
French government defines nuclear aircraft carrier 11/26, p. 61
French launch SM39 in underwater tests 12/3, p. 65
Soviet ability to fire through ice creates new SLBM basing mode 12/10, p. 16

**AIRCRAFT LEASING**
Crandall urges increased aircraft leasing 1/23, p. 32
Charter carrier acquires larger aircraft 1/30, p. 28
People Express leases three 747s 2/27, p. 35
Continental plans route gains on Pacific with leased DC-10s 3/26, p. 33
Comair to start 340 service in North America 4/16, p. 44
World Airways leases two DC-10-10s 4/30, p. 28
Thai leases DC-8s 5/14, p. 43
Air Force receives leased Beech C-12F aircraft 5/21, p. 151
TWA leases MD-80s 6/25, p. 33
Navy will lease Kfirs for Aggressor role 9/10, p. 43
Pan Am agrees to acquire 28 Airbus Industrie aircraft 9/17, p. 30
Gulfstream 3s meet military requirement 10/1, p. 63
Texas Air, Boeing agree on transport buy 10/8, p. 33
Airline traffic extends gains in September 10/15, p. 31
Midway Express set to fly 10/15, p. 33
Air VIA to link Silicon Valley, New York with modified 727s 11/5, p. 30
Braniff liquidators try to block leasing 11/5, p. 32
Airbus Industrie preparing transports for delivery to Pan American 11/12, p. 28
Braniff lease plan cleared 11/12, p. 30
Northeastern International grounds aircraft 11/12, p. 41
Northeastern service 11/26, p. 42
Joint venture formed for technical auditing 12/3, p. 43
Used regional aircraft market staying strong 12/3, p. 45
New Braniff service 12/10, p. 43

**AIRCRAFT SEATS**
HH-65AA seat in production 7/2, p. 71
Fokker builds cockpit, cabin mockups 9/3, p. 77
New 30-50 seat aircraft vie for commuter market 9/17, p. 58

Pacific Southwest adjusting seat height, APU on its 146s 10/1, p. 34
Business traveler retention sparks class reevaluations 11/26, p. 32
Fairchild Burns' fire-blocking seat exhibited 11/26, p. 47
Carriers expected to continue smaller aircraft update trend 12/3, p. 43

**AIRCRAFT-INTERNATIONAL**

**Argentina**
Argentines roll out new IA.63 jet trainer 10/8, p. 28
Argentine IA.63 trainer undergoes flight tests 10/22, p. 26
Argentine trainer designed to lead to fighter project 10/29, p. 61
Argentines seek IA.63 export sales 10/29, p. 63

**Australia**
Westland agrees to build Australian A20 trainer 6/18, p. 28

**Brazil**
Air Florida commuter airline acquiring four Embraer Bandeirantes 1/2, p. 30
Embraer's second EMB-120 Brasilia begins flight test program 1/16, p. 28
Xingu undergoes French Air Force qualification/acceptance tests 3/12, p. 261
Brasilia readied for the commuter market 5/28, p. 43
EMB-120 specifications 5/28, p. 46
Manufacturers show commuter aircraft 6/4, p. 31
Brazil's air force purchases linked to Embraer packs 6/25, p. 204
Shorts, Embraer Pact 7/9, p. 64
Embraer preparing Tucano trainers for Egypt 7/23, p. 119
Variety of new trainers compete for military market 11/19, p. 54

**Canada**
Canadair, dealer resolve dispute over performance 1/30, p. 49
Engine incidents may spur Challenger retrofit plans 3/5, p. 23
DHC-8 meets goals for performance 4/23, p. 137
Canadair reorganizes Challenger sales division 5/7, p. 95
Canadair seeking broader market base 5/7, p. 95
Manufacturers show commuter aircraft 6/4, p. 31
Turks seek C-47 replacement 8/20, p. 22
German Defense Ministry buys seven Canadair Challengers 8/27, p. 20
DHC-5 crash damages several aircraft at show 9/10, p. 32
Agencies approve winglets on CL-600 aircraft 10/1, p. 45
German order boosts Challenger CL-601 sales 10/1, p. 94
Canadian certificate issued for DHC-8 10/15, p. 34

**China**
China delivers first Y-7 aircraft to CAAC 4/16, p. 68

**Finland**
Valmet develops turbine-engine L-80TP trainer 10/22, p. 81

**France**
Dassault prepares Falcon 900 fuselage prototype for mating 1/16, p. 194
French near decision on loan to Dassault for Falcon 900 1/16, p. 20
Updated Mirage 5s enter Peruvian service 1/16, p. 21
Britain considering flyoff to choose fighter design 1/16, p. 22
Dassault-Breguet plans pressurization tests on prototype Falcon 900 this month 1/23, p. 28
Coast Guard flight tests HU-25A with Aerojet Aireye sensor package 1/30, p. 22
Dassault to increase Falcon 50 output 1/30, p. 48
First Dassault-Breguet Mirage 2000 fighter nears operational status 1/30, p. 59
Aerospatiale accelerating production of Epsilon trainer 1/30, p. 60
French testing Epsilon in trainer role 3/5, p. 51
Socata seeking to expand U.S. market 3/5, p. 68
French, Dassault negotiate Falcon 900 loan 3/26, p. 23
Dassault expecting production approval of ATL2 patrol aircraft 4/16, p. 63
France focusing efforts on experimental fighter 5/21, p. 139
Dassault-Breguet rolls out Falcon 900 business jet aircraft 5/28, p. 25
Dassault books U.S.Falcon 900 orders 6/4, p. 67
French testing Epsilon trainer prior to introduction into air force service 6/11, p. 69
Germans add Falcon 900 to competition 6/11, p. 69
Brazil's air force purchases linked to Embraer packs 6/25, p. 204
Swiss design Mirage 3 retrofit package 6/25, p. 211
Dassault delivers Mirage 2000 systems trainer 6/25, p. 223
French approve start of Atlantique 2 production 6/25, p. 28
Mirage 2000 begins service in France 7/16, p. 46
Argentine Navy studies making aircraft carrier replacement 7/16, p. 48
France basing Gardian aircraft in Pacific 7/23, p. 131
Dassault-Breguet designs future combat aircraft 7/30, p. 18
Greece cuts fighter list, sets Oct. 1 selection 8/6, p. 25
Dassault readies Falcon 900 for start of flight tests 8/13, p. 149
Greece affirms Mirage 2000 purchase 8/13, p. 29
Dassault demonstrates Atlantic 2 in Germany 9/10, p. 133
Dassault Falcon 900 trijet enters flight tests 10/1, p. 120
Falcon 900 business jet makes first flight 10/1, p. 20
Socata initiates TB21 Trinidad flight testing 10/1, p. 21
Togo to buy Epsilon trainer 10/15, p. 21
Corporate flying activity accelerates 10/15, p. 84
French Socata TB21 undergoes flight tests 10/29, p. 51
Dassault's Mirage 3NG fighter displays handling capabilities 10/29, p. 57
India prepares for first Mirage 2000 deliveries 10/29, p. 62
Greek fighter competition won by Mirage 2000, F-16 11/19, p. 28
French display militarized Falcon 50, Ecureuil 2 for maritime missions 11/26, p. 62
France updating Mirage 4A bomber for operations with ASMP missile 11/26, p. 63
Mirage 2000N can be adapted to carry nuclear weapons 12/3, p. 137
French Mirage 4P fitted with updated countermeasures weapons 12/3, p. 87

**Germany**
Commuter aircraft resolve FAA queries 4/16, p. 33
DO.228-200 purchase 4/16, p. 37
Piedmont receives refurbished Fokker F-28 transports 4/23, p. 43
Lufthansa to assemble Dornier amphibian 5/14, p. 24
Fantrainer specifications 5/21, p. 157
Germans prepare Fantrainer for rollout 5/21, p. 157
U.S., British certificate Dornier DO 228 5/21, p. 32
AWACS, amphibian on display at Hanover Air Show 6/4, p. 17
MBB builds variable-stability testbed 8/6, p. 70
Claudius Dornier's Seastar Amphibian makes first flight 8/27, p. 24
Dornier Amphibian enters flight testing 9/3, p. 247
Three Fantrainers participate in German flight test program 9/3, p. 44
Dornier exhibits model of European fighter 9/24, p. 84
Dornier will deliver DO 228 transport to Air Botswana 9/24, p. 85
Variety of new trainers compete for military market 11/19, p. 54
British using West German gliders in training program 12/3, p. 167

**Great Britain**
Westinghouse modifies BAC 111 transport to test APQ-164 radar
Turbo Firecracker nears certification 1/2, p. 41
British Aerospace testing carbon fiber engine access door 1/9, p. 59
Britain considering flyoff to choose fighter design 1/16, p. 22
Test failures delays Lear Fan 2100 production two months 1/16, p. 24
146 production rate 1/16, p. 32
Lear Fan 2100 tests 1/20, p. 54
Airline resumes service 1/23, p. 32
British Aerospace delivers third Jetstream 31 to U.S. airline 1/23, p. 36
Institute will use Jetstream converted laboratory for acid rain studies 2/27, p. 78
British role in new aircraft program grows 3/5, p. 25
PSA awaits flight simulator for 146 3/12, p. 254
USAF orders Short Brothers Sherpa transports 3/12, p. 275
British begin production of ATP aircraft 3/19, p. 35
Training counters lack of combat experience 3/19, p. 60
British Aerospace active control Jaguar flies with modified wing 4/2, p. 24
Short Brothers delivery 4/9, p. 81
British plan to install variable stability flight control system in Hawk trainer 4/16, p. 73
Sea Harrier makes ski-jump takeoff carrying missiles 4/23, p. 163
British Aerospace revives plan for singleseat attack Hawk 4/23, p. 29
Cascade BAC 111s 4/23, p. 33
British Aerospace delivers 146-100 to Alaskan carrier 4/23, p. 37
First Short Brothers SD 360 delivered to Wright Air Lines 5/28, p. 35
Pilatus Britten-Norman Castor Islander proposed for British airborne standoff radar role 6/4, p. 25
Manufacturers show commuter aircraft 6/4, p. 31
PSA accepts delivery of first of 20 British Aerospace transports 6/11, p. 29
146s enter scheduled service with PSA 7/2, p. 34
Carrier begins package service in South 7/23, p. 31
Shorts C-23A Sherpa makes its initial flight 8/13, p. 29
Lear Fan 2100 completes structural testing 8/20, p. 18
Royal Family 146-100 8/20, p. 46
Short Brothers preparing C-23A Sherpa for delivery to USAFE 8/20, p. 57
Hamilton Standard tests six-blade propeller 8/20, p. 74
British Aerospace 146-100 tours China 8/27, p. 29
Short Brothers will provide logistics, maintenance support for C-23A 9/3, p. 209
Lear Fan 2100 certification remains on schedule 9/3, p. 50
Modified Vickers VC10 tankers become operational with British Royal Air Force 9/3, p. 81
British Aerospace 146s fly regular schedule with Pacific Southwest Airlines 9/3, p. 83
Folding-wing aircraft designed in Britain 9/10, p. 134
British Aerospace 146 Specifications 9/10, p. 47
NDN Fieldmaster scoops water in flight 9/17, p. 47
British exhibit Hawk 200 fighter mockup 9/24, p. 64
Manufacturer displays Edgley Optica aircraft 9/24, p. 79
Pacific Southwest adjusting seat height, APU on its 146s 10/1, p. 34
NDN marketing Fieldmaster as water bomber 10/8, p. 59
Propeller deicing configurations undergo evaluation at California site 10/8, p. 81
Airborne early warning defender makes appearance in Britain 10/15, p. 64
British RAF refuses Nimrod AEW delivery 10/15, p. 98
British advanced turboprop transport ahead of schedule 10/22, p. 45
Short Brothers demonstrates two transports 10/22, p. 49
British expand SkyHook launch system uses 10/22, p. 65
British design retractable hook-on device enabling all harrier aircraft to use SkyHook 10/22, p. 67
SkyHook could alter roles of aircraft carriers 10/22, p. 72
British demonstrate active control Jaguar 10/29, p. 66
EEC reviews airline financing plans 11/5, p. 25
Bank makes SD3-60 loan 11/5, p. 29
California air carriers using variety of transport aircraft 11/12, p. 137
First two Sherpa transports arrive at USAFE base 11/12, p. 25
British view antitrust, trade laws in U.S. as key to fare agreements 11/12, p. 81
British display 146 transport in Far East 11/12, p. 86
Variety of new trainers compete for military market 11/19, p. 54
Harrier GR.5 will use British Aden 25 gun 12/3, p. 108
Carrier rejects buy of ATR42 12/3, p. 48

**India**
Indian firm to enter export market 9/24, p. 24
Variety of new trainers compete for military market 11/19, p. 54

**Israel**
House panel approves FMS credit for Israel 3/19, p. 101
Israel Aircraft Industries' Astra business aircraft makes its first flight 4/2, p. 16
Astra executive jet reaches Mach 0.68 4/16, p. 165
Funding for Israeli fighter triggers debate in House 5/21, p. 24
Swiss design Mirage 3 retrofit package 6/25, p. 211
Navy will lease Kfirs for Aggressor role 9/10, p. 43
Israelis will demonstrate Astra aircraft at NBAA convention 10/1, p. 105
U.S. approves technology transfer to Israel for Lavi 11/5, p. 20
Chem-tronics producing ducts for PW1120 engines 12/3, p. 100
Lavi in development for mid-1986 rollout 12/3, p. 24

**Italy**
Italians deliver Macchi trainer to Malaysians 1/30, p. 51
Spartacus RG approaches beginning of flight testing 4/23, p. 147
Aeritalia studying follow-on versions of military transport 4/30, p. 44
Turks seek C-47 replacement 8/20, p. 22
Partenavia's P.68 Observer has TV surveillance system 9/24, p. 85

**Japan**
Swedair performs target-towing with Mitsubishi MU-2 aircraft 3/5, p. 69
Boeing, Japan sign work share pact for 7-7 3/19, p. 32
Mitsubishi plans 1985 Diamond 2 delivery 5/14, p. 58
FAA MU-2 review finds type approval compliance 10/29, p. 49
Japanese modify C-1 flight simulator 11/12, p. 93
Mitsubishi Diamond 2 scheduled for certification in 1985 11/19, p. 24
Fort Worth Airlines will start service this week with Nihon YS-11 12/10, p. 43

**Libya**
Britain-Libya flights continue 4/30, p. 32

**Netherlands**
Fokker developing transport designs 1/9, p. 42
Fokker loan guarantees 3/19, p. 30
Short Brothers to design, build Fokker 100 wing 3/26, p. 29
Fokker readies F-27 armed maritime aircraft 4/23, p. 65
Fokker, Boeing vie for Swissair order 5/14, p. 33
Manufacturers show commuter aircraft 6/4, p. 31
SAS buys used F27s 6/25, p. 36
Manufacturer conducting wind tunnel tests of new Fokker 50 transport 7/23, p. 26
Fokker F-28 buy 7/23, p. 47
Fokker, Westland aircraft 9/24, p. 91
Air UK will use F-28 on its Amsterdam route 11/19, p. 43
Fokker 100 simulators 12/3, p. 53

**Romania**
Rombac 1-11 Specifications 10/8, p. 37
Yugoslavia, Romania eye export market 10/8, p. 37

**Spain**
F-18 buy brings Spain $1.8-billion offset 6/4, p. 17
CASA agreement 6/25, p. 26

**Sweden**
Sweden adjusts to military reductions 1/23, p. 101
Sweden trimming combat force 1/23, p. 112
Finland buys Drakens 4/2, p. 17
Swedes react to violation by USSR Su-15 9/17, p. 24

**Switzerland**
Pilatus PC-9 trainer makes first flight 5/14, p. 25
Swiss PC-9 turboprop trainer makes first flight 5/21, p. 23
Pilatus pushes PC-9 as trainer for RAF 5/28, p. 63
Swiss design Mirage 3 retrofit package 6/25, p. 211
Second Pilatus PC-9 trainer joins flight test program 8/20, p. 50
Swiss claim PC-7 hard points violate export law 8/20, p. 50
Variety of new trainers compete for military market 11/19, p. 54

**Taiwan**
Trainer/attack prototype rolls out in Taiwan 5/21, p. 25

**USSR**
New Soviet aircraft focus U.S. attention on advanced fighter 3/19, p. 46
U.S. space shuttle astronauts photographed Soviet flight test center 3/26, p. 17
Soviets use flares to counter missiles 3/26, p. 54
Soviets making gains in air defense 4/2, p. 22
Soviet Union continues military buildup 4/23, p. 53
Soviets reequip forward air forces 5/21, p. 65

Soviets improve airlift, combat forces 5/28, p. 58
Senate panel votes to postpone Navy's aggressor aircraft buy 6/18, p. 30
Soviet western theater 7/16, p. 69
Administration concern grows over increasing Backfire force 7/23, p. 16
Soviet threat spurs Phoenix follow-on 7/23, p. 16
U.S. fighters escort Soviet military aircraft 8/6, p. 29
Aeroflot withdraws Tu-144 from operations 8/20, p. 29
USSR An-72 displays aerobatic maneuverability 9/10, p. 31
Swedes react to violation by USSR Su-15 9/17, p. 24
Japan warns of Soviet Far East buildup 9/24, p. 23
USSR displays M-50 Bounder bomber at Air Force Museum 9/24, p. 62
Japanese intercept Soviet backfire bombers over Sea of Japan 10/8, p. 26
Soviets display helicopter, transport 10/8, p. 64
Soviets assembling I1-86 transports in Voronezh plant 10/15, p. 78
Soviets using Su-25s in attacks on rebel units 10/29, p. 38
Su-24s, Tu-16s support Soviet ground forces 10/29, p. 40
Soviets using I1-86 wide-body transport on domestic, foreign routes 11/12, p. 88
USSR's reusable orbiter nears approach, landing tests 12/3, p. 18
Soviet Tupolev Badgers refuel over East China Sea 12/3, p. 27

**Yugoslavia**
G-4 Super Galeb 10/8, p. 37
Yugoslavia, Romania eye export market 10/8, p. 37

---

**AIRCRAFT-INTERNATIONAL-CONSORTIUM**

**Aeritalia/Embraer AMX**
AMX fighter prototype makes first flight 5/21, p. 24
Joint Italian-Brazilian AMX fighter begins flight tests 5/28, p. 27
AMX prototype crashes on its fifth flight 6/11, p. 52
AMX rolled out 7/16, p. 25
Second AMX prototype rolls out at Aermacchi manufacturing facility 7/23, p. 14
Italians ship AMX fuselage to Brazil 11/19, p. 70
AMX attack aircraft 11/26, p. 23
Second multinational AMX prototype makes its first flight 12/3, p. 28

**Airbus A300**
Northeastern purchases A300s 1/9, p. 34
Northeastern Internatinal Airways begins Airbus A300 service 2/20, p. 34
Europe ties sales to economic recovery 3/12, p. 196
PW4000 flight test 3/19, p. 29
Lufthansa seeks long-range 747-300 5/28, p. 35
Airbus orders 7/2, p. 31
Airbus records 24 firm 1984 orders 9/10, p. 49
Swedes react to violation by USSR Su-15 9/17, p. 24
Air France to order A310, trades away A300 delivery 11/5, p. 28
Airbus will accelerate A300, A310 production 11/12, p. 30
Northeastern International grounds aircraft 11/12, p. 41

**Airbus A300B2**
Airbus A300B2 testbed is fitted with General Electric CF6-80C2 engine 9/3, p. 215

**Airbus A300-600**
Airbus building covertible A300-600 for Kuwait 3/12, p. 207
A300-600 certification 3/19, p. 31
Five Airbus A300-600s join Saudi fleet 5/14, p. 46
Middle, Near East airlines increase A300/A310 use 5/14, p. 47
Saudia powers A300-600s with highest-thrust JT9Ds 5/14, p. 51
Saudia pilots earn FAA A300-600 ratings 5/28, p. 42
United Arab Emirates buy 8/13, p. 32
Thai orders carbon brakes for A300-600s 12/3, p. 108

**Airbus A310**
British Caledonian A310 begins test flight 1/9, p. 31
Europe ties sales to economic recovery 3/12, p. 196
Airbus Industrie delivers A310 transport to Cyprus Airways 3/19, p. 31
Sabena expanding Airbus A310 service to Africa, Middle East 5/7, p. 40
Air France A310s with flight engineer's side panel begin service 5/14, p. 34
Air Algerie orders A310s 6/4, p. 30
Airbus records 24 firm 1984 orders 9/10, p. 49
Pan American makes initial payment on Airbus aircraft 9/24, p. 28
Algerian carrier begins operations with Airbus A310 10/22, p. 52
Airbus will accelerate A300, A310 production 11/12, p. 30
A310 transports stored 11/26, p. 42

**Airbus A310C**
Airbus A310C convertible transport nears completion 8/6, p. 41

**Airbus A310-200**
Airbus flight tests larger wingtip fences on A310-200 9/3, p. 151

**Airbus A310-300**
Pan Am agrees to acquire 28 Airbus Industrie aircraft 9/17, p. 30
Pan American completes sales of 10-year Swiss franc bonds 10/1, p. 38
British Aerospace starts work on wing skins for A310-300 10/15, p. 47
Airbus Industrie preparing transports for delivery to Pan American 11/12, p. 28
Swissair's Balair plans to use long-range A310-300 11/19, p. 43

**Airbus A320**
European companies team for CFM56-4 reverser bid 1/9, p. 32
Airbus A320 to use side stick controller 2/20, p. 32
German cabinet ratifies funds to assist A320 development 2/27, p. 35
Canada bypasses A320 3/5, p. 29
British government underwrites A320 share 3/5, p. 30
Europe ties sales to economic recovery 3/12, p. 196
Airbus gears for A320 production 3/12, p. 268
British financing tied to future A320 sales 3/12, p. 270
Europeans endorse A320 production 3/19, p. 29
Airbus modifies cockpit for A320 transport 3/26, p. 31
Airbus views 7-7 pact as response to A320 3/26, p. 32
France asks A320 exemption from politics 4/30, p. 32
IAE sets V2500 design specifications 5/7, p. 84
Airbus A320 model tested in wind tunnel 5/21, p. 31
Airbus to offer V2500 option on A320 5/21, p. 33
British funding 5/21, p. 33
Airbus work sought 7/30, p. 35
Airbus partners begin A320 production 8/6, p. 31
Hawker signs pact to build A320 parts 8/6, p. 33
Airbus selecting A320 subcontractors 9/3, p. 151
Airbus to test A320 sidestick controls at both pilot positions 9/3, p. 228
French, U.S. companies team on A320 Gyro bid 9/10, p. 35
Airbus records 24 firm 1984 orders 9/10, p. 49
Pan American makes initial payment on Airbus aircraft 9/24, p. 28
A320's CFM56 engine will use four-door reverser 9/24, p. 75
U.S. airframe manufacturers face uncertainties in product planning 11/12, p. 145
Airbus Industrie preparing transports for delivery to Pan American 11/12, p. 28
Improved CFM56 will power A320 11/12, p. 42
A320 control system 11/26, p. 34
A320 long-lead items enter production 12/10, p. 41

**Airbus A320-200**
Pan Am agrees to acquire 28 Airbus Industrie aircraft 9/17, p. 30
Pan American completes sales of 10-year Swiss franc bonds 10/1, p. 38

**Alpha Jet**
Larzac certified 7/9, p. 55

**Atlantic 2**
France drops Fokker from consortium 9/10, p. 36

**ATR42**
Aerospatiale mates wing to fuselage of first ATR42 commuter transport 2/20, p. 33
Aerospatiale finishes first ATR42 aircraft wing mate 2/27, p. 52
Engine tests start on ATR42 transport 7/9, p. 37
Alitalia will purchase 747s, ATR42s 8/6, p. 32
Mock-up shows ATR42 cockpit instrumentation 8/6, p. 75
Hamilton Standard tests six-blade propeller 8/20, p. 74
French/Italian ATR42 begins flight tests 8/27, p. 31
ATR42 tests confirming design goals 9/10, p. 87
ATR42 flight program 11/5, p. 24
EEC reviews airline financing plans 11/5, p. 25
Second French/Italian ATR42 enters flight test program 11/12, p. 20
Carrier rejects buy of ATR42 12/3, p. 48

**British Aerospace/Aerospatiale Concorde**
British ponder return of Concorde service 4/30, p. 32

**British Aerospace/McDonnell Douglas T-45 Hawk**
Navy to fund Hawk trainer in fiscal 1985 1/2, p. 18

**CN-235**
Indonesian CN-235 makes first flight 1/9, p. 29
Turks seek C-47 replacement 8/20, p. 22

**European Fighter**
Europeans agree on future fighter 1/2, p. 17
Britain considering flyoff to choose fighter design 1/16, p. 22
Armament directors refine EFA options 5/28, p. 18
Defense ministers review future fighter 7/9, p. 22
European ministers sign pact to study new fighter program 7/16, p. 23

**Gates Learjet/Piaggio GP-180**
Construction under way on GP-180 business aircraft 5/14, p. 21
Gates Learjet, Piaggio GP-180 first flight scheduled for 1985 10/1, p. 95
Gates Learjet, Piaggio display GHP-180 mockup 10/22, p. 92

**McDonnell Douglas/British Aerospace Harrier GR.5**
British prepare to mate GR.5 fuselage 6/4, p. 78

**Northrop/Dornier N/D-102**
Allied command defends vast area 5/21, p. 57
Communications hamper joint efforts 5/21, p. 91
Armament directors refine EFA options 5/28, p. 18

**Reims/Cessna F 406 Caravan 2**
Reims/Cessna Cavavan 2 in production 10/1, p. 22

**Saab-Fairchild 340**
Saab-Fairchild 340s scheduled for delivery 1/9, p. 27
Saab-Fairchild 340 sales 2/13, p. 40
Saab-Fairchild tests winglets on 340 2/13, p. 40
Simulator delivered 2/13, p. 41
SAS opens training facility for Saab-Fairchild 340 3/12, p. 243
Saab-Fairchild 340 commuter transport 3/19, p. 27
Computer aircraft resolve FAA queries 4/16, p. 33
Air Midwest will operate 340s with 30 seats under Part 135 4/16, p. 40
Comair to start 340 service in North America 4/16, p. 44
Number of exhibitors increases at Hanover 5/28, p. 19
Saab-Fairchild 340 6/4, p. 29
SF-340 offers payload-range versatility 6/11, p. 61
Saab-Fairchild 340 specifications 6/11, p. 64
Saab-Fairchild 340 6/18, p. 52
Comair advances delivery of Saab-Fairchild 340s 7/30, p. 34
Swiss ground SF-340 aircraft after Crossair engine incidents 9/10, p. 36
Comair sets wages for Saab 340 pilots 9/10, p. 89
Saab-Fairchild 340 commuter demonstrates capabilities at Farnborough 9/24, p. 63
FAA approves fix for CT7 engine 10/1, p. 34
Corporate flying activity accelerates 10/15, p. 84
GE modifying CT7 second stage following operational failure 11/12, p. 32

**Tornado**
MBB, Panavia plan HARM, new avionics on Tornado 2/13, p. 26
MBB, Panavia study adaptation of Tornado to carry Texas Instruments HARM missiles 2/20, p. 68
Panavia begins flight tests of F.2 Tornado 4/2, p. 22
Tornado F.2 production aircraft begins flight 4/9, p. 21
Lack of spares hinders Italy's Tornados 4/16, p. 72
Germans, French tighten security ties 5/21, p. 124
Economics, politics portend shifts 5/21, p. 50
British modify German-based Tornados 6/4, p. 75
Germans form first Tornado strike unit 6/11, p. 54
Greece cuts fighter list, sets Oct. 1 selection 8/6, p. 25
Four Tornadoes crash in July 8/13, p. 26
Lucas digital engine control unit flying on Tornado 9/3, p. 143
Germans will not block Tornado sale to Saudis 9/3, p. 216
Tornado fighter varies wing sweep at Farnborough 10/15, p. 65

**Transall**
Consortium weighs airlift/cargo aircraft 9/17, p. 61

**Transall C-160**
French start training on Thomson-CSF C-160 simulator 9/3, p. 183

---

**AIRCRAFT-U.S.**

**Avtek 400**
Avtek builds composite turboprop aircraft 8/6, p. 67
Avtek 400 begins flight test series 10/1, p. 19
Avtek 400 stresses composites 10/15, p. 83

**Beech A-36**
Companies develop turboprop conversion unit for Beech A-36 Bonanza 8/20, p. 23

**Beech C-12**
Air Force receives leased Beech C-12F support aircraft 5/21, p. 151

**Beech F33A Bonanza**
F33A Bonanza price cut 7/23, p. 138

**Beech Starship 1**
Starship emphasis 10/8, p. 29
Starship 1 dominates Beech research programs 10/22, p. 89

**Beech Super King Air 300**
Super King Air 300 deliveries set for April 2/27, p. 79
Beech Aircraft begins deliveries of its Super King Air 300 10/1, p. 125

**Beech 1900**
1900's speed, range, payload enhance scheduling flexibility 11/26, p. 48
Beech 1900 airliner specifications 11/26, p. 52

**Beech 1900C**
Aztec, 1900C collide near Hanover 5/28, p. 17

**Beechcraft C-99**
Midair collision 9/3, p. 68

**Bell XV-15**
Improved testing methods enhancing research 1/16, p. 101

**Boeing B-52**
Bomber force modernization 3/12, p. 27
SAC integrates B-52 weapons training 5/14, p. 81
USAF asks B-52 upgrade to carry missiles 9/3, p. 270

**Boeing C-135C**
USAF laboratory studies voice controls 5/21, p. 182

**Boeing E-3A**
Computer-based trainer simulates AWACS radar 1/16, p. 206
U.S. assigns two AWACS to Egypt 3/26, p. 27
AWACS, amphibian on display at Hanover Air Show 6/4, p. 17
NATO seeking more sensors on E-3A force 7/9, p. 23
France will acquire E-3A aircraft powered by CFM56 11/19, p. 27

**Boeing E-6A**
E-6 fund cut expected to spur debate 1/30, p. 20
French de[illegible]M56 thrust reversers 2/6, p. 43
Navy pl[illegible] 15 Boeing E-6AS for stra[illegible]munications mission 12/3, p. 22

**Boeing K[illegible]**
Gull as[illegible]C-135 fleet fuel management 5/28, p. 162
Cong[illegible]irects USAF to buy 707s for sp[illegible] 9/10, p. 132

**Boeing KC-135R**
First reengined KC-135R tanker refuels SR-71 7/16, p. 61

**Boeing KE-3**
1983 Boeing orders 1/9, p. 31

**Boeing 7-7**
Boeing, Japan near decision on 7-7 work share 1/23, p. 30
Boeing, Japan sign work share pact for 7-7 3/19, p. 32
Airbus views 7-7 pact as response to A320 3/26, p. 32

**Boeing 707**
Modified 707 finishes acoustic flight tests 8/6, p. 32
Congress directs USAF to buy 707s for spares 9/10, p. 132
Norwegian F-16 intercepts 707 transport near Soviet airspace 10/22, p. 34
Orders received for 707 noise-reduction kits 10/22, p. 45
707 test-flies Tracor/Shannon hush kit 10/29, p. 29

**Boeing 720**
FAA crash plan 10/29, p. 76

- 720 completes tests before crash 11/5, p. 61
- Demonstration 720 crash delayed for control changes 11/19, p. 25
- Control impact demonstration 720 cabin fire leaves key data intact 12/10, p. 31

**Boeing 727**
- FAA approves Flight Dynamics category 2 HUD 1/30, p. 68
- Transbrasil faces choices on expansion of inventory 6/18, p. 45
- Piedmond 727 will test threat alert/collision avoidance device 11/12, p. 194
- Air 1's 727 transport grounded as airline seeks to reorganize 11/26, p. 34

**Boeing 727-100**
- Ryan expands charter service to airline category transports 5/7, p. 39
- Firm converting 727s to all-cargo aircraft 9/10, p. 67
- Airframe makers plan for new propfan engine 9/17, p. 60

**Boeing 737**
- Lufthansa orders 737s 1/2, p. 30
- Western Airlines switches transport order from 767s to 737s 1/16, p. 30
- FAA approves Flight Dynamics category 2 HUD 1/30, p. 68
- Wien sells 737s 7/9, p. 27
- Passengers, crews rescued in two hijackings 8/6, p. 30
- America West expansion 8/27, p. 36
- Repossessed Boeing 737 9/10, p. 49
- Boeing performing tests on 737s 9/10, p. 81
- California air carriers using variety of transport aircraft 11/12, p. 137

**Boeing 737-100**
- America West expansion 4/30, p. 29

**Boeing 737-200**
- Boeing delivers VIP-configured 737-200 transport to Thailand 3/5, p. 33
- Municipal, airport groups ask noise-linked production ban 4/16, p. 32
- 737-200 buy 4/16, p. 36
- America West expansion 4/30, p. 29
- Boeing nears completion of first 737-200 for MarkAir 5/7, p. 41
- Fokker, Boeing vie for Swissair order 5/14, p. 33

**Boeing 737-200C**
- People's Republic of Yemen receives Boeing 737-200C convertible transport 9/3, p. 129
- Airline buys 737-200Cs 10/8, p. 38

**Boeing 737-300**
- Boeing rolls out 737-300 version 1/23, p. 30
- Boeing installs CFM56-3 engines on second 737-300 2/13, p. 39
- Boeing taxis first 737-300 2/27, p. 30
- Boeing's new 737-300 transport makes first flight 3/5, p. 28
- Economy key to 737-300 flight system 3/5, p. 71
- Pakistan orders 737-300s 3/19, p. 32
- Boeing refines design of 737-300 transport while flight testing continues 4/23, p. 31
- Boeing 737-300 orders placed 5/7, p. 28
- USAir upgrades fleet with 737s 5/14, p. 41
- Maersk Air 737-300 5/21, p. 34
- Boeing assembling 737-300 transport for Southwest Airlines 6/18, p. 41
- Boeing performs velocity minimum unstick tests on 737-300 transport 6/18, p. 52
- Exim Pakistan Loan 8/6, p. 18
- USAir 737-300 order 9/17, p. 30
- Texas Air, Boeing agree on transport buy 10/8, p. 33
- Aircal taking larger California market share 10/15, p. 46
- JAT orders two Boeing 737-300s 10/15, p. 47
- 737-300 shows added performance, workload cut 11/12, p. 205
- 737-300 service entry 12/3, p. 35

**Boeing 747**
- British Caledonian replaces Boeing 757 floor beams 1/16, p. 188
- Boeing evaluates two systems for weight, balance on 747s 1/23, p. 36
- NASA facility studies in-flight refueling of 747 shuttle carrier 2/13, p. 131
- Shuttle carrier refueling tests suspended 2/27, p. 21
- People Express leases three 747s 2/27, p. 35
- Boeing offers larger stowage bins on 747 transport 4/23, p. 40
- Virgin Atlantic Airways uses Boeing 747 on London-Newark route 7/16, p. 29
- Fleet expansion 8/6, p. 27
- ICAO pushes new intercept rules 8/6, p. 28
- Alitalia will purchase 747s, ATR42s 8/6, p. 32
- Saudi Arabia buys 10 747s, 60 RB.211s with oil 8/20, p. 28
- Boeing rolls out 100th 767, 600th 747 9/3, p. 121
- USAF studies modified aircraft to ship large shuttle payloads 10/15, p. 39
- Boeing extending upper deck of KLM 747 transport 10/22, p. 41
- Boeing retrofits extended upper deck on 747 11/5, p. 25
- NTSB investigates 747 takeoff abort 11/26, p. 34

**Boeing 747F**
- Saudia expects traffic rise to continue 5/28, p. 37
- Boeing nears completion of Nippon Cargo 747F Freighter 11/12, p. 31

**Boeing 747-200**
- Civil Aviation Administration of China takes delivery of Boeing 747-200 Combi 1/30, p. 29

**Boeing 747-300**
- Royal transport 4/16, p. 33
- Boeing 747-300 order 4/16, p. 52
- Lufthansa seeks long-range 747-300 5/28, p. 35
- Varig buys 747s 10/8, p. 32

**Boeing 757**
- Fatigue tests bring minor 757 changes 1/9, p. 28
- Boeing prepares to flight test RB.211-535E4 engine on 757 1/30, p. 45
- Boeing tests 757 transport with Rolls-Royce RB.211-535E4 2/13, p. 30
- American continues plans to purchase Boeing 757 3/5, p. 27
- Boeing 757 transport tested with Pratt & Whitney PW2037 powerplants 3/19, p. 28
- Boeing testing PW2037 powerplants on 757 transport 3/26, p. 29
- Boeing delivers 757 transport with higher takeoff weight 4/30, p. 34
- Boeing will deliver 757 transport to new German carrier 6/18, p. 49
- 757 engine controls survive lightning strike 8/20, p. 22
- Boeing conducts refused takeoff tests of 757 transport 9/3, p. 129
- Initial 757 sent to Delta with PW2037 engines 11/5, p. 29
- Eastern's CEO praises RB.211-535 12/10, p. 40

**Boeing 767**
- Western Airlines switches transport order from 767s to 737s 1/16, p. 30
- British 767 delivery 2/13, p. 29
- TWA overwater bid 8/6, p. 30
- Boeing rolls out 100th 767, 600th 747 9/3, p. 121

**Boeing 767ER**
- Boeing building extended-range 767 transports for Egyptair 6/4, p. 32
- EgyptAir using Boeing 767ER on Middle Eastern, African routes 9/10, p. 83

**Boeing 767-200**
- Boeing urges 2-engine ruling 6/4, p. 32
- Transbrasil faces choices on expansion of inventory 6/18, p. 45

**Boeing 767-200ER**
- Boeing presses 767 overwater certification 5/7, p. 27
- 767-200ER flight 6/11, p. 32
- Fleet expansion 8/6, p. 27

**Boeing 767-300**
- Delta orders 767-300s 2/27, p. 31
- Boeing builds engineering mockup of stretched 767 transport 7/2, p. 35
- Boeing selects Bendix brakes 10/8, p. 61

**Cammacorp Super 70**
- Cammacorp flight testing digital cockpit on reengined DC-8 4/30, p. 29

**Cammacorp Super 73**
- French transport buy 5/14, p. 36

**Cessna Caravan**
- Federal Express test 2/13, p. 29
- First production aircraft joins flight test program of Caravan 1 utility aircraft 9/3, p. 287

**Cessha Citation 1**
- Cessna increases reliance on turbine-powered line 5/7, p. 100

**Cessna Citation 2**
- Cessna increases reliance on turbine-powered line 5/7, p. 100
- Customs service adds four Citation 2s to its drug detection fleet 5/7, p. 17
- Saudia corporate division expands with Citation 2s 6/11, p. 39

**Cessna Citation 3**
- Citation 3 avionics 1/9, p. 81

**Cessna Conquest**
- Cessna seeks increase in Conquest sales 10/15, p. 85

**Cessna Model 208**
- Electro-impulses deicing shows promise 7/9, p. 65

**Cessna T-47A**
- Cessna delays testing of navigation trainer 11/26, p. 30

**Cessna 402**
- Federal Express test 2/13, p. 29

**Chance/Voight F-8**
- NASA tests new digital fly-by-wire backup 8/20, p. 25

**Convair Super 580**
- Convair Super 580 to enter regional market 12/3, p. 97

**Douglas C-47**
- Turks seek C-47 replacement 8/20, p. 22

**Douglas ERA-3B**
- Boeing upgrading radome technology 8/13, p. 183

**Fairchild A-10**
- USAF studies successor to A-10 5/28, p. 22
- Fairchild studies light missiles, A-10 follow-on as new efforts 9/3, p. 281
- Firms study close support aircraft 10/22, p. 26

**Fairchild A-10A**
- USAF tests ground proximity alert system on A-10A aircraft 3/5, p. 53

**Fairchild Metro**
- NTSB urges review of Metro stall device 7/23, p. 31

**Fairchild T-46A**
- Fairchild T-46A assembly on schedule 9/3, p. 275
- Fairchild studies light missiles, A-10 follow-on as new efforts 9/3, p. 281

**Fairchild 300**
- Control changes improve Fairchild 300 2/13, p. 49

**General Dynamics EF-111A**
- USAF nearing EF-111 jammer upgrade pact 7/30, p. 23

**General Dynamics E-7**
- Model of E-7 tests augmentor operation 7/16, p. 45

**General Dynamics F/FB-111**
- Air Force updating F/FB-111 avionics 1/2, p. 62

**General Dynamics F-16**
- Turkish F-16s 1/9, p. 16
- Pratt nears completion of F100 inspections 1/16, p. 19
- Air Force considers using integrated avionics in F-16 2/13, p. 160
- New Soviet aircraft focus U.S. attention on advanced fighter 3/19, p. 46
- General Electric tests F110 fighter engine 4/23, p. 64
- Turkey, U.S. sign agreement to coproduce F-16 fighters 5/14, p. 26
- Senate panel votes to postpone Navy's aggressor aircraft buy 6/18, p. 30
- Marconi Avionics begins wide-angle HUD deliveries for F-16 6/18, p. 96
- Marconi deliveries F-16C/D head-up display 6/25, p. 224
- General Dynamics displays F-16 versions 7/9, p. 53
- Greece cuts fighter list, sets Oct. 1 selection 8/6, p. 25
- AFTI/F-16 will test voice recognizers 8/13, p. 177
- Navstar GPS receiver installed in F-16 8/20, p. 47
- U.S. Koreans conduct joint air exercises 9/3, p. 141
- NASA Ames-Dryden completes first phase of tests on AFTI F-16 9/3, p. 213
- Plans change on F-16 communications 9/10, p. 163
- Vinten working on flir for U.S. drug unit 9/17, p. 62
- USAF demonstrates F-15, F-16 10/15, p. 71
- Norwegian F-16 intercepts 707 transport near Soviet airspace 10/22, p. 34
- F-16 flight simulator 11/5, p. 23
- Facility for F-16 coproduction work is built in Turkey 11/12, p. 18
- Greek fighter competition won by Mirage 2000, F-16 11/19, p. 28
- Robot used in manufacturing of F-16 fighter 12/3, p. 113

**General Dynamics F-16C**
- General Dynamics testing production F-16C for USAF 8/20, p. 55
- F-16C fixes key to 1985 deliveries 11/5, p. 22

**General Dynamics F-106B**
- NASA studies lightning hits on F-106B 2/13, p. 42

**Grumman**
- Grumman amends warranty, resumes Navy deliveries 11/12, p. 17

**Grumman A-6**
- Pratt named GE F404 second source 10/1, p. 20

**Grumman A-6E**
- Sensor system adds' to A-6E reliability 4/16, p. 59
- Grumman awarded contracts for upgrades to F-14, A-6E 8/6, p. 18
- Hughes develops target recognition, attack multisensor 12/10, p. 75

**Grumman C-2A**
- C-2A cost savings exceed forecasts 8/13, p. 59

**Grumman EA-6B**
- Grumman testing EA-6B aircraft with improved systems 3/12, p. 221
- Grumman delivers first EA-6B Prowler with improved radar jammer to Navy 5/7, p. 15

**Grumman E-2C**
- Grumman to ask French why E-2C dropped from AEW buy 1/23, p. 28

**Grumman F-14**
- Navy assigns F-14 to Reserve squadrons 3/12, p. 273
- Navy studies F-14 yaw characteristics 7/9, p. 68
- Navy studies retrofitting F-14 with F110 engines 7/16, p. 26
- Grumman awarded contracts for upgrades to F-14, A-6E 8/6, p. 18
- U.S. fighters escort Soviet military aircraft 8/6, p. 29

**Grumman F-14A**
- Navy squadron practices missile firing against target drones 12/3, p. 85

**Grumman F-14D**
- Navy switches F-14D to F110 engine 2/13, p. 24

**Grumman/General Dynamics EF-111A**
- USAF to upgrade EF-111A jamming system 1/23, p. 18
- EF-111A gives USAFE electronic strike support 2/13, p. 25

**Grumman KA-6D**
- Grumman delivers remanufactured KA-6D tanker to Navy 12/3, p. 78

**Grumman X-29**
- Grumman seeking way to ship X-29 aircraft to Edwards AFB 6/25, p. 213

**Grumman X-29A**
- Grumman transfers X-29A demonstrator to flight test facility 7/16, p. 50
- X-29A nears beginning of flight tests 8/27, p. 23
- Grumman begins X-29A taxi tests following aircraft rollout 9/3, p. 51
- X-29A flight controls 9/10, p. 163
- Forward swept wing X-29A arrives at Edwards for tests 10/22, p. 28
- X-29A research aircraft completes series of taxi tests at Edwards 12/10, p. 25

**Gulfstream Aerospace Commander**
- Gulfstream Aerospace stresses special mission aircraft 10/1, p. 94
- Gulfstream Aerospace tests Commander Jetprop 100 patrol version 10/22, p. 120
- Investors seek Commander line rights 10/29, p. 25

**Gulfstream Aerospace Commander 900**
- Canadian operator plans to use Gulfstream Commander 900 air ambulance 3/26, p. 61

**Gulfstream Aerospace C-20A**
- Gulfstream 3s meet military requirement 10/1, p. 63

**Gulfstream Aerospace Gulfstream 3**
- Graphite epoxy rudder tested 1/9, p. 70

**Gulfstream Aerospace Peregrine**
- Gulfstream plans Peregrine production 2/27, p. 73

**Gulfstream Aerospace SRA-1**
- Gulfstream completes first SRA-1 for military surveillance and reconnaissance 5/28, p. 24
- Gulfstream SRA-1 surveillance, reconnaissance aircraft makes its first flight 9/10, p. 132

**Gulfstream Aerospace 3**
- Gulfstream 3s meet military requirement 10/1, p. 63
- Gulfstream Aerospace stresses special mission aircraft 10/1, p. 94

**Gulfstream Aerospace 4**
- Corporate flying activity accelerates 10/15, p. 84

**Lear Fan Ltd. Lear Fan 2100**
- Test failures delays Lear Fan 2100 production two months 1/16, p. 24
- Lear Fan 2100 tests 2/20, p. 54
- Lear Fan 2100 completes structural testing 8/20, p. 18
- Lear Fan 2100 certification remains on schedule 9/3, p. 50

**Lockheed**
- Lockheed investigates solar-powered platform 11/26, p. 89

**Lockheed C-5**
- Lockheed proposes C-5 maximum capacity tests 2/27, p. 20
- More posturing over procurement 10/1, p. 13
- USAF, Lockheed conducting C-5 evaluations 11/19, p. 58

**Lockheed C-5A**
- Lockheed-Georgia using new stretch press in C-5A wing production 8/20, p. 72
- USAF studies modified aircraft to ship large shuttle payloads 10/15, p. 39
- Lockheed installs new wings on C-5A 12/10, p. 62

**Lockheed C-5B**
- Lockheed-Georgia testing new C-5B landing gear actuator 1/30, p. 25
- C-5B production planned for cost, time efficiencies 5/28, p. 135
- Lockheed-Georgia fabricating C-5B forward fuselage 7/16, p. 57

C-5B wing box structure delivered to Lockheed 8/6, p. 23
USAF asks for C-5B option delay for review of costs 10/1, p. 22
C-5B center wing section ready for mating to fuselage 10/8, p. 61
Lockheed using new radar range at Georgia facility 10/8, p. 76
General Electric TF39-1C undergoes testing 12/10, p. 20

**Lockheed C-130**
Composite strakes tested on C-130 2/20, p. 41
Chad receives C-130s 4/23, p. 28
Saudis receive foreign bids for C-130 maintenance work 5/21, p. 150
C-130 Navaid plan stirs controversy 6/18, p. 21
Consortium weighs airlift/cargo aircraft 9/17, p. 61
Joint study focuses on two C-130 modifications for assault, airlift role 12/10, p. 60

**Lockheed C-130H**
USAF plans buy of 72 cargo transports 6/18, p. 23

**Lockheed C-140B**
Gulfstream 3s meet military requirement 10/1, p. 63

**Lockheed C-141A**
Initial MLS tests scheduled for C-141A 10/8, p. 76

**Lockheed EC-130Q**
E-6 fund cut expected to spur debate 1/30, p. 20

**Lockheed F-104**
U.S. company to buy Belgian F-104s 4/23, p. 27

**Lockheed Jetstar**
Engine retrofits of Jetstar, Jet Commander offer fuel savings 9/10, p. 59

**Lockheed KC-130T**
Marines use Lockheed KC130T to refuel Sikorsky CH-53E helicopters 9/3, p. 283

**Lockheed L-100-20**
Lockheed tests high technology test bed 10/22, p. 112

**Lockheed L-100-20(HTTB)**
Lockheed tests high technology L-100-20 7/9, p. 48

**Lockheed L-1011**
L-1011 purchase 1/9, p. 34
NTSB criticizes Eastern, FAA on O-ring problem 1/30, p. 32
O-Ring lack cited in L-1011 accident 7/23, p. 163
British L-1011 buy 9/10, p. 90

**Lockheed P-3**
Lockheed-California tests airborne early warning P-3 aircraft 10/22, p. 57

**Lockheed P-3A**
Lockheed to modify P-3A 3/12, p. 53
P-3A modified for customs service is tested at Patuxent 8/6, p. 21
P-3A Orion fitted with phased-array antenna for telemetry data collection 8/20, p. 74

**Lockheed P-3B**
New Zealand updates P-3B electronics 1/9, p. 75
Lockheed developing P-3 airborne warning version 6/11, p. 25
Lockheed P-3B airborne early warning prototype makes its first flight 6/25, p. 19

**Lockheed P-3C**
Navy adds sustainability to objectives 2/6, p. 22
Japan plans new fighter as Soviet threat changes 3/12, p. 81
France drops Fokker from consortium 9/10, p. 36

**Lockheed S-3A**
Lockheed, Navy study refueling system on S-3A aircraft 8/27, p. 77

**Lockheed S-3B**
Lockheed performs ECM tests on S-3B 11/5, p. 21

**LTV A-7P**
Portuguese A-7Ps 9/17, p. 22

**LTV F-8**
Supersonic test set for oblique wing 10/8, p. 59

**McDonnel Douglas F/A-18**
Navy stops F-18 deliveries pending tail fix solutions 8/6, p. 19

**McDonnell Douglas AV-8B**
F-18 buy brings Spain $1.8-billion offset 6/4, p. 17
Manufacturers modify AV-8B, its engines to solve problems 8/27, p. 22
McDonnell Douglas building AV-8B hush house 10/22, p. 147
Navy awards contract for night-attack AV-8B 11/19, p. 27

**McDonnell Douglas AV-8B Harrier**
Marine Corps receives first [illegible] 12 preproduction AV-8B fighter aircra[illegible] 1/23, p. 19

**McDonnell Douglas A-4**
Renovated A-4 destined for Malaysian air force makes its first fligh[illegible] 4/2[illegible], p. 29
Brazilian navy evaluates buy of A-4s for carrier deployment 6/25, p. 229
Malaysian A-4 Trainer makes first flight 9/3, p. 56

**McDonnell Douglas CF-18**
CF-18s, F/A-18s fly joint exercises 1/30, p. 57

**McDonnell Douglas C-17**
DOD seeks C-17 full-scale development 3/19, p. 19
C-17 wind tunnel tests near completion 9/3, p. 258
USAF projects slip in C-17 operations to Fiscal 1992 9/3, p. 267
Company tests C-17's loading efficiency 10/22, p. 60

**McDonnell Douglas DC-8**
Air Canada wins DC-8 reengining contract 3/5, p. 33
Bombs destroy DC-8 3/19, p. 20
Icelandair wins noise exemption based on order for hush kits 12/3, p. 36

**McDonnell Douglas DC-8 Series 70**
French develop CFM56 thrust reversers 2/6, p. 43

**McDonnell Douglas DC-8-51**
Pilot technique cited in DC-8 incident at Stansted 12/3, p. 167

**McDonnell Douglas DC-8-61CF**
Transamerica plans low-cost, charter service 9/17, p. 31

**McDonnell Douglas DC-8-62**
Treated nacelle will lessen DC-8 noise 4/23, p. 40

**McDonnell Douglas DC-8-73s**
Lufthansa subsidiary converting to DC-8 freighters 10/22, p. 52

**McDonnell Douglas DC-9-30**
KLM studies options for DC-9-30 replacement 3/26, p. 33
TWA plans to buy used DC-9-30s 11/12, p. 36

**McDonnell Douglas DC-10**
Continental plans route gains on Pacific with leased DC-10s 3/26, p. 33
Civil DC-10 production restarts following Federal Express buy 5/21, p. 36
Laker DC-10s sold 6/4, p. 30
USAF studies modified aircraft to ship large shuttle payloads 10/15, p. 39
McDonnell Douglas developing MD-11X as new DC-10 derivative 10/29, p. 36
Hydraulic pump eases DC-10 engine work 11/5, p. 89

**McDonnell Douglas DC-10-10**
American increases transcontinental service 3/26, p. 32
World Airways leases two DC-10-10s 4/30, p. 28

**McDonnell Douglas DC-10-30**
Exim sells two Laker DC-10s to SAS 5/21, p. 36
Engine cowling falls off United DC-10-30 11/12, p. 133

**McDonnell Douglas F/A-18**
CF-18, F/A-18 fly joint exercises 1/30, p. 57
Navy signs for reconnaissance F/A-18 testbed 2/20, p. 27
F/A-18s readied for carrier deployment 4/16, p. 57
McDonnell Douglas connects fuselage sections of first Australian F/A-18 4/30, p. 15
F/A-18 analyzer speeds fault isolation 4/30, p. 78
F-18 buy brings Spain $1.8-billion offset 6/4, p. 17
Northrop using robot in F/A-18 production work 6/18, p. 93
Navy issues bulletin on F404 afterburner 6/25, p. 25
Navy studies ground proximity warning for tactical aircraft 7/23, p. 24
Tail cracks curb F/A-18 performance 7/30, p. 24
Navy stops accepting F404 engines 9/10, p. 43
Reconnaissance equipment added to McDonnell Douglas F/A-18 Hornet 10/1, p. 23
McDonnell Douglas will resume F-18 deliveries to U.S. Navy, Canada 10/15, p. 29
Australia takes first F/A-18 delivery 11/5, p. 18
Defense funds rise in Australian planning 11/5, p. 19

**McDonnell Douglas F-4**
Defense Dept. backs F-4 upgrade program 1/9, p. 16
One-piece windshield [illegible] low-altitude operations [illegible], p. 5[illegible]
U.S. Koreans conduct joint air [illegible] 9/3, p. 141
McDonnell Douglas offers F-4 fighter modification package 9/17, p. 25
Defense Dept. plans RFP for F-4 Phantom update 9/17, p. 26
F-4 update program 11/26, p. 57

**McDonnell Douglas F-4C**
Boeing Military Airplane Co. performing depot maintenance on F-4C fighters 3/5, p. 54

**McDonnell Douglas F-4F**
U.S. companies seek contract for German F-4 radar upgrade 9/3, p. 49

**McDonnell Douglas F-15**
McDonnell Douglas F-15B with sensors in chin pod 1/23, p. 97
Study by GAO identifies joint program drawbacks 1/23, p. 97
F-15C/D color display nears test stage 2/20, p. 77
USAF selects F-15 as dual-role fighter 3/5, p. 18
New Soviet aircraft focus U.S. attention on advanced fighter 3/19, p. 46
1st fighter wing acquires new mission 3/19, p. 73
General Electric tests F110 fighter engine 4/23, p. 64
French politicians united in backing Western allies 5/21, p. 145
U.S. Koreans conduct joint air exercises 9/3, p. 141
McDonnell Douglas to develop STOL F-15 10/8, p. 21
USAF demonstrates F-15, F-16 10/15, p. 71
Air Force tests antisatellite payload 11/19, p. 28
USAF advanced fighter program nears acquisition review 11/19, p. 46

**McDonnell Douglas F-15E**
Pratt & Whitney proposes new F100 version to power F-15E 5/7, p. 21

**McDonnell Douglas KC-10**
KC-10 tanker effort sustains Douglas line 3/12, p. 71
U.S. sends Stingers, deploys KC-10 to aid Saudi defenses 6/4, p. 27
McDonnell Douglas developing MD-11X as new DC-10 derivative 10/29, p. 36
McDonnell Douglas deliveries camouflaged KC-10 aircraft 12/3, p. 89

**McDonnell Douglas MD-XXX**
Douglas reviving new design studies 3/5, p. 35

**McDonnell Douglas MD-11X**
McDonnell Douglas developing MD-11X as new DC-10 derivative 10/29, p. 36

**McDonnell Douglas MD-80**
McDonnell Douglas testing MD-80 transport prior to delivery to Chinese airline 1/9, p. 39
Chinese sign MD-80 coproduction pact 1/16, p. 29
Inex DC-9-80 crash involved imprecise terminology 2/27, p. 34
Douglas reviving new design studies 3/5, p. 35
Alaska MD-83 delivery schedule advance 4/23, p. 32
Manufacturer's role cited in route testimony 6/4, p. 28
Exim Finnair loan 6/11, p. 33
Jet America buys MD-80s 6/18, p. 52
TWA leases MD-80s 6/25, p. 33
SAS takes six MD-80 options to meet traffic growth needs 7/23, p. 34
Hawker signs pact to build A320 parts 8/6, p. 33
McDonnell Douglas MD-80 family specifications 9/10, p. 45
MD-80 purchase 9/10, p. 59
SAS orders MD-80s 9/24, p. 28
Pacific Southwest adjusting seat height, APU on its 146s 10/1, p. 34
Douglas proposing 130-seat MD-80 10/15, p. 30
PSA prepares MD-80 aircraft for head-up display flights 10/15, p. 43
MD-80 LaGuardia landings 10/29, p. 32
New MD-80 tail cone developed to reduce aerodynamic drag 10/29, p. 37
California air carriers using variety of transport aircraft 11/12, p. 137

**McDonnell Douglas MD-82**
American signs large MD-82 order 3/5, p. 26

**McDonnell Douglas MD-83**
Higher-Thrust MD-83 enters final assembly 7/30, p. 28

**McDonnell Douglas T-45TS**
Navy issues initial contract for T-45 10/8, p. 25

**McDonnell Douglas 11-X**
MD 11-X specifications 9/10, p. 45

**McDonnell Douglas 279-4**
Rolls tests U.S. Navy/McDonnell Douglas STOVL model 4/23, p. 26

**MIT Monarch**
MIT group claims Kremer Prize for timed ma[illegible]powered flight 5/21, p. 21
[illegible]-powered flight

**Northrop CF-5A**
Venezuelan air force testing U.S.-built aircraft arresting system 4/30, p. 43

**Northrop F-4**
Brazil's air force purchases linked to Embraer packs 6/25, p. 204

**Northrop F-5**
U.S. Koreans conduct joint air exercises 9/3, p. 141

**Northrop F-5E**
GE builds advanced simulator training center 9/3, p. 243
Congress orders service report on common aggressor aircraft 10/29, p. 19

**Northrop F-20 Tigershark**
Northrop entering the final stages of production on third F-20 fighter 1/30, p. 58
F-20 investment 2/20, p. 26
Northrop offers logistic support F-20 3/26, p. 22
First two Northrop F-20s exercise in formation flight 4/16, p. 65
Northrop delivers third F-20 to Edwards facility for flight testing 4/30, p. 16
Third Northrop F-20 makes its first flight 5/28, p. 143
F-20A performance specifications 6/11, p. 56
Northrop F-20 achieving flight test program goals 6/11, p. 56
Senate panel votes to postpone Navy's aggressor aircraft buy 6/18, p. 30
F-20 crashes during demonstration in Korea 10/15, p. 25
Congress orders service report on common aggressor aircraft 10/29, p. 19
F-20 conducts bomb tests 10/29, p. 20
Northrop builds fourth F-20 12/3, p. 27

**Northrop T-38**
USAF T-38 jet trainers to start tests of windshield redesign 1/23, p. 89

**Piper Aztec**
Aztec, 1900C collide near Hanover 5/28, p. 17

**Piper Cheyenne**
Piper agrees to pay heirs of crash victims 4/23, p. 150
Piper will end production in Pennsylvania 5/7, p. 18

**Piper Cheyenne 400 LS**
Speed of Piper Cheyenne 400 LS challenges corporate jets 10/1, p. 97

**Piper Chieftan**
Neiva building Chieftan turboprop conversion 3/5, p. 23

**Piper PA-28 Arrow**
Wing alteration boosts spin resistance 7/23, p. 143

**Piper PA-48 Enforcer**
Piper seeks recovery from financial losses 2/13, p. 59
Enforcer tests begin 3/12, p. 49
PA-48 Enforcers finish tests 8/20, p. 50

**Piper T-1040**
Piper will end production in Pennsylvania 5/7, p. 18

**Piper 400LS**
Corporate flying activity accelerates 10/15, p. 84

**Predator**
Agricultural aircraft design limits stalls 10/1, p. 79

**Predator Model 480**
Agricultural aircraft starts taxi tests 9/17, p. 25
Predator agricultural aircraft flies initial flight 10/1, p. 26

**Rockwell B-1A**
Rockwell installs Westinghouse radar set in B-1 avionics integrator aircraft 6/11, p. 17
Rockwell B-1A bomber prototype adopts new European 1 paint scheme 7/16, p. 17
B-1B test pace quickens; second B-1A joins effort 8/20,
B-1A testbed crashes at Edwards AFB 9/3, p. 47
B-1A drops B83 weapon 9/10, p. 118
B-1A was testing stability, control at time of crash 9/10, p. 39
B-1 investigators focus on fuel system 10/1, p. 27
B-1 crew discussed earlier test during incident 10/8, p. 22
USAF cites fuel transfer error in B-1 aircraft crash 10/8, p. 22

**Rockwell B-1B**
B-1B test pace quickens; second B-1A joins effort
Boeing delivers B-1B avionics shipsets 1/23, p. 117
Rockwell completes first B-1B fuselage 1/23, p. 78
USAF shifts strategic forces in preparing to deploy B-1Bs 2/20, p. 30
B-1/stealth competition emerges 2/27, p. 16
Fuel line break forces B-1 landing[illegible]
[illegible] to first production B-1B bomber 2/27, p. 17
B-1B cockpit to be fitted with nuclear flash shield 2/27, p. 56

Bomber force modernization 3/12, p. 27
B-1 production 3/19, p. 18
ALQ-161 flight tests set this summer 3/26, p. 62
Rockwell advances B-1B rollout to September 5/7, p. 23
Rockwell completes assembly of first production B-1B 5/21, p. 19
Production B-1B tested in new facility 5/28, p. 55
B-1B bomber to carry 14 cruise missiles on fuselage pylons 6/11, p. 51
Boeing conducting tests on offensive avionics integrator for B-1B bomber 6/18, p. 123
Initial B-1B in automated test facility 7/2, p. 52
Computer controls schedule of B-1B spare parts production 8/13, p. 74
Law prohibits diversion of funding to B-1 bomber 10/8, p. 17
Production B-1B makes first flight 10/22, p. 31
B-1B sustains engine damage on first flight 10/29, p. 16
Boeing selected to build B-1B simulator 10/29, p. 21
GAO foresees savings in altered B-1B basing plan 10/29, p. 64
First production B-1B joins flight test program 11/12, p. 19
B-1B engine inspection delays third test flight 11/19, p. 23
B-1B program on time despite component shortage, engine problems 12/10, p. 18
Multiyear engine procurement will save B-1B program funds 12/10, p. 20

**Rockwell Commander 112**
Midair collision 9/3, p. 68

**Rockwell C-5**
United subsidiary receives award for USAF C-5 crew training 11/19, p. 23

**Rockwell Jet Commander**
Engine retrofits of Jetstar, Jet Commander offer fuel savings 9/10, p. 59

**Rutan Voyager**
Rutan prepares two-place Voyager for global flight 6/11, p. 19
Voyager designed to circle globe nonstop 6/25, p. 230
Lightweight Rutan Voyager makes its first test flights 7/2, p. 28
Rutan composite Voyager undergoes flight testing 8/6, p. 62

**Sabreliner Corp. Sabreliner 85**
Sabreliner plans to start new aircraft 1/9, p. 22

**Sabreliner Model 85**
Sabreliner, Agusta negotiate pact 10/1, p. 18

**Skyfox Jet Trainer**
Skyfox updates T-33 trainer effectively 3/5, p. 39

**Skytrader ST1700**
Skytrader constructing new plant for manufacturing ST1700 11/19, p. 89

**X-Wing**
X-wing contract 1/2, p. 23
NASA nears fixed-wing tests on RSRA research aircraft 1/30, p. 54
DARPA/NASA set X-wing research aircraft design 2/13, p. 141

Austria seeking interceptor aircraft 10/29, p. 65

**AVIONICS**
Air Force updating F/FB-111 avionics 1/2, p. 62
Training key to wind shear effects 1/2, p. 62
Defense Dept. backs F-4 upgrade program 1/9, p. 16
Defense Dept. bans microcircuit shipments 1/9, p. 24
Citation 3 avionics 1/9, p. 81
Hughes upgrades battle report system 1/16, p. 104
New cockpits use integrated avionics 1/16, p. 148
Jaeger transfer 1/16, p. 162
Flight demonstrations set of improved optic controls 1/16, p. 174
IBM laboratories verify Lamps, Sikorsky SH-60B operations 1/16, p. 187
GE realigns avionics, ordnance operations 1/16, p. 25
Boeing delivers B-1B avionics shipsets 1/23, p. 117
USAF to upgrade EF-111A jamming system 1/23, p. 18
McDonnell Douglas testing F-15B with sensor in chin pod 1/23, p. 97
Bendix wins F-16C/D contract 1/30, p. 26
Voice command unit enters new tests 1/30, p. 65
Six teams plan bids on INEWS warning system 2/6, p. 66
Boeing tests transport active controls 2/13, p. 153
Air Force considers using integrated avionics in F-16 2/13, p. 160
EF-111A gives electronic strike support 2/13, p. 25
MBB, Panavia plan HARM, new avionics on Tornado 2/13, p. 26
Five held in plot to smuggle avionics to China 2/20, p. 29
USAF studying future cockpit displays 2/27, p. 81
USAF tests ground proximity alert system on A-10A aircraft 3/5, p. 53
Economy key to 737-300 flight system 3/5, p. 71
Funding boosted for electronic warfare 3/12, p. 215
Growth trends: avionics sales 3/12, p. 215
Electronic displays gain in cockpit use 3/12, p. 225
Firm certifies fuel management device 3/19, p. 112
All-weather force set as TAC goal 3/19, p. 42
ALQ-161 flight tests set this summer 3/26, p. 63
Navy, USAF set flight tests of jammer 4/2, p. 57
Irish Dauphin 2s employ four-CRT panel 4/2, p. 62
Bendix expands cockpit instrument product line 4/16, p. 167
Collins introducing digital general aviation autopilot 4/16, p. 169
New microcircuits challenge silicon use 4/16, p. 179
NATO selects emerging technologies 4/16, p. 28
Sfena to start production of laser gyro 4/23, p. 174
Northrop infrared system 4/30, p. 26
Navy buys Canadian recovery systems for Lamps 4/30, p. 42

Boeing improves MAC refueling trainer 4/30, p. 75
F/A-18 analyzer speeds fault isolation 4/30, p. 78
Vidcomp system speeds image relay 5/7, p. 109
SAC integrates B-52 weapons training 5/14, p. 81
Navy using computerized war games 5/21, p. 181
Sfena, AEG-Telefunken propose PAH-2 controls 5/28, p. 20
U.S. to gauge Japan computer speeds 6/4, p. 82
Rockwell installs Westinghouse radar set in B-1 avionics integrator aircraft 6/11, p. 17
Sfena system certified 6/11, p. 37
USAF evaluates new simulator imagery 6/11, p. 72
New Loran-C navigation system stores 40 waypoints 6/11, p. 74
Boeing conducting tests on offensive avionics integrator for B-1B bomb 6/18, p. 123
Honeywell moves into new EW markets 6/18, p. 123
C-130 Navaid plan stirs controversy 6/18, p. 21
U.S. seeks larger Latin airport market 6/18, p. 40
Marconi Avionics begins wide-angle HUD deliveries for F-16 6/18, p. 96
Marconi delivers F-16 C/D head-up display 6/25, p. 224
Army requests harmonic control study 7/2, p. 67
French display system 7/9, p. 19
Lockheed tests high technology L-100-20 7/9, p. 48
Navy studies F-14 yaw characteristics 7/9, p. 68
Chinese increasing laser capabilities 7/16, p. 73
Army receives initial production divads 7/23, p. 151
IR scanner is sized to fit small missiles 8/6, p. 77
Hardware links key to computer speed 8/13, p. 171
B-1B test pace quickens; seconα B-1A joins effort 8/20, [illegible]
Harris Computer expands user access 8/20, p. 83
Computers speed weather forecasting 8/28, p. 73
Lucas digital engine control unit flying on Tornado 9/3, p. 143
U.S. Airlines Purchasing French radio altimeters 9/3, p. 155
Racal cites its flexibility in Hughes 530MG contract 9/3, p. 255
USAF asks B-52 upgrade to carry missiles 9/3, p. 270
Laser inspector spots flawed solder joints 9/3, p. 307
Plans change on F-16 communications 9/10, p. 163
McDonnell Douglas offers F-4 fighter modification package 9/17, p. 25
Defense Dept. plans RFP for F-4 Phantom update 9/17, p. 26
Study raises doubt on EMP protection 9/17, p. 76
British exhibit Hawk 200 fighter mockup 9/24, p. 64
RAF evaluating rotor vibration of diagnostic unit 9/24, p. 71
Optics gains aid high-power lasers 9/24, p. 91
Global's data link to aid in-flight plane 10/1, p. 115
FAA nears transport HUD certification 10/1, p. 145
Industry expanding cockpit integration 10/1, p. 65
Initial MLS tests scheduled for C-141A 10/8, p. 76
Owners retrofitting integrated navaids 10/15, p. 95
Guides issued for avionic stress screening 10/15, p. 99
Exhibitors show corporate flight plan concepts 10/22, p. 133
Reliability, maintainability cited as vital fighter requirements 10/29, p. 59
Navy expands standard electronic module effort 10/29, p. 69
Japan Air Lines orders French Avionics test station 10/29, p. 77
Bendix's acquisition of King broadens market strength 11/5, p. 79
France's TRT proposes Socrat takeover 11/5, p. 79
King traces origins to Rockwell/Collins 11/5, p. 83
Marshall Center considers study of CO2 from high-altitude platform 11/12, p. 217
British Aerospace pushing ring laser gyro effort 11/19, p. 91
1900's speed, range, payload enhance scheduling flexibility 11/26, p. 48
General Electric company-funded project yields VHSIC-like chip 11/26, p. 74
Cubic Corp. upgrades air combat training system for Navy use 12/3, p. 157
B-1B program on time despite component shortage, engine problems 12/10, p. 18
Joint study focuses on two C-130 modifications for assault, airlift role 12/10, p. 60
Current technologies could aid in implementing Reagan's SDI policy 12/10, p. 75

### BUSINESS FLYING

Patrol seeks added sources of aircraft 1/2, p. 57
Sabreliner plans to start new aircraft 1/9, p. 22
Aircraft makers urge American purchases 1/9, p. 23
Airborne radar maps Canadian ice field 1/16, p. 193
Dassault prepares Falcon 900 fuselage prototype for mating 1/16, p. 194
Test failure delays Lear Fan 2100 production two months 1/16, p. 24
General aviation predicts sales rebound 1/16, p. 25
Dassault-Breguet plans pressurization tests on prototype Falcon 900 this month 1/23, p. 28
Beech sales increase 13% in 1983 1/30, p. 48
Dassault to increase Falcon 50 output 1/30, p. 48
Helicopter companies expecting upturn this year 2/6, p. 44
Control changes improve Fairchild 300 2/13, p. 49
Split grows over U.S. air show in Europe 2/13, p. 59
Airship truss completes static testing 2/20, p. 53
Gulfstream plans Peregrine production 2/27, p. 73
Engine incidents may spur Challenger retrofit plans 3/5, p. 23
Socata seeking to expand U.S. market 3/5, p. 68
Growth trends: U.S. business flying 3/12, p. 259
Manufacturers set to offer new designs 3/12, p. 259
France paces Europe's business flying 3/12, p. 264
Makeup of fixed-wing business aircraft fleet by country of origin 3/12, p. 265
MBB seeking new markets for Bk.117 3/19, p. 103
Government body seeks to restructure Canadair 3/19, p. 22
French, Dassault negotiate Falcon 900 loan 3/26, p. 23
Israel Aircraft Industries' Astra business aircraft makes its first flight 4/2, p. 16
Higher thrust engines equip GP-180 4/2, p. 48
Europeans push corporate flying standards 4/9, p. 80
Starship 1 tests prompt few changes 4/9, p. 80
Astra executive jet reaches Mach 0.68 4/16, p. 165
DHC-8 meets goal for performance 4/23, p. 137
Senate votes measure cutting aircraft operaor tax benefits 4/23, p. 30
Brazil considers joint helicopter effort 5/7, p. 17
Canadair seeking broader market base 5/7, p. 95
Construction under way on GP-180 business aircraft 5/14, p. 21
Pratt & Whitney expands small engines 5/14, p. 56
Mitsubishi plans 1985 Diamond 2 delivery 5/14, p. 58
Dassault books U.S.Falcon 900 orders 6/4, p. 67
Business, utility aircraft shipments, April, 1984 6/4, p. 71
Germans add Falcon 900 to competition 6/11, p. 69
Cessna reorganizes divisions, stretches shutdown of plant 6/18, p. 28
Electro-impulses deicing shows promise 7/9, p. 65
Used market dominates sales of aircraft 7/16, p. 16
Wing alteration boosts spin resistance 7/23, p. 143
FAA to review standards for small aircraft 8/6, p. 21
Dassault readies Falcon 900 for start of flight tests 8/13, p. 149
Gates Learjet forms aerospace division 8/13, p. 149
Business flying manufacturers extend layoffs 8/13, p. 28
Companies develop turboprop conversion unit for Beech A-36 Bonanza 8/20, p. 23
FAA drafts alert on fake serial numbers 8/20, p. 78
Lycoming faces decision on new engine technology 8/27, p. 42
Manufacturers' production drops, layoffs continue despite upturn 8/27, p. 42
Folding-wing aircraft designed in Britain 9/10, p. 134
Engine retrofits of Jetstar, Jet Commander offer fuel savings 9/10, p. 59
Helicopter sales continue flat in 1984 10/1, p. 107
Global's data link to aid in-flight plans 10/1, p. 115
Charter flights for land sales bolster Jet East operations 10/1, p. 120
Gulf helicopter operators seek charter rate change 10/1, p. 124
Rockwell maintains active aircraft fleet 10/1, p. 132
University students design supersonic corporate jet 10/1, p. 133
Resort uses Super Puma for passenger transport 10/1, p. 135
Sabreliner, Agusta negotiate pact 10/1, p. 18
Avtek 400 begins flight test series 10/1, p. 19
Falcon 900 business jet makes first flight 10/1, p. 20
Corporate flights outpace sales of new aircraft 10/1, p. 38
New technologies adapted to engines 10/1, p. 49
European twin-engine business aircraft fleets 10/1, p. 59
Rising value of U.S. dollar hinders Europe operations 10/1, p. 59
Industry expanding cockpit integration 10/1, p. 65
Agricultural aircraft design limits stalls 10/1, p. 79
Insurance firms share aviation facilities 10/1, p. 80
Weaker exports laid to strong dollar 10/1, p. 90
Speed of Piper Cheyenne 400 LS challenges corporate jets 10/1, p. 97
Where's the turnaround 10/8, p. 11
Corporate flying activity accelerates 10/15, p. 84
Lasernav 2 designed for business aircraft 10/15, p. 98
Exhibitors show corporate flight plan concepts 10/22, p. 133
Starship 1 dominates Beech research programs 10/22, p. 89
FAA MU-2 review finds type approval compliance 10/29, p. 49
European carriers offer more business class seats, service 11/12, p. 28
Manufacturers restructure sales organizations in depressed market 11/19, p. 88
1900's speed, range, payload enhance scheduling flexibility 11/26, p. 48
British Airways flies Westland 30s to oil rigs 12/3, p. 131
Corporations seek to bolster own travel departments 12/10, p. 29
GAMA expects sharp delivery drop 12/10, p. 71
Analysts predict sound, long-term future for General Aviation market 12/10, p. 74

### CANADA

Transport Canada criticizes self, Air Canada 2/6, p. 34
Telesat urges Canadian direct broadcast TV 2/13, p. 22
Canada bypasses A320 3/5, p. 29
Air Canada wins DC-8 reengining contract 3/5, p. 33
Spar sells Earth stations to China 3/5, p. 60
Canadian aerospace sales and exports 3/12, p. 89
Government body seeks to restructure Canadair 3/19, p. 22
Canadian operator plans to use Gulfstream Commander 900 air ambulance 3/26, p. 61

Canadian astronaut choice initiates program 4/16, p. 175
Canadians study Canadair, De Havilland costs 4/30, p. 22
CP Air seeks approval of acquisition 4/30, p. 39
Canada enacts first phase of new deregulation policy 5/14, p. 33
Nordair bids 6/4, p. 29
Canadians set deadline for bids on air defense 7/9, p. 24
Navy stops F-18 deliveries pending tail fix solutions 8/6, p. 19
Canadian company develops external load fuel carrier for helicopters 8/20, p. 79
Canada to continue industry investment 9/3, p. 224
Canada supports R&D programs 9/3, p. 227
Canada to distribute European satellite data 9/3, p. 49
Canadian crewman on shuttle revives two-year-old plan 9/24, p. 50
McDonnell Douglas will resume F-18 deliveries to U.S. Navy, Canada 10/15, p. 29
Spar acquires Comtel 11/5, p. 79
Easing of regulation in Canada stimulates vast reassessment 11/12, p. 138
City Express has 55% load factor in first month 11/12, p. 32
Spacecraft systems being tested in Canadian laboratory 12/3, p. 68

## CHAD

Chad receives C-130s 4/23, p. 28

## CHINA

McDonnell Douglas testing MD-80 transport prior to delivery to Chinese airline 1/9, p. 39
Chinese sign MD-80 coproduction pact 1/16, p. 29
Civil Aviation Administration of China takes delivery of Boeing 747-200 Combi 1/30, p. 29
Bilateral talks 1/30, p. 36
Chinese evaluating new helicopters 1/30, p. 53
Chinese launch 2/6, p. 25
Japan, China agree on capacity boost 2/13, p. 29
Five held in plot to smuggle avionics to China 2/20, p. 29
Shuttle crew photographed Soviet missile site 2/27, p. 18
Spar sells Earth stations to China 3/5, p. 60
Chinese satellite fails to reach proper orbit 3/12, p. 100
China delivers first Y-7 aircraft to CAAC 4/16, p. 68
China puts payload in geosynchronous orbit 4/23, p. 24
Aloha signs pact for Chinese joint venture 4/23, p. 36
Chinese reserve Ariane payload space 4/30, p. 18
Joint service 5/28, p. 36
China, U.S. set further arms buy talks 6/11, p. 22
Chinese will visit McDonnell Douglas, Boeing 6/11, p. 22
Chinese Satcom 6/25, p. 19
Chinese increasing laser capabilities 7/16, p. 73
Super Puma purchase 7/23, p. 18
Changing allegiances and NATO 7/30, p. 11
China will purchase Sikorsky S-70Cs 8/13, p. 28
British Aerospace 146-100 tours China 8/27, p. 29
People's Republic of China displays intercontinental ballistic missile 10/8, p. 24
Hong Kong to retain authority to license carriers after 1997 10/8, p. 38
China offers space launch services 10/8, p. 48
British display 146 transport in Far East 11/12, p. 86

## COCKPITS

New cockpits use integrated avionics 1/16, p. 148
Sikorsky developing simulator for ARTI program 1/16, p. 180
Sikorsky developing modification to S-76 helicopter 1/16, p. 89
Boeing delivers B-1B avionics shipsets 1/23, p. 117
New CRTs, aid displays, low light imagery 2/13, p. 165
F-15C/D color display nears test stage 2/20, p. 77
USAF extends study of fighter voice control 2/20, p. 82
B-1B cockpit to be fitted with nuclear flash shield 2/27, p. 56
USAF studying future cockpit displays 2/27, p. 81
Economy key to 737-300 flight system 3/5, p. 71
Electronic displays gain in cockpit use 3/12, p. 225
Airbus modifies cockpit for A320 transport 3/26, p. 31
One-piece windshield may aid F-4's low-altitude operations 3/26, p. 59
Crew communication 4/2, p. 36
Bendix expands cockpit instrument product line 4/16, p. 167
Cammacorp flight testing digital cockpit on reengined DC-8 4/30, p. 29
Sikorsky tests sidearm controller in S-76 4/30, p. 42
USAF receiving digital flight recorders 5/7, p. 43
Mock-up shows ATR42 cockpit instrumentation 8/6, p. 75
AFTI/F-16 will test voice recognizers 8/13, p. 177
French start training on Thomson-CSF C-160 simulator 9/3, p. 183
Racal cites its flexibility in Hughes 530MG contract 9/3, p. 255
Fokker builds cockpit, cabin mockups 9/3, p. 77
FAA proposes to standardize controls for general aviation 9/10, p. 137
Industry expanding cockpit integration 10/1, p. 65
Gates Learjet, Piaggio display GHP-180 mock-up 10/22, p. 92
McDonnell Douglas developing MD-11X as new DC-10 derivative 10/29, p. 36
Services specify 1990s aircraft design goals 11/19, p. 58
Boeing Vertol ARTI testing evaluates single-pilot, integrated cockpit 11/19, p. 63
Another cockpit revolution 12/10, p. 11

## COMETS

Soviets to aid Halley's comet observations 1/2, p. 20
ESA uses Soviet data in comet mission 1/2, p. 46
Giotto construction is meeting schedule 2/13, p. 119
Comet Kopff targeted 2/27, p. 28
Repaired Solar Max would observe Halley's comet 3/26, p. 26
Pioneer orbiter tested for Halley mission 6/18, p. 79

## COMMERCIALIZATION OF SPACE

Company plans to manufacture crystals in space 6/25, p. 100
Company to produce semiconductors in space 6/25, p. 100
Shuttle hitchhiker spurs business effort 6/25, p. 102
Grumann seeks new materials 6/25, p. 106
Orbital Sciences offers upper stage 6/25, p. 108
Space as a business 6/25, p. 11
Space Industries, Inc., to begin marketing unmanned facility 6/25, p. 116
Two firms ready to buy, produce shuttle orbiters 6/25, p. 116
NASA asks wider industry role in processing work 6/25, p. 120
Astrotech offering satellite processing 6/25, p. 122
Value added to remotely sensed data 6/25, p. 125
Getaway Specials create new market for hardware 6/25, p. 138
Transpace embarks as venture capitalized booster company 6/25, p. 140
C2 Spacelines signs for shuttle slots, will lease cargo spacecraft 6/25, p. 144
Eureca marketing keyed to platform cost 6/25, p. 145
Sparx decision clouds imaging projects 6/25, p. 147
Spot Earth-resources program accelerates to commercial use 6/25, p. 148
Earth sensors further Japan's efforts 6/25, p. 151
Astrotech sees military uses for stage 6/25, p. 158
Output of Atlas, Titan tied to military, private markets 6/25, p. 159
Europe outlines future space plan 6/25, p. 16
Hodge urges caution in space station pace 6/25, p. 16
Space Services pushing Conestoga launch vehicle 6/25, p. 163
Bay area firms pursue booster designs 6/25, p. 166
McDonnell Douglas sees 50 PAM-Ds sold by 1990 6/25, p. 169
French develop plans for small space shuttle 6/25, p. 17
Prospect of competition jolting Intelsat members 6/25, p. 171
Curbs hamper satellite plans in Europe 6/25, p. 178
Space commerce barriers to be eased 6/25, p. 18
Satcoms tailor services to customers 6/25, p. 181
Satellite-acquired data used in crop forecasts 6/25, p. 183
Users challenging policies of Japan 6/25, p. 190
Satellites link mobile communications 6/25, p. 197
John Deere developing space materials research hardware 6/25, p. 199
NASA revises shuttle launch manifest 6/25, p. 201
Satcom salvage plans near completion 6/25, p. 22
Comsat petitions the FCC for tariff reconsideration 6/25, p. 27
Unique products, new technology spawn space suits 6/25, p. 40
Commercialization, privatization defined 6/25, p. 44
Medicine sales forecast at $1 billion 6/25, p. 52
Fairchild seeks agreements on Leasecraft 6/25, p. 54
Lovelace studies cancer research in space 6/25, p. 55
Landsat contract bidders plan private alternatives 6/25, p. 61
Broad spectrum of business involved in space commercialization 6/25, p. 62
3M seeks new materials, processes 6/25, p. 65
NASA, 3M seek university/industry teaming 6/25, p. 68
John Deere plans space iron research 6/25, p. 74
Cernan starts up consultancy to promote space commerce 6/25, p. 78
Investors taking cautious view of private programs 6/25, p. 78
Loss of Satcoms affecting insurance 6/25, p. 85
Space proccessed spheres ready for sale 6/25, p. 85
U.S. business group finds initiatives to be feasible 6/25, p. 93
German Spacelab mission will concentrate on pure research 6/25, p. 94
Patent law finds space applications 6/25, p. 97
ESA replies to charges on Arianespace pricing 7/2, p. 22
Ground terminal 7/2, p. 22
Intelsat introduces services to counter competitive threat 7/2, p. 24
U.S. company will launch satellite on Ariane 7/2, p. 24
Sixth firm seeks international Satcom rights 7/9, p. 18
CBS withdraws direct broadcast proposal 7/9, p. 25
Brazil plans to launch its own satellites in 1990s 7/9, p. 60
Western Union abandons plan for direct broadcast service 7/16, p. 24
Launch pricing change 7/16, p. 25
New ventures tied to sponsor capital 7/23, p. 115
Earth station bid 7/23, p. 20
Reagan backs space commerce 7/30, p. 16
British companies approved for DBS plan 8/6, p. 22
United States Satellite, Federal Express reach capacity pact 8/6, p. 27
Starstruck launches prototype Dolphin Rocket in first flight 8/13, p. 20
Japanese study space Commerce 8/20, p. 14
Starstruck launches booster from Pacific 8/27, p. 58
Foreign, civil launch services change U.S. government role 9/3, p. 229
Joint action prevents loss of drug project on shuttle 9/10, p. 105
Rockwell backs student project on Discovery 9/10, p. 41
Mission bolsters commercial viability 9/10, p. 95
NASA forms space commercialization office 9/17, p. 18
Lasers may supply space energy needs 9/17, p. 83
3M submits commercial program to NASA 10/8, p. 16
NASA devises new shuttle price policy 10/8, p. 16
Space investments 10/8, p. 17
China offers space launch services 10/8, p. 48
3M to fly 10 additional getaway specials 10/15, p. 18
Shuttle payload creates space sculpture 10/15, p. 21
Bankers examine drawbacks of investing in space programs 10/15, p. 51
NASA promotes commercialization of space to automobile makers 10/29, p. 21
3M prepares shuttle experiment 10/29, p. 22
Companies begin drive to boost space investments 10/29, p. 22
Import duties blocked on space products 10/29, p. 66
Satellite retrieval linked to precise orbit control 11/5, p. 66
Space processed hormone found contaminated, unusable 11/12, p. 18
NASA formulates policy to spur private investment 11/26, p. 18
Policy for commercialization 12/3, p. 13

## COMMUNICATION SYSTEMS

RCA marshaling support behind advanced Satcom 1/9, p. 24
Intelsat alters Earth station standards 1/16, p. 203
Hughes upgrades battle report system 1/16, p. 204
Meteor-burst links planned for Alaskan radar 2/6, p. 67
USAF awards laser communications contract 3/5, p. 24
Spar sells Earth stations to China 3/5, p. 60
U.S. spurs strategic weapon advances 3/12, p. 23
Shuttle transmission links will rely on fiber optics 3/12, p. 249
USIA tests overseas teleconferencing 4/30, p. 63
Vidcomp system speeds image relay 5/7, p. 109
Laser communications 5/14, p. 21
Arabsat satellite's control signals will be encrypted 5/21, p. 176
Communications hamper joint efforts 5/21, p. 91
Choice of common frequency emerges as major IFF issue 5/21, p. 98
TRW payment 6/11, p. 22
Astronauts suggest improved space-ground links for station 6/18, p. 16
Thomson-CSF resolves Satcom tube problems 6/18, p. 23
Britsat offers direct-broadcast satellite 6/18, p. 29
ESA's Olympus will test communications packages 6/25, p. 146
Satcoms tailor services to customers 6/25, p. 181
Intelsat introduces services to counter competitive threat 7/2, p. 24
TRW, Motorola set brassboard tests 7/30, p. 57
Intelsat reports maritime satellite problems 8/6, p. 26
Navy completes evaluations of tactical command center 8/13, p. 83
New contract to complete NATO air command study 8/20, p. 20
Companies to study space platform payload mix 8/20, p. 65
Land communications 8/27, p. 77
Arabsat Satellites nearing completion 9/3, p. 118
Telesat seeks new rates, market plan 9/3, p. 177
U.S. cuts costs, updates Intelpost mail 9/3, p. 215
Comsat clusters may improve coverage 9/3, p. 233
Nine airlines to provide public telephone link 9/3, p. 292
Plans change on F-16 communications 9/10, p. 163
Hughes to study Japanese telecommunications 9/24, p. 25
Comsat, two others sign broadcasting pact 9/24, p. 26
Simulator tests TV broadcast reaction 9/24, p. 73
China contract 10/1, p. 29
Comsat, Mitsubishi team on Earth stations 10/8, p. 23
U.S., NATO agree in principle on IFF frequencies approach 10/8, p. 27
TDRS tumbling interrupts communications 10/15, p. 20
NASA readies new communications net 11/5, p. 17
France's TRT proposes Socrat takeover 11/5, p. 79
Iran joins Inmarsat; Soviets operate earth stations 12/3, p. 76
Airfone receives one-year license extension 12/10, p. 34
Telesat preparing services for less restrictive market 12/10, p. 79

## COMPOSITES

Graphite epoxy rudder tested 1/9, p. 70
McDonnell Douglas cuts aircraft construction time 1/9, p. 71
S-76 rotor components formed of composites 1/16, p. 105
Europeans pursue rotor development 1/16, p. 109
Companies expanding composite uses 1/16, p. 137
Boeing missile interceptor to use composite 2/6, p. 55
Composite strakes tested on C-130 2/20, p. 41
Manufacturers set to offer new designs 3/12, p. 259

Higher thrust engines equip GP-180 4/2, p. 48
Boeing awarded USAF composite contract 4/9, p. 75
E-3A randomes fabricated with composite mandrels 4/9, p. 97
Sikorsky testing composite helicopter 4/30, p. 48
Brazil considers joint helicopter effort 5/7, p. 17
Air Force funds automatic composite curing system 5/14, p. 71
Composite material layering seen as PAM fault 5/21, p. 18
Grumman expands composite capacity 6/11, p. 67
Avtek builds composite turboprop aircraft 8/6, p. 67
Fear Fan 2100 completes structural testing 8/20, p. 18
Sikorsky begins flight testing S-75 ACAP composite airframe helicopter 8/20, p. 19
F404 engine may include composite material duct 9/17, p. 69
Alloy makers react to composite gains 9/24, p. 57
Predator agricultural aircraft flies initial flight 10/1, p. 26
Starship emphasis 10/8, p. 29
Blanket of ceramics adapted by Boeing to composite cowl 10/15, p. 67
Avtek 400 stresses composites 10/15, p. 83
U.S. approves technology transfer to Israel for Lavi 11/5, p. 20

## COMPUTERS AND DATA PROCESSING

Sweden confiscates computer components 1/2, p. 18
Alcoa installs new computer-aided design unit 1/2, p. 52
FAA changes monitoring methods 1/9, p. 26
McDonnell Douglas tests plug insertion robot 1/9, p. 55
New Zealand updates P-3B electronics 1/9, p. 75
Cabin management data link 1/9, p. 76
New cockpits use integrated avionics 1/16, p. 148
Computer-based trainer simulates AWACS radar 1/16, p. 206
Belgium tries to reduce missile expenditures 1/16, p. 26
Sweden returns confiscated computer to U.S. 1/23, p. 27
Alcoa using computerized spin forge 1/23, p. 76
Equipment seized 1/23, p. 98
Bendix wins F-16C/D contract 1/30, p. 26
SITA planning work station commonality 1/30, p. 67
Terminal equipment 1/30, p. 68
Boeing studying uses of Collins flight controller 2/13, p. 157
Hewlett-Packard, Vitalink form joint venture 2/13, p. 162
MBB, Panavia plan HARM, new avionics on Tornado 2/13, p. 26
Defense official asserts Japan has two-year computer lead 2/27, p. 26
CAB will set reservation system rules 2/27, p. 31
USAF tests ground proximity alert system on A-10A aircraft 3/5, p. 53
ESA upgrades space command center 3/5, p. 62
Apollo reservations 3/12, p. 193
Awards due in airspace system update 3/12, p. 243
USAF activates computer facility 3/12, p. 94
Smuggling advances Soviet technology 4/9, p. 24
Company will spend $1 billion on automation 4/9, p. 27
Manufacturer plans Harpoon upgrades 4/16, p. 146
Computerized X-ray to verify MX motors 4/16, p. 149
Defense Dept. seeks curb of small computer export 4/16, p. 30
Lockheed computerizes human factors into engineering studies for Trident 2 missile 4/23, p. 161
USAir using computerized visual simulation system 4/23, p. 177
Defense Dept. plans computer research center 4/23, p. 59
Lockheed contract 4/30, p. 18
Delta anticipates savings in flight planning system 4/30, p. 34
Pilots obtain weather data by computer 4/30, p. 78
Johnson mockup aiding station design 5/7, p. 103
Panel urges easing computer export controls 5/7, p. 19
Datasaab fined $3.1 million 5/7, p. 20
NASA leases Cray-2 for airflow research 5/7, p. 25
IATA data network 5/7, p. 34
USAF receiving digital recorders 5/7, p. 43
Lockheed using computer to aid in human factors studies of Trident 2 missiles 5/14, p. 65
Air Force funds automatic composite curing system 5/14, p. 71
SAC integrates B-52 weapons training 5/14, p. 81
RCA develops upper stage for shuttle 5/21, p. 167
Navy using computerized war games 5/21, p. 181
Regionals oppose code sharing 5/21, p. 29
Smaller firms dominate supercomputer field in U.S. 5/28, p. 154
Massively parallel processor yields high speed 5/28, p. 157
Gull develops updated flight inspection unit 5/28, p. 159
U.S. to gauge Japan computer speeds 6/4, p. 82
Gould Electronics demonstrates high-resolution display for air traffic control 6/4, p. 83
Lufthansa will market system to check engine performance 6/18, p. 40
General Electric uses computer-controlled lasers in engine production 6/25, p. 222
Commerce division will urge decontrol of microcomputers 6/25, p. 224
CoCom agrees on export computers 7/23, p. 21
CAB adopts final regulations for computer reservations 8/6, p. 32
Dornier takes loss on shuttle IPS unit 8/13, p. 155
Hardware links key to computer speed 8/13, p. 171
McDonnell Douglas is computerizing autoclave process 8/13, p. 201
FAA centralizes traffic control 8/13, p. 30
Allison operates Airflow Tester 8/13, p. 65
Austin's lead in research spurs growth 8/13, p. 73
Computer controls schedule of B-1B spare parts production 8/13, p. 74
Navy completes evaluations of tactical command center 8/13, p. 83
Single-chip processor 8/20, p. 22
NASA tests new digital fly-by-wire backup 8/20, p. 25
Boeing designs, builds high-speed computerized router 8/20, p. 72
Harris Computer expands user access 8/20, p. 83
Protestors smash computer at Sperry plant 8/27, p. 24
Lycoming faces decision on new engine technology 8/27, p. 42
Microelectronics center utilizes computer-aided design 8/27, p. 55
New Mexico to build on-line data link 8/27, p. 55
Land communications 8/27, p. 77
Computers speed weather forecasting 8/28, p. 73
Company flight units turn to computers 9/3, p. 313
Master controller software error delayed mission count 9/10, p. 107
Marines delay air operations system 9/10, p. 115
Microchip test problem halts weapon deliveries 9/17, p. 23
Texas Instruments chip linked to shuttle delay 9/17, p. 23
NASA to demonstrate artificial intelligence in flight operations 9/17, p. 79
Teal Ruby contract 9/24, p. 15
Travel with computer requires license 9/24, p. 21
RAF evaluating rotor vibration of diagnostic unit 9/24, p. 71
Industry expanding cockpit integration 10/1, p. 65
Boeing joins consortium devoted to computer research 10/22, p. 128
Exhibitors show corporate flight plan concepts 10/22, p. 133
Microprocessor chip corrects attenuation 10/22, p. 133
Howmet uses advanced grinder 10/22, p. 140
Microcircuit system goes into operation 10/22, p. 145
Taiwan air traffic control update includes fault-assessing computers 10/22, p. 36
British Airways sues to halt reservation rules 11/12, p. 30
Martin Marietta will integrate military intelligence system 11/19, p. 28
USAF readies self-repairing control awards 11/19, p. 53
Boeing Vertol ARTI testing evaluates single-pilot, integrated cockpit 11/19, p. 63
Boeing Vertol testing digital optical control system on UH-60A 11/19, p. 67
Space network readied for McDonnell Douglas 11/26, p. 77
Ford test-fires projectile with on-board computer 11/26, p. 88
Dornier ships instrument pointing system to space center after delays 12/3, p. 124
Cubic Corp. upgrades air combat training system for Navy use 12/3, p. 157
Supercomputer center destined for Maryland 12/3, p. 22
American, United contract for pilot hiring aid 12/3, p. 33
FAA plans formally to approve use of personal computers 12/3, p. 34
Another cockpit revolution 12/10, p. 11
Pace of artificial intelligence research shows acceleration 12/10, p. 24
Companies focus research activity on artificial intelligence applications 12/10, p. 25
Germans install computer-controlled runway lights 12/10, p. 39
Ruling raises airline computer system fees 12/10, p. 39

## CONTRACTS, AWARDS, PROPOSALS

X-wing contract 1/2, p. 23
Turkish F-16s 1/9, p. 16
Army awards initial ARTI program contracts 1/16, p. 18
Hughes AH-64A Apache makes first flight 1/16, p. 23
MLS contract 1/16, p. 27
USAF awards initial contracts for small ICBM missile project 1/23, p. 22
NASA awards contract for high atmosphere ozone experiment 1/23, p. 68
Bendix wins F-16C/D contract 1/30, p. 26
Martin Marietta wins airspace plan award 2/6, p. 31
Boeing missile interceptor to use composites 2/6, p. 55
Tomahawk moves toward dual-source production 2/6, p. 56
SBS partners make leadership shifts 2/6, p. 61
Six teams plan bids on INEWS warning system 2/6, p. 66
Ford realigns space, defense functions 2/13, p. 139
Bechtel contract 2/13, p. 151
Navy plans to buy more HARM missiles 2/13, p. 65
Canadian vendors sought 2/20, p. 26
Grumman receives Gulfstream, Fokker contract 2/27, p. 19
Japan shuttle contract 2/27, p. 23
Rockwell studying joined-wing technology 2/27, p. 25
Litton accedes to Navy parts, data request 2/27, p. 28
Parallel programs advance small ICBM 3/5, p. 14
USAF awards expendable launcher study contracts 3/5, p. 19
USAF awards laser communications contract 3/5, p. 24
Air Canada wins DC-8 reengining contract 3/5, p. 33
Beech Aircraft wins aerial refueling contract 3/5, p. 69
Awards due in airspace system update 3/12, p. 243
USAF activates computer facility 3/12, p. 94
Eutelsat to request new satellite proposals 3/19, p. 22
OMB issues rules that limit sole-sourcing of procurement 3/19, p. 26
United contracts 3/19, p. 28
Europeans endorse A320 production 3/19, p. 29
Shuttle tank contract 3/26, p. 25
Defense initiative ties contracts to results 4/2, p. 14
Warranty issue delays HARM contracts 4/2, p. 15
Selenia signs study contract for communications satellite 4/2, p. 24
Tower questions trends in Congress 4/2, p. 54
Procurement panel 4/2, p. 55
Ford wins direct-TV contract 4/9, p. 25
Boeing awarded USAF composite contract 4/9, p. 75
Shuttle booster contract 4/16, p. 144
General Dynamics leads top 100 defense contractors for fiscal 1983 4/23, p. 166
NATO awards contract 4/23, p. 178
Indian satellite power 4/23, p. 30
General Electric tests F110 fighter engine 4/23, p. 64
Olympics spur helicopter demand 4/30, p. 14
Lockheed contract 4/30, p. 18
INEWS joint venture 4/30, p. 24
Contractors prepare for shuttle operation bids 4/30, p. 25
Air Florida contracts 4/30, p. 31
Brazil considers joint helicopter effort 5/7, p. 17
Pratt & Whitney proposes new F100 version to power F-15E 5/7, p. 21
Rockwell expansion 5/7, p. 23
GAO report suggests military expand contracting of services 5/7, p. 83
Aeronautical Systems Div. awards ramjet engine test contract 5/14, p. 19
Flight Systems contract 5/21, p. 22
Companies submit tactical fighter studies 5/21, p. 26
UTC satellite link 5/21, p. 28
USAF awards ejection system contracts 5/28, p. 142
Gull develops updated flight inspection unit 5/28, p. 159
Rockwell wins ICBM guidance system award 6/4, p. 21
Plessey speeds Grenada work to permit Reagan visit 6/4, p. 22
Emergency transponder 6/4, p. 25
Crest system to increase crew survival 6/18, p. 101
C-130 Navaid plan stirs controversy 6/18, p. 21
JVX contracts 6/18, p. 23
Thomson-CSF resolves Satcom tube problems 6/18, p. 23
Senate panel votes to postpone Navy's aggressor aircraft buy 6/18, p. 30

Oil loss incidents due to detector or O-ring seal 7/23, p. 182
Vertical separation cut weighed 7/30, p. 27
Saudi Arabia buys 10 747s, 60 RB.211s with oil 8/20, p. 28
Canadian company develops external load fuel carrier for helicopters 8/20, p. 79
Insurance group distributes jet fuel nozzles 8/27, p. 30
Antimisting additive tests 8/27, p. 35
Marines use Lockheed KC130T to refuel Sikorsky CH-53E helicopters 9/3, p. 283
B-1 investigators focus on fuel system 10/1, p. 27
USAF cites fuel transfer error in B-1 aircraft crash 10/8, p. 22
FAA proposes rulemaking aimed at fire suppression 10/22, p. 41
Fuel costs trend down 11/5, p. 30
720 completes tests before crash 11/5, p. 61
U.S. airframe manufacturers face uncertainties in product planning 11/12, p. 145
Used aircraft demand continues strong with prices firming 11/12, p. 168
Fuel cost index of U.S. majors and nationals 11/12, p. 47
Soviet Tupolev Badgers refuel over East China Sea 12/3, p. 27
Control impact demonstration 720 cabin fire leaves key data intact 12/10, p. 31

**GERMANY**
Germans force NATO general to retire 1/16, p. 22
Germans investigate dismissal of general 1/30, p. 26
Kiessling reinstated 2/6, p. 30
MBB creates divisions to seek high-technology opportunities 2/20, p. 40
West Germany objects to ERS satellite costs 2/20, p. 61
End sought to German missile range limits 2/27, p. 27
German cabinet ratifies funds to assist A320 development 2/27, p. 35
Berlin air corridor incursions by Soviets draw Allied protest 4/16, p. 34
MBB presses laser, sensor research 5/21, p. 103
Germans, French tighten security ties 5/21, p. 124
Europe's aerospace technology nearing U.S. levels 5/21, p. 136
Fantrainer specifications 5/21, p. 157
Germans prepare Fantrainer for rollout 5/21, p. 157
Lufthansa seeks long-range 747-300 5/28, p. 35
French, Germans study recon satellite plan 6/4, p. 23
Mitterand, Kohl sign accord to develop combat helicopter 6/4, p. 23
Germans form first Tornado strike unit 6/11, p. 54
Germans add Falcon 900 to competition 6/11, p. 69
Lufthansa will market system to check engine performance 6/18, p. 40
Pratt & Whitney names JT8D-200 partners 6/18, p. 43
Boeing will deliver 757 transport to new German carrier 6/18, p. 49
U.S., Europeans leaders debate roles in planned development of space station 6/25, p. 187
German Spacelab mission will concentrate on pure research 6/25, p. 94
Defense restriction 7/9, p. 40
East German service 7/16, p. 32
U.S., Germans discussing 30 more Roland systems 8/6, p. 25
Germans consider Locust Drone project restart 8/13, p. 25
Pave Tiger Drone pace slowed by underestimate of complexity 8/13, p. 25
Four Tornadoes crash in July 8/13, p. 26
LTV MLRS system exhibited prior to German Army delivery 8/13, p. 69

MBB, Aeritalia will produce Columbus module 8/20, p. 20
Germany, India to develop advanced light helicopter 8/20, p. 21
Congress reduces military construction $165 million 8/20, p. 24
Germany starts building X-ray satellite 8/20, p. 80
German Defense Ministry buys seven Canadair Challengers 8/27, p. 20
Germans will not block tornado sale to Saudis 9/3, p. 216
Three Fantrainers participate in German flight test program 9/3, p. 44
Dassault demonstrates Atlantic 2 in Germany 9/10, p. 133
Missile basing leads to U.S.-German offsets 10/22, p. 87
Germans outfit MBB BO 105 for Antartic expedition 10/29, p. 51
Germans plan $31-billion military update 11/26, p. 29
Germans select TOW-armed vehicle for airborne units 12/3, p. 56
Germans install computer-controlled runway lights 12/10, p. 39

**GREAT BRITAIN**
British 767 delivery 2/13, p. 29
Britain caps defense fund rise 2/27, p. 21
Institute will use Jetstream converted laboratory for acid rain studies 2/27, p. 78
British role in new aircraft program grows 3/5, p. 25
British government underwrites A320 share 3/5, p. 30
European airline group proposes merger 3/12, p. 202
Britain's Royal Air Force plans buy of new turboprop trainer 3/26, p. 24
British carrier inaugurates Concorde service to Miami 4/9, p. 35
Air UK installing new interiors in Fokker F-27s 4/9, p. 45
Britain refuses Alarm missile program 4/9, p. 65
British aerospace profit 4/9, p. 93
British cargo carrier seeks U.S. market 4/16, p. 37
Britain selects Harpoon missile to arm Navy surface warships 4/23, p. 163
Britain-Libya flights continue 4/30, p. 32
British ponder return of Concorde service 4/30, p. 32
British Airways nets profit, improves sales prospects 5/7, p. 28
British Caledonian considers stock sale 5/7, p. 34
British nearing completion of third ski-jump-deck aircraft carrier 5/7, p. 82

Cessna opening pilot schools in Britain to increase licenses 10/15, p. 88
British demonstrate active control Jaguar 10/29, p. 66
Belgians reject discount London fare 11/5, p. 26
British Transport Minister decries Bermuda 2 Pact 11/5, p. 26
U.S. recognizes British position 11/5, p. 27
CAA may increase tour operator bond 11/19, p. 42
British use field repair shop for gem engine 12/3, p. 155
British Navy orders Marconi satellite terminals 12/3, p. 165
British using West German gliders in training program 12/3, p. 167
Britain names board to oversee broadcasting 12/3, p. 76

**GREECE**
IFALPA presses Greece, Libya on hijack policy 4/9, p. 30
Greece cuts fighter list, sets Oct. 1 selection 8/6, p. 25
Greece affirms Mirage 2000 purchase 8/13, p. 29
Greeks open new heliport near Athens 9/10, p. 137
AWACS bases will be operational in 1985 10/8, p. 24

**GRENADA**
Grenada action disables nine helicopters 7/2, p. 26

**HEAD-UP DISPLAYS**
FAA approves Flight Dynamics category 2 HUD 1/30, p. 68
New CRTs aid displays, low light imagery 2/13, p. 165
F-15C/D color display nears test stage 2/20, p. 77
Electronic displays gain in cockpit use 3/12, p. 225
Irish Dauphin 2s employ four-CRT panel 4/2, p. 62
Marconi Avionics begins wide-angle HUD deliveries for F-16 6/18, p. 96
Marconi deliveries F-16C/D head-up display 6/25, p. 224
French display system 7/9, p. 19
Mock-up shows ATR42 cockpit instrumentation 8/6, p. 75
Naval head-up display reduces signal officer workload 9/10, p. 169
FAA nears transport HUD certification 10/1, p. 145
PSA prepares MD-80 aircraft for head-up display flights 10/15, p. 43
Hughes, Flight Dynamics near settlement in patent case 10/29, p. 66
PSA using head-up displays in MD-80s 12/3, p. 41

**HEALTH**
Health service traces food poisoning 4/2, p. 29
British Airways warns staff in food incident 4/2, p. 30
U.S. flight crews served varied menus 4/2, p. 30
Airlines to carry required medical equipment 5/14, p. 32
Salyut 7 crew prepared to end record flight 10/1, p. 29

**HELICOPTERS-INTERNATIONAL**
**Europe**
Europeans stress turboshaft efficiency 1/16, p. 125
Origin of commercial helicopter fleet 3/12, p. 267
Combat helicopter needs absorb research 3/12, p. 65
**France**
Aerospatiale modifies Ecureuil for high altitudes 1/9, p. 23
Europeans pursue rotor development 1/16, p. 109
New cockpits use integrated avionics 1/16, p. 148
European civil programs focus on costs, comfort 1/16, p. 167
Sales lag spurs Aerospatiale cuts 1/16, p. 20
Army LHX spurs rotorcraft design 1/16, p. 80
Coast Guard delays HH-65A acceptance 1/23, p. 24
Helicopter companies expecting upturn this year 2/6, p. 44
Capitol Helicopter to start operations 2/6, p. 49
Aerospatiale tests AS15TT antiship missile 2/20, p. 28
Reengined Dauphin 2 begins flight tests 3/19, p. 24
Irish Dauphin 2s employ four-CRT panel 4/2, p. 62
Helicopter carrier to serve Washington airports 4/23, p. 41
Super Puma receives U.S. icing, IFR certificates 4/23, p. 68
Helicopter shuttle links Paris, outlying airports 5/14, p. 30
Coast Guard again delays HH-65 deliveries 6/18, p. 21
Aerospatiale testing armed Ecureuil 6/25, p. 213
HH-65AA seat in production 7/2, p. 71
Super Puma purchase 7/23, p. 18
Long-range AS 332s 7/23, p. 22
French begin armed ecureuil firing tests 8/13, p. 63
Super Pumas will support French nuclear test sites in Pacific 8/13, p. 81
Crouzet performing laser test of airspeed 9/17, p. 61
Resort uses Super Puma for passenger transport 10/1, p. 135
Ecureuil undergoes weapons, landing tests 10/8, p. 67
Military Dauphin completes hot weather tests 10/22, p. 59
Coast Guard receives first HH-65 this week 11/19, p. 26
French display militarized Falcon 50, Ecureuil 2 for maritime missions 11/26, p. 62
**General**
Manufacturers study RTM 322 powerplant use 1/9, p. 18
Manufacturer boosts accuracy of Hydra 70 helicopter rocket 8/13, p. 72
Ecureuil undergoes weapons, landing tests 10/8, p. 67
**Germany**
European civil programs focus on costs, comfort 1/16, p. 167
CASA assembling 32 BO.105 helicopters 1/23, p. 93
Helicopter companies expecting upturn this year 2/6, p. 44
Evergreen orders MBB/Kawasaki helicopters 2/6, p. 46
Economics, politics portend shifts 5/21, p. 50
Helicopter buy 8/6, p. 66
Germans outfit MBB BO 105 for Antartic expedition 10/29, p. 51
**Great Britain**
Westland 30 recertified 1/2, p. 31
Agencies end Westland 30 suspension 1/9, p. 30
Europeans pursue rotor development 1/16, p. 109
Navy studies helicopter use in Falklands 1/16, p. 136
European civil programs focus on costs, comfort 1/16, p. 167
European makers seek military market 1/16, p. 90
Airspur schedule 1/23, p. 31
Pan American to start Westland 30 helicopter service 4/9, p. 30
Westland delivers Lynx helicopters to Nigerian navy 6/4, p. 18

**IRAQ**

- CASA assembling 32 BO.105 helicopters 1/23, p. 93
- Bell seeks Iraqi sale license 10/22, p. 30

---

**ISRAEL**

- Military aid request revamps funding for finance of sales 2/6, p. 20
- House panel approves FMS credits for Israel 3/19, p. 101
- Funding for Israeli fighter triggers debate in House 5/21, p. 24
- U.S. approves technology transfer to Israel for Lavi 11/5, p. 20
- Israelis plan satellites 11/12, p. 17

---

**ITALY**

- Italians agree to fund EH-101 helicopter 2/13, p. 145
- Alitalia asks service rights to southern U.S. gateway 4/16, p. 51
- Lack of spares hinders Italy's Tornados 4/16, p. 72

Alitalia will purchase 747s, ATR42s 8/6, p. 32
Four Tornadoes crash in July 8/13, p. 26
MBB, Aeritalia will produce Columbus module 8/20, p. 20
Italy plans cabinet-level space agency 9/24, p. 19
Sabreliner, Agusta negotiate pact 10/1, p. 18
AWACS bases will be operational in 1985 10/8, p. 24

**JAPAN**
Boeing, Japan near decision on 7-7 work share 1/23, p. 30
Japanese launch direct TV broadcast satellite 1/30, p. 19
Japan seeks $ 2.5-billion defense budget 1/30, p. 21
Bilateral talks 1/30, p. 36
Japan funds launcher, satellite development 2/13, p. 125
Exim loan activity 2/13, p. 145
Japan, China agree on capacity boost 2/13, p. 29
Japan shuttle contract 2/27, p. 23
Defense official asserts Japan has two-year computer lead 2/27, p. 26
Growth trends: aerospace industry 3/12, p. 129
Japan prepares for next space phase 3/12, p. 129
Council sets Japan's space goals 3/12, p. 130
Japan plans new fighter as Soviet threat changes 3/12, p. 81
JAL to carry U.S. passengers to Brazil 3/26, p. 39
Japanese executives back import of spacecraft 4/9, p. 26
U.S.-Japan talks 4/9, p. 28
Japanese firms forecast aerospace growth 4/9, p. 91
Rules deter R&D exchanges with Japan 4/9, p. 91
U.S. closing robot technology gap with Japan 4/16, p. 76
Japanese defense contracts total $4.9 billion 4/23, p. 61
New trade policy boost Japanese imports of satellites 5/7, p. 16
Smaller firms dominate supercomputer field in U.S. 5/28, p. 154
Japanese planning space station studies 5/28, p. 26
Japan orders S-70B 6/4, p. 80
U.S. to gauge Japan computer speeds 6/4, p. 82
Pratt & Whitney names JT8D-200 partners 6/18, p. 43
Earth sensors further Japan's efforts 6/25, p. 151
Users challenging policies of Japan 6/25, p. 190
Japan selects helicopter contractors 6/25, p. 24
Europe offers weather satellite to Japan 7/2, p. 21
Japan will launch third meteorological satellite 7/9, p. 26
Japanese complete transponder testing 7/23, p. 24
Japanese H-2 Booster wins approval 7/30, p. 68
Meteosat proposal 8/13, p. 84
Japan will sponsor industry forum in London 8/20, p. 14
Japanese study space Commerce 8/20, p. 14
Helicopter network 8/20, p. 75
Japan GMS-3 Metsat nears orbital station 8/20, p. 81
Delta plans service to Honolulu 8/27, p. 30
Japan requests 7% increase in defense 9/10, p. 131
Japan warns of Soviet Far East buildup 9/24, p. 23
Japan forecast $1.37 billion in Aerospace sales 10/1, p. 29
ITC hears charges on titanium dumping 10/8, p. 25
Japanese intercept Soviet backfire bombers over Sea of Japan 10/8, p. 26
Japan Air Lines sets expansion goals 10/8, p. 38
Japanese station initiative 10/15, p. 28
Japan's Itoh plans Hughes Satcom buy 10/22, p. 30
Government agency criticizes Japan Air Lines' management 10/29, p. 37
Japan Air Lines orders French Avionics test station 10/29, p. 77
Space ground station completed near Tokyo 11/5, p. 16
Company formed for offshore Osaka airport 11/12, p. 101
Boeing nears completion of Nippon Cargo 747F Freighter 11/12, p. 31
Japanese ministry reevaluating nation's role in airline systems 11/12, p. 87
Japan studying carbon fiber blades 11/12, p. 91
Japanese modify C-1 flight simulator 11/12, p. 93
Soviet Tupolev Badgers refuel over East China Sea 12/3, p. 27

**JOINT SERVICES DEVELOPMENT PROGRAMS**
Study by GAO identifies joint program drawbacks 1/23, p. 97
Science advisers cite research need 9/3, p. 173
DARPA, NASA, army plan tests on heavy-lift helicopter 9/17, p. 46
Space power project moves to SDI office 10/29, p. 19
720 completes tests before crash 11/5, p. 61
Demonstration 720 crash delayed for control changes 11/19, p. 25
Martin Marietta will integrate military intelligence system 11/19, p. 28
Control impact demonstration 720 cabin fire leaves key data intact 12/10, p. 31

**JORDAN**
L-1011 purchase 1/9, p. 34
Military aid request revamps funding for finance of sales 2/6, p. 20
Stinger lease 4/23, p. 165

**JUPITER**
JPL set to integrate Galileo Jupiter probe with orbiter 2/27, p. 41
Galileo to employ Sandia components 7/30, p. 19
Soviet Jupiter interest 12/3, p. 18

**KOREA**
ICAO Council condemns Soviet downing of 747 3/12, p. 273
Mission 9 astronauts photographed Soviet submarine, fighter bases at Petropavlovsk 3/19, p. 17
ICAO stymied in anti-force talks 4/30, p. 28
ICAO assembly endorses weapon ban 5/21, p. 34
Manufacturer's role cited in route testimony 6/4, p. 28
ICAO pushes new intercept rules 8/6, p. 28
U.S. Koreans conduct joint air exercises 9/3, p. 141
F-20 crashes during demonstration in Korea 10/15, p. 25

**KUWAIT**
Airbus building convertible A300-600 for Kuwait 3/12, p. 207
Kuwait earth station 10/1, p. 146

**LABOR, EMPLOYMENT, WAGES**
Sales lag spurs Aerospatiale cuts 1/16, p. 20
Lear Fan lays off workers in Northern Ireland 1/16, p. 24
British Aerospace to cut work force by 850 1/23, p. 21
Hiller Aviation files for bankruptcy 1/30, p. 26
British Airways amends employee pension plan 1/30, p. 29
Pact could limit Frontier Horizon fleet 1/30, p. 37
Pacific Express begins limited service restart 2/13, p. 31
Air Vermont returns to service 2/13, p. 32
Carriers expanding work forces 2/20, p. 32
U.S., Canadian carriers cautious on new hiring 2/27, p. 36
United trains flight attendant reserve 2/27, p. 36
Airline employment totals will stay level in Europe 3/5, p. 33
Air Florida plans lay off 3/12, p. 269
SBS cuts staff 3/12, p. 271
United contract 3/19, p. 28
Sabena agrees to pay increases 4/2, p. 29
AMR Corp. forms ground service subsidiary 4/2, p. 32
Republic pilots approve labor contract 4/2, p. 36
Lorenzo warns Senate on labor contract bill 4/16, p. 36
Early retirement plan 5/7, p. 101
Piper will end production in Pennsylvania 5/7, p. 18
American expansion 5/7, p. 29
Pan American postpones vote on holding company 5/14, p. 36
Pilot pay freeze 5/14, p. 42
Air Florida will furlough more workers 5/21, p. 29
Court overturns employee protection program 5/28, p. 31
Lear Fan lays off almost all workers at its Belfast plant 6/4, p. 25
Cessna reorganizes divisions, stretches shutdown of plant 6/18, p. 28
Wage plan rescinded 6/18, p. 45
Transamerica, ALPA discuss low-cost charter 6/25, p. 30
Noise rules to affect Miami commerce 7/2, p. 35
Union launches program to organize controllers 7/9, p. 32
Air Florida personnel 7/23, p. 34
Republic, unions agree on concessions 7/23, p. 34
Western's unions propose further pay cuts 7/30, p. 30
Hughes expands Mesa operations 8/6, p. 20
Business flying manufacturers extend layoffs 8/13, p. 28
FAA centralizes traffic control 8/13, p. 30
Job growth in aerospace sector to slow 8/20, p. 58
Eastern pilot class 8/27, p. 29
Union organizers gain in signature drive 8/27, p. 36
Dornier optimistic despite 25% decline in revenues 9/3, p. 193
Beech employees return to work after strike 9/3, p. 273
New options for old sites 9/3, p. 39
Hughes reorganizes Tucson Facility 9/3, p. 45
Manufacturers' production drops, layoffs continue despite upturn 9/3, p. 50
Braniff changes fare structure; plans reduction in employees 9/10, p. 54
Comair sets wages for Saab 340 pilots 9/10, p. 89
Union pension concern sparks walkout 9/17, p. 39
Western pilots' union approves pay cuts 9/17, p. 39
Bell, union sign 9/24, p. 21
Helicopter makers finish offset proposals for Belgian purchase 9/24, p. 23
Booster tests, workforce cut by Starstruck 9/24, p. 24
Gates Learjet halts civil production line 9/24, p. 26
Lufthansa, DAG union reach new agreement 9/24, p. 30
Charter flights for land sales bolster Jet East operations 10/1, p. 120
Hughes outlines production restart plan 10/1, p. 23
Aircal taking larger California market share 10/15, p. 46
Unions rally opposition to military cost moves 10/29, p. 25
Braniff initiates fleet, gate cuts to avoid bankruptcy 10/29, p. 28
Government agency criticizes Japan Air Lines' management 10/29, p. 37
Air Force will withhold General Electric payments because of discrepencies 11/5, p. 23
Facility for F-16 coproduction work is built in Turkey 11/12, p. 18
Airline labor policies changing in deregulated U.S. industry 11/12, p. 190
Wien Air will halt operation for 25 days, reassess options 11/12, p. 36
Northeastern International grounds aircraft 11/12, p. 41
F100 sales drop affects Bendix controls 11/19, p. 28
PSA warns employees on union contract 11/19, p. 30
Western expands schedule 11/26, p. 45
Semi-automated plant enhances quality, cuts manufacturing cost 11/26, p. 66
Capitol Air discontinues flight operations 12/3, p. 31
Wien Air files for Chapter 11 after limited shutdown barred 12/3, p. 31
American, United contract for pilot hiring aid 12/3, p. 33

**LAND VEHICLES**
Parallel programs advance small ICBM 3/5, p. 14

**LANDING AIDS AND SYSTEMS**
USAF tests arresting systems 1/2, p. 45
MLS contract 1/16, p. 27
Bendix, Wilcox, Hazeltine to bid for Air Force tactical MLS 1/23, p. 32
Lockheed-Georgia testing new C-5B landing gear actuator 1/30, p. 25
Carrier begins category 2 operation 3/19, p. 112
Thomson-CSF to install ILS systems in Britain 4/2, p. 63
Venezuelan air force testing U.S.-built aircraft arresting system 4/30, p. 43
Witnesses urge area navigation to solve congestion at airports 8/6, p. 41
Boeing conducts refused takeoff tests of 757 transport 9/3, p. 129
French Messier raises carbon brake output 9/3, p. 164
Boeing selects Bendix brakes 10/8, p. 61
Initial MLS tests scheduled for C-141A 10/8, p. 76
FAA chief gives New York MLS priority 10/29, p. 32
Bendix records carbon brake order 11/5, p. 44
Thai orders carbon brakes for A300-600s 12/3, p. 108
Germans install computer-controlled runway lights 12/10, p. 39

**LASERS**
Equipment seized 1/23, p. 98
USAF awards laser communications contract 3/5, p. 24
Defense Dept. asks $9 million to expand laser test facility 4/9, p. 19
Sfena to start production of laser gyro 4/23, p. 174
Soviets press airborne laser program 4/23, p. 54
Laser communications 5/14, p. 21
MBB presses laser, sensor research 5/21, p. 103
Germans, French tighten security ties 5/21, p. 124
General Electric uses computer-controlled lasers in engine production 6/25, p. 222
Chinese increasing laser capabilities 7/16, p. 73
Talon Gold launch slips 8/20, p. 16
Laser inspector spots flawed solder joints 9/3, p. 307
Crouzet performing laser test of airspeed 9/17, p. 61
Lasers may supply space energy needs 9/17, p. 83
Optics gains aid high-power lasers 9/24, p. 91
French Laser Gyro selected for Ariane 4 10/15, p. 24
British Aerospace pushing ring laser gyro effort 11/19, p. 91
Current technologies could aid in implementing Reagan's SDI policy 12/10, p. 75

**LAUNCH FACILITIES**
Shuttle crew photographs Soviet sites 1/9, p. 19
Second Ariane pad nears completion 4/23, p. 151
KSC airspace violations raise concern 4/30, p. 51
National ranges 5/14, p. 60
Shuttle abort challenges controllers at Kennedy 7/2, p. 18
U.S. company will launch satellite on Ariane 7/2, p. 24
Shuttle launch facilities built at Vandenberg 8/6, p. 53
NASA moves Discovery orbiter to launch pad 8/13, p. 24
NASA official urges transfer of mission control 8/27, p. 14
Starstruck launches booster from Pacific 8/27, p. 58
Foreign, civil launch services change U.S. government role 9/3, p. 229
USAF inspecting Vandenberg launch facilities 9/3, p. 46
New FAR may curb intrusion of launch area 9/10, p. 42
Challenger towed to pad 39A for Oct. 4 launch 9/17, p. 27
FAA bars flyers east of area during orbiter launch, landing 9/24, p. 25
China offers space launch services 10/8, p. 48
French gather acoustic, heat data at new pad 10/22, p. 109
GTE Spacenet seeks coverage for another launch on Ariane 3 11/19, p. 20
External tank, shuttle to begin compatibility tests at Vandenberg 11/19, p. 71
Soviet Union is building new SS-20 launch bases 12/10, p. 23
Facilities construction 12/10, p. 52
Space shuttle launch support equipment installed at Vandenberg 12/10, p. 52

**LAUNCH VEHICLES**
Milstar to employ Centaur upper stage 1/2, p. 21
NASA seeks improved shuttle main engines 1/9, p. 20
USAF, Boeing probe charring on IUS nozzle 1/9, p. 21
Soviets emphasize station, booster efforts 1/23, p. 26
General Dynamics prepares Centaur for shuttle launch 1/23, p. 51
Japan funds launcher, satellite development 2/13, p. 125
Defense Dept. vehicle 3/5, p. 19
USAF awards expendable launcher study contracts 3/5, p. 19
Aerospatiale continues development, production work on Ariane 3, 4 launchers 3/5, p. 63

Europe plans 30 missions with Ariane 3/12, p. 103
Soviets strive to outspace U.S. technology in space 3/12, p. 111
Commercial launch effort tied to spacecraft market 3/12, p. 120
Europe weighs station, launcher plans 3/12, p. 123
Booster change delays TDRS-B launch 3/19, p. 97
PAM failures on Shuttle 10 delay Galaxy launch 3/26, p. 18
Orbital sciences signs pact on stage program 3/26, p. 53
Intelsat plans launch on Ariane 4 4/2, p. 20
USAF cites PAM failure in Navstar launch delay 4/9, p. 27
Shuttle booster contract 4/16, p. 144
Sfena to start production of laser gyro 4/23, p. 174
China puts payload in geosynchronous orbit 4/23, p. 24
Dispute grows over shift of USAF shuttle payloads 4/30, p. 25
NASA offers launch vehicle using space shuttle elements 5/14, p. 18
Investigators continue to study PAM failure 5/14, p. 25
RCA develops upper stage for shuttle 5/21, p. 167
Composite material layering seen as PAM fault 5/21, p. 18
France to put SEP Ariane engine company under Snecma control 5/21, p. 28
New shuttle upper stage 5/28, p. 29
General Dynamics builds Centaur G-prime test article 6/11, p. 23
House bill assigns Transportation Dept. launcher licensing 6/11, p. 23
Intelsat Centaur stage failure will increase insurance rates 6/18, p. 24
Ninth Navstar launched from Vandenberg 6/18, p. 31
Air Force developing plan on expendable launchers 6/18, p. 70
Orbital Sciences offers upper stage 6/25, p. 108
Transpace embarks as venture capitalized booster company 6/25, p. 140
Output of Atlas, Titan tied to military, private markets 6/25, p. 159
Output of Atlas, Titan tied to military, private markets 6/25, p. 159
Europe outlines future space plan 6/25, p. 16
Space Services pushing Conestoga launch vehicle 6/25, p. 163
Bay area firms pursue booster designs 6/25, p. 166
McDonnell Douglas sees 50 PAM-Ds sold by 1990 6/25, p. 169
Investors taking cautious view of private programs 6/25, p. 78
ESA replies to charges on Arianespace pricing 7/2, p. 22
Europeans develop long-term space transportation concepts 7/2, p. 23
U.S. company will launch satellite on Ariane 7/2, p. 24
ESA approves two studies for future space presence 7/9, p. 17
Launch pricing change 7/16, p. 25
Ariane 3 readied for first flight 7/23, p. 77
Arianespace sets new pricing policy 7/23, p. 77
CNES studies Ariane 5P 7/23, p. 79
Centaur upper-stage tank in assembly 7/23, p. 82
Ariane 3 will be launched with two strap-on boosters 7/30, p. 68
Japanese H-2 Booster wins approval 7/30, p. 68
Discover in VAB 8/6, p. 26
Triple satellite payload to study Van Allen Belts 8/6, p. 54
Japanese select launcher with heavy-lift capability 8/13, p. 162
Ariane places two satellites in proper orbit 8/13, p. 19
Starstruck launches prototype Dolphin Rocket in first flight 8/13, p. 20
Discovery rigged for quick payload change 8/13, p. 24
USAF changes launcher proposal bid 8/20, p. 18
National Air and Space Museum exhibiting expendable launch vehicles 8/20, p. 71
Air Force testing PAM-D2 in spin rig 8/20, p. 73
Soviets ready new boosters at Tyuratam 8/27, p. 18
United Space Boosters wins shuttle award 8/27, p. 21
Starstruck launches booster from Pacific 8/27, p. 58
Foreign, civil launch services change U.S. government role 9/3, p. 229
British study shuttle competitor 9/3, p. 245
NASA concerned about booster dynamics 9/10, p. 99
Booster tests, workforce cut by Starstruck 9/24, p. 24
NASA extends Delta marketing deadline 10/8, p. 57
French Laser Gyro selected for Ariane 4 10/15, p. 24
French film Ariane, booster separation 10/15, p. 47
Arnold center testing Inertial Upper Stage 10/22, p. 104
Cosmos 1,603 conducts space maneuvers 10/22, p. 24
Satellite launch vehicle prices will be reviewed 10/22, p. 24
Congress votes $15.36 million for USAF space booster 10/22, p. 28
Rockwell develops powered GBU-15 10/22, p. 83
Morton-Thiokol tests graphite/epoxy booster motor 11/5, p. 24
NOAA launch postponed 11/26, p. 19
NASA to test new solid rocket booster cases 12/3, p. 129
Aerospatiale prepares Ariane 3 first stage for shipment 12/3, p. 20
Satellite pricing 12/3, p. 21
Boeing shock tube tests nuclear blast overpressure 12/3, p. 63

### LAUNCHING SYSTEMS

British Rapier Laserfire completes first firing 9/3, p. 107
Orbiter Discovery carries three Comsats into space 9/3, p. 52
Master controller software error delayed mission count 9/10, p. 107
Matra satellite uses piggyback launch 9/10, p. 149
Change in launch plan clouded Galileo's asteroid possibilities 9/24, p. 16
MX missile enters second phase of testing 10/8, p. 28
French film Ariane, booster separation 10/15, p. 47
French gather acoustic, heat data at new pad 10/22, p. 109
British expand SkyHook launch system uses 10/22, p. 65
British design retractable hook-on device enabling all harrier aircraft to use SkyHook 10/22, p. 67
SkyHook modification permits ship resupply 10/22, p. 68
SkyHook could alter roles of aircraft carriers 10/22, p. 72
Shuttle external tank arrives at Vandenberg 11/5, p. 67
ESA will select substitute payload for 1986 flight 11/19, p. 20
Missile launcher studied for Naval Air Defense 12/3, p. 65
ESA designs semi-reusable launch system 12/10, p. 21

### LEBANON

Beirut casualties blamed on inadequate intelligence 1/2, p. 24
Lebanon lessons raise interest in RPVs 8/20, p. 44

### LEGAL ACTIONS

Military scrutinizes microcircuit tests 1/2, p. 23
CAB bureau questions regent on 'compliance disposition' 1/9, p. 26
SEC suit charges Thayer passed insider information 1/16, p. 19
Germans force NATO general to retire 1/16, p. 22
General Electric suit 1/23, p. 21
Crandall urges increased aircraft leasing 1/23, p. 32
Bankruptcy court supports Continental filing 1/23, p. 35
Germans investigate dismissal of general 1/30, p. 26
Canadair, dealer resolve dispute over performance 1/30, p. 49
Space suit penalty 2/6, p. 25
Kiessling reinstated 2/6, p. 30
Continental sues IAM 2/6, p. 32
Boeing Vertol found negligent in 1982 CH-47C Chinook crash 2/13, p. 143
SBS, Skyband settle 2/20, p. 81
Records subpoenaed 2/27, p. 24
Supreme Court decision may aid Continental 2/27, p. 29
USAF lifts engine parts supplier suspension 3/5, p. 24
U.S., Santa Monica settle noise dispute 3/12, p. 192
Helms files $1-billion suit against associates, firms 3/19, p. 30
Omni, executives indicted on tax fraud charges 4/2, p. 23
Senate panel votes for industry protection on product liability 4/9, p. 26
Court case may alter certification process 4/23, p. 147
Piper agrees to pay heirs of crash victims 4/23, p. 150
Lawsuit claims Pacific East Air uses unfair business practices 4/23, p. 36
Bell claims bogus use of data plates 4/30, p. 26
Pilots to be sentenced 4/30, p. 27
Datasaab fined $3.1 million 5/7, p. 20
Continental sues Air Line Pilots Assn. 5/7, p. 31
Spy sentenced to life imprisonment 5/21, p. 20
Justice turns down antitrust action 5/21, p. 32
Pilots sentenced in bomb case 5/21, p. 34
Court overturns employee protection program 5/28, p. 31
Air Illinois filing 5/28, p. 34
Pacific East Air bankruptcy proceedings set 6/4, p. 30
Florida court upholds fuel tax 6/25, p. 33
Court backs Continental contract rejection 6/25, p. 36
Court finds functions of FAA immune from negligence suits 6/25, p. 36
National suit 7/2, p. 24
National hearing 7/9, p. 26
Four carriers indicted on price fixing 7/16, p. 29
House of Lords ruling permits Laker suits 7/30, p. 29
Restraining order 7/30, p. 32
ICAO pushes new intercept rules 8/6, p. 28
Court gives Air Florida recovery plan deadline 8/13, p. 30
Bankruptcy court orders airline liquidation 8/13, p. 31
Pacific Express charges United in court suit 8/13, p. 34
U.S. sues on withheld crash evidence 8/20, p. 26
Air Florida preparing recovery plan 8/20, p. 29
Protestors smash computer at Sperry plant 8/27, p. 24
Air Florida plan 8/27, p. 30
Airlines urge CAB to reject antitrust bid 8/27, p. 30
Air Florida, Midway face deadline on rescue plan 9/3, p. 68
Repossessed Boeing 737 9/10, p. 49
SEC brings charges against Helms 10/1, p. 33
Court approves Midway's buy of Air Florida 10/1, p. 34
Travel Trust sues Virgin Atlantic 10/1, p. 36

British Transport Minister decries Bermuda 2 Pact 11/5, p. 26
Braniff liquidators try to block leasing 11/5, p. 32
Exhibit firm asks injunction on Commerce Dept. 11/5, p. 49
Florida group presses for exemption from noise rules 11/12, p. 157
Braniff lease plan cleared 11/12, p. 30
British Airways sues to halt reservation rules 11/12, p. 30
British view antitrust, trade laws in U.S. as key to fare agreements 11/12, p. 81
President halts grand jury antitrust inquiry 11/26, p. 36
Former Defense official sentenced for fraud 11/26, p. 59

### MAINTENANCE, OVERHAUL, REPAIR

Groundings fuel debate on safety 1/2, p. 26
Trans World studies disposal of overhaul training facilities 1/9, p. 30
Air Vermont returns to service 2/13, p. 32
Boeing Military Airplane Co. performing depot maintenance on F-4C fighters 3/5, p. 54
Decentralized maintenance boosts sortie rates, hours 3/19, p. 64
Northrop offers logistic support with F-20 3/26, p. 22
Tight pace challenges Solar Max repair 3/26, p. 42
Shuttle to make direct orbit insertion launch 4/2, p. 46
Solar Max repair uses special tools 4/2, p. 47
NASA plans Landsat orbital repair 4/9, p. 16
Black Sunday...fat Tuesday 4/16, p. 13
Orbiter crew restores Solar Max 4/16, p. 18
Aftermath of a rescue 4/23, p. 13
Orbiter serviced by reduced crew at Edwards 4/23, p. 18
Pin scrutinized in Solar Max docking problem 4/23, p. 23
Air Illinois suspends scheduled operations 4/23, p. 33
Talks continuing on retrieval of Palapa 4/30, p. 17
Cessna increases reliance on turbine powered line 5/7, p. 100
Saudis receive foreign bids C-130 maintenance work 5/21, p. 150
Cameras record docking attempt, Solar Max repair 6/4, p. 40
CH-47D maintenance trainer cuts cost 6/11, p. 49
Satcom salvage plans near completion 6/25, p. 22
Maintenance cited in triple-engine out 8/13, p. 185
Europeans vie for maintenance awards 8/13, p. 21
Lockheed will open new modification facilities 8/20, p. 60
Lufthansa applies Swedish anti-corrosion agent to aircraft 9/3, p. 185
USAF to cut overseas maintenace costs 9/3, p. 199
Short Brothers will provide logistics, maintenance support for C-23A 9/3, p. 209
Simulator maintenance 9/3, p. 49
E-Systems Group pushes engine overhaul at Taiwanese facility 9/10, p. 131
Pratt & Whitney will remanufacture JT8Ds 9/10, p. 54
Engine retrofits of Jetstar, Jet Commander offer fuel savings 9/10, p. 59
RAF evaluating rotor vibration of diagnostic unit 9/24, p. 71
Duncan Aviation plans parts center 10/1, p. 123
Rockwell maintains active aircraft fleet 10/1, p. 132
System to provide weapons support 10/15, p. 28
McDonnell Douglas will resume F-18 deliveries to U.S. Navy, Canada 10/15, p. 29
Corporate flying activity accelerates 10/15, p. 84
Owners retrofitting integrated navaids 10/15, p. 95
Air Force unit developing method for rapid repair of bombed runways 10/22, p. 125
Boeing extending upper deck of KLM 747 transport 10/22, p. 41
NOAA reactivates GOES-1 following repair maneuver 11/5, p. 17
Boeing retrofits extended upper deck on 747 11/5, p. 25
Hydraulic pump eases DC-10 engine work 11/5, p. 89
Maintenance procedures reviewed after S-76A helicopter crash 11/5, p. 89
Airlines uphold maintenance rules while automating operations 11/12, p. 113
Engine makers stress product support in maintenance programs 11/12, p. 125
Pratt & Whitney studies more remanufacturing 11/12, p. 129
GE modifying CT7 second stage following operational failure 11/12, p. 32
Services specify 1990s aircraft design goals 11/19, p. 58
Lockheed Electronics wins Vulcan upgrade kit contract 11/19, p. 63
British use field repair shop for gem engine 12/3, p. 155
Singapore buys test unit 12/3, p. 161
Joint venture formed for technical auditing 12/3, p. 43
Convair Super 580 to enter regional market 12/3, p. 97
Shuttle tile waterproofing will be tested on next launch 12/10, p. 23

### MALAYSIA

Italians deliver Macchi trainer to Malaysians 1/30, p. 51
Renovated A-4 destined for Malaysian air force makes its first flight 4/23, p. 29
Malaysian A-4 Trainer makes first flight 9/3, p. 56

### MANAGEMENT

Martin Baltimore reverses downtrend 1/2, p. 53
Western management 1/16, p. 28
Study urges centralized procurement 1/30, p. 58
Rules deter R&D exchanges with Japan 4/9, p. 91
USAF warns industry on spares costs 4/16, p. 175
Soviet Union continues military buildup 4/23, p. 53
Export control shift worries Europeans 4/30, p. 59

Soviets realign research efforts 5/7, p. 14
Dutch renew debate on missile basing 5/7, p. 79
Canadair reorganizes Challenger sales division 5/7, p. 95
Fairchild realigns, names top executives 5/14, p. 26
C-5B production planned for cost, time efficiencies 5/28, p. 135
Strategic defense group speeds efforts 6/11, p. 16
Investors taking cautious view of private programs 6/25, p. 78
Gamma ray project spurs TRW efficiency measures 7/9, p. 62
Navy upgrades document management 7/16, p. 18
Pentagon drops report screening plan 7/23, p. 119
Salvaging a reputation 8/6, p. 11
TWA recognizes, weighs merger 8/20, p. 28
Production rates 8/27, p. 25
Telesat seeks new rates, market plan 9/3, p. 177
Dornier optimistic despite 25% decline in revenues 9/3, p. 193
Roland deployment to Norway pressed 9/3, p. 289
New options for old sites 9/3, p. 39
Hughes reorganizes Tucson Facility 9/3, p. 45
Martin finishes its initial audit of ATC systems 9/3, p. 59
Marines delay air operations system 9/10, p. 115
Responsibility division 9/10, p. 41
Makers weigh future airline needs 9/10, p. 44
Braniff changes fare structure; plans reduction in employees 9/10, p. 54
The toils of collaboration 9/17, p. 11
NASA forms space commercialization office 9/17, p. 18
Factory updates aid Avco production 9/17, p. 74
USAF pushes survivability of satellites 9/24, p. 71
Hughes outlines production restart plan 10/1, p. 23
Corporate flights outpace sales of new aircraft 10/1, p. 38
Joint company formed 10/8, p. 17
Pacific council 10/8, p. 20
Comsat, Mitsubishi team on Earth stations 10/8, p. 23
Contractor charges attacked 10/15, p. 27
System to provide weapons support 10/15, p. 28
Air 1, McClain end proposed merger 10/15, p. 34
Cessna opening pilot schools in Britain to increase licenses 10/15, p. 88
U.S. transport sales in Mideast hampered by export controls 10/22, p. 111
Hanover Air Show management will increase exhibition space 10/22, p. 120
Agusta seeks profit turnaround through fewer aircraft types 10/22, p. 125
Satellite launch vehicle prices will be reviewed 10/22, p. 24
Starstruck management is reorganized 10/22, p. 30
Government agency criticizes Japan Air Lines' management 10/29, p. 37
GAO foresees savings in altered B-1B basing plan 10/29, p. 64
Air Force will withhold General Electric payments because of discrepencies 11/5, p. 23
Europeans hone U.S. sales strategy 11/5, p. 42
Piper develops strategic plan to pare aircraft market line 11/5, p. 76
Easing of regulation in Canada stimulates vast reassessment 11/12, p. 138
U.S. airframe manufacturers face uncertainties in product planning 11/12, p. 145
Airbus Industrie increases penetration of North American market 11/12, p. 150
USAF approves Hughes plan to correct quality problems 11/12, p. 24
Frontier holdings seeks higher productivity, lower costs 11/12, p. 29
Wien Air will halt operation for 25 days, reassess options 11/12, p. 36
CAB function shifts designed to avoid power concentration 11/12, p. 55
Japanese ministry reevaluating nation's role in airline systems 11/12, p. 87
Manufacturers restructure sales organizations in depressed market 11/19, p. 88
TRW discloses cost estimate of overcharges 11/26, p. 25
USAF resumes Hughes missile funding 11/26, p. 30
Commuter recertification 11/26, p. 34
Air Force pushes industry role in value engineering 11/26, p. 57
Rolls-Royce Miami facility seeks new work despite losses 12/3, p. 110
Venture seeks to boost machine tool effort 12/3, p. 113
Airport, politicians, institute spark high-technology center at Atlanta 12/3, p. 137
ALPA board shifts policy powers to headquarters 12/3, p. 32
USAF emphasizing technology to improve quality assurance 12/3, p. 78
Joint staff to shape space command 12/10, p. 21
NATO ministers agree to increase infrastructure budget 12/10, p. 22
U.S. tallies cost to Soviets of technology transfer rules 12/10, p. 67

### MANNED MANEUVERING UNIT
Maneuvering unit keyed to simplicity 1/23, p. 42
Astronauts evaluate maneuvering backpacks 2/13, p. 16
EVAs, landing highlight Shuttle 10 2/20, p. 16
Astronauts practice for future tasks 2/27, p. 37
Black Sunday...fat Tuesday 4/16, p. 13
Orbiter crew restores Solar Max 4/16, p. 18
NASA believes EVAs valid despite recovery problem 4/16, p. 21
Orbiter serviced by reduced crew at Edwards 4/23, p. 18
Satellite rescue made possible by detailed contingency plans 12/10, p. 46

### MANUFACTURING TECHNOLOGY
Alcoa pushes sand casting techniques 1/2, p. 49
Alcoa installs new computer-aided design unit 1/2, p. 52
McDonnell Douglas uses infrared quartz lamps to heat titanium 1/2, p. 52
Martin Baltimore reverses downtrend 1/2, p. 53
German company develops drilling, milling machine 1/9, p. 67
Swedes seek to penetrate U.S. market 1/9, p. 67
McDonnell Douglas cuts aircraft construction time 1/9, p. 71
Hughes using scanning electron microscope to inspect integrated circuit connections 1/9, p. 78
Fairchild improves ultrasonic welding 1/16, p. 195
Research firm developing robotic wing deriveter 1/16, p. 201
Alcoa using computerized spin forge 1/23, p. 76
Rockwell completes first B-1B fuselage 1/23, p. 78
Spin forming used in missile 2/20, p. 44
Alcoa producing lighter lithium alloy 2/27, p. 68
Company will spend $1 billion on automation 4/9, p. 27
Boeing awarded USAF composite contract 4/9, p. 75
Computerized X-ray to verify MX motors 4/16, p. 149
Sikorsky using robot in production of SH-60B Seahawk 5/7, p. 85
French plant delivers GE/Snecma parts 5/7, p. 91
Air Force funds automatic composite curing system 5/14, p. 71
Navy evaluates hot isostatic pressing 5/14, p. 71
Aerospatiale uses robots to build missiles 5/21, p. 139
Navy funding carbon-carbon weaving unit 5/28, p. 131
Grumman expands composite capacity 6/11, p. 67
Rolls makes first carbon fiber bypass duct for Tay engine 6/18, p. 89
Northrop using robot in F/A-18 production work 6/18, p. 93
Company plans to manufacture crystals in space 6/25, p. 100
Company to produce semiconductors in space 6/25, p. 100
Grumann seeks new materials 6/25, p. 106
NASA asks wider industry role in processing work 6/25, p. 120
Astrotech offering satellite processing 6/25, p. 122
New wind tunnel yields precise data 6/25, p. 215
3M seeks new materials, processes 6/25, p. 65
John Deere plans space iron research 6/25, p. 74
Space processed spheres ready for sale 6/25, p. 85
U.S. business group finds initiatives to be feasible 6/25, p. 93
Iron experiments conducted at Dryden 6/25, p. 95
Airlines study turbine blade HIP processing 7/2, p. 30
New plasma welding method used on shuttle tank 8/13, p. 169
McDonnell Douglas is computerizing autoclave process 8/13, p. 201
Automated plasma sprayers being developed 8/13, p. 53
C-2A cost savings exceed forecasts 8/13, p. 59
Austin's lead in research spurs growth 8/13, p. 73
Computer controls schedule of B-1B spare parts production 8/13, p. 74
Dallas sees high technology resource growth 8/13, p. 76
Single-chip processor 8/20, p. 22
Boeing designs, builds high-speed computerized router 8/20, p. 72
Lockheed-Georgia using new stretch press in C-5A wing production 8/20, p. 72
Microelectronics center utilizes computer-aided design 8/27, p. 55
Air Force invests in centralized control at Georgia plant 8/27, p. 70
Fairchild studies light missiles, A-10 follow-on as new efforts 9/3, p. 281
New options for old sites 9/3, p. 39
Dowty Rotol studies large turboprops 9/10, p. 123
Dutch to participate in EFA program 9/10, p. 28
Factory updates aid Avco production 9/17, p. 74
Hughes outlines production restart plan 10/1, p. 23
New technologies adapted to engines 10/1, p. 49
System to provide weapons support 10/15, p. 28
British Aerospace starts work on wing skins for A310-300 10/15, p. 47
Howmet uses advanced grinder 10/22, p. 140
Microcircuit system goes into operation 10/22, p. 145
Airlines uphold maintenance rules while automating operations 11/12, p. 113
U.S. airframe manufacturers face uncertainties in product planning 11/12, p. 145
USAF approves Hughes plan to correct quality problems 11/12, p. 24
Airbus will accelerate A300, A310 production 11/12, p. 30
Services specify 1990s aircraft design goals 11/19, p. 58
Skytrader constructing new plant for manufacturing ST1700 11/19, p. 89
Semi-automated plant enhances quality, cuts manufacturing cost 11/26, p. 66
Rolls-Royce Miami facility seeks new work despite losses 12/3, p. 110
Robot used in manufacturing of F-16 fighter 12/3, p. 113
Venture seeks to boost machine tool effort 12/3, p. 113
British Aerospace uses superplastic bonding 12/3, p. 116
USAF emphasizing technology to improve quality assurance 12/3, p. 78
Iowa State advances nondestructive testing 12/3, p. 80

### MAPS, MAPPING
Mapping agency to expand digital use 7/16, p. 52

### MATERIALS
Alcoa pushes sand casting techniques 1/2, p. 49
McDonnell Douglas uses infrared quartz lamps to heat titanium 1/2, p. 52
British Aerospace testing carbon fiber engine access door 1/9, p. 59
German company develops drilling, milling machine 1/9, p. 67
Graphite epoxy rudder tested 1/9, p. 70
McDonnell Douglas cuts aircraft construction time 1/9, p. 71
S-76 rotor components formed of composites 1/16, p. 105
Europeans stress turboshaft efficiency 1/16, p. 125
Fairchild improves ultrasonic welding 1/16, p. 195
Alcoa using computerized spin forge 1/23, p. 76
USAF T-38 jet trainers to start tests of windshield redesign 1/23, p. 89
Alcoa producing lighter lithium alloy 2/27, p. 68
Shuttle transmission links will rely on fiber optics 3/12, p. 249
Higher thrust engines equip GP-180 4/2, p. 48
Sikorsky testing composite helicopter 4/30, p. 48
Navy funding carbon-carbon weaving unit 5/28, p. 131
Grumman expands composite capacity 6/11, p. 67
Space shuttle to launch West Germany's Spacelab D1 mission with emphasis on materials research 6/25, p. 178
John Deere developing space materials research hardware 6/25, p. 199
Japan will sponsor industry forum in London 8/20, p. 14
Data indicate station needs protective layers 9/17, p. 18
NASA developing laminar flow control system 10/1, p. 93
Blanket of ceramics adapted by Boeing to composite cowl 10/15, p. 67

### MERGERS AND ACQUISITIONS
Court approves acquisition of Hughes 1/2, p. 22
British Aerospace unifies sales group 1/16, p. 188
Litton-Core merger 1/16, p. 191
European airline group proposes merger 3/12, p. 202
McDonnell Douglas agrees to acquire Tymshare 3/19, p. 103
MarkAir buys Wien's ground facilities 3/26, p. 30
Hiller assets 4/23, p. 149
CP Air seeks approval of acquisition 4/30, p. 39
Lear Siegler acquisition 4/30, p. 59
Rogerson sets helicopter production rate 5/7, p. 25
British Aerospace, Thorn EMI discuss merger 5/21, p. 27
GEC bids for British Aerospace 6/11, p. 21
Republic Steel negotiates sale of Mooney 6/11, p. 26
British Aerospace, Thorn end merger talks 6/18, p. 26
Plessey Co. of England buying 35% of Italian firm 6/18, p. 27
British Aerospace cancels merger talks 7/23, p. 24
Braniff seeks merger in expansion bid 8/13, p. 31
SEP modifying programs after merger 8/13, p. 81
TWA recognizes, weighs merger 8/20, p. 28
Air Florida preparing recovery plan 8/20, p. 29
Speciality metal company 9/3, p. 50
Air Florida, Midway face deadline on rescue plan 9/3, p. 68
Court to act after two delays on Air Florida recovery plan 9/24, p. 34
Comsat moves to boost near-term profit 10/1, p. 140
Air 1, McClain end proposed merger 10/15, p. 34
Mergers, bankruptcies shrink ranks of regional carriers 10/22, p. 32
CAB investigates sale of Air One to Southern Express 10/29, p. 28
Airlines challenge Midway/Air Florida ruling 10/29, p. 30
Navidyne talks with potential purchaser 10/29, p. 70
Air One files for bankruptcy, plans to resume service in 1985 11/5, p. 32
Piper develops strategic plan to pare aircraft market line 11/5, p. 76
Bendix's acquisition of King broadens market strength 11/5, p. 79
Spar acquires Comtel 11/5, p. 79
Textron, Avco to merge 12/10, p. 25

### MICROCIRCUITS
Swedes seek to penetrate U.S. market 1/9, p. 67
Defense Dept. cuts Fairchild from source list 1/30, p. 27
New microcircuits challenge silicon use 4/16, p. 179
Firms in field 4/16, p. 187
U.S. to gauge Japan computer speeds 6/4, p. 82
Company, DLA reach accord 8/13, p. 27
Microchip test problem halts weapon deliveries 9/17, p. 23
Texas Instruments chip linked to shuttle delay 9/17, p. 23
Texas Instruments reviews chip test records 10/1, p. 26
Microcircuit system goes into operation 10/22, p. 145
Navy expands standard electronic module effort 10/29, p. 69
Grumman amends warranty, resumes Navy deliveries 11/12, p. 17
Hamilton Standard pushes digital control effort 11/12, p. 219
Signetics Corp. stops shipments of suspect military circuit products 11/12, p. 25
Company develops new microcircuit packaging system 11/26, p. 85
Chip shipments halted 12/10, p. 20

### MICROELECTRONICS
Microelectronics center utilizes computer-aided design 8/27, p. 55

**MIDDLE EAST**
Saudis order French air defense system 1/23, p. 16
Oman orders radar 2/6, p. 66
U.S. transport sales in Mideast hampered by export controls 10/22, p. 111
Middle East aircraft imports from industrial countries 10/22, p. 112

**MISSILES-INTERNATIONAL**
**Belgium**
Belgium to deploy missiles 11/12, p. 27
**China**
Chinese prepare two-stage CSS-3 ICBM for National Day parade 9/24, p. 18
People's Republic of China displays intercontinental ballistic missile 10/8, p. 24
**Europe**
U.S., allies build tactical missile stores 3/12, p. 51
**France**
Aerospatiale selected as Hades missile contractor 1/2, p. 16
Saudis order French air defense system 1/23, p. 16
French evaluate SM39 submarine-launched antiship missile 1/23, p. 94
Aerospatiale tests AS15TT antiship missile 2/20, p. 28
Saudis preparing for Shahine missiles 2/20, p. 66
Sfena to start production of laser gyro 4/23, p. 174
French ready AS30L missile for service 4/30, p. 66
Aerospatiale uses robots to build missiles 5/21, p. 139
French complete initial tests of Mistral missile 8/13, p. 72
French display SM39 missile 10/29, p. 26
France updating Mirage 4A bomber for operations with ASMP missile 11/26, p. 63
France's Matra defines ship-based Samat 2 missile 11/26, p. 64
Matra advances Magic, Super 530 programs 12/3, p. 56
French launch SM39 in underwater tests 12/3, p. 65
Missile launcher studied for Naval Air Defense 12/3, p. 65
French Mirage 4P fitted with updated countermeasures weapons 12/3, p. 87
**Germany**
Dornier to test fly new missile next spring 9/24, p. 84
MBB completes test phase of Kormoran 2 antiship missile 12/3, p. 65
**Great Britain**
Navy studies helicopter use in Falklands 1/16, p. 136
British improving Rapier missile for Swiss Army 3/5, p. 55
Britain refuses Alarm missile program roles 4/9, p. 65
Sea Harrier makes ski-jump takeoff carrying missiles 4/23, p. 163
British Aerospace Sea Eagle hits destroyer in guided test 7/30, p. 22
**Italy**
Selenia flight tests airborne Aspide missile 4/9, p. 49
**Sweden**
Sweden buys helicopter antitank missile systems 12/10, p. 62
**USSR**
Soviets test new cruise missiles 1/2, p. 14
Soviets accelerate missile defense efforts 1/16, p. 14
Soviets deploy new SS-20 missile battery 1/16, p. 15
Shuttle crew photographed Soviet missile site 2/27, p. 18
Strategic forces 3/12, p. 33
USAF hones air defense capabilities 3/19, p. 85
Space sensor planned to detect cruise missiles 3/26, p. 16
Soviets use flares to counter missiles 3/26, p. 54
Soviet Union continues military buildup 4/23, p. 53
Soviets adding mobility to missile force 4/23, p. 55
Soviets reequip forward air forces 5/21, p. 65
U.S. urged to negotiate treaty based upon freedom of space 5/28, p. 118
The rhetoric gets rougher 6/11, p. 11
Administration concern grows over increasing Backfire force 7/23, p. 16
Soviet threat spurs Phoenix follow-on 7/23, p. 16
Pentagon seeks penetration aid action 9/3, p. 44
Chinese prepare two-stage CSS-3 ICBM for National Day parade 9/24, p. 18
Su-24s, Tu-16s support Soviet ground forces 10/29, p. 40
Soviet helicopters sustain damage from SAM-7 infrared missiles 10/29, p. 44
Soviet ability to fire through ice creates new SLBM basing mode 12/10, p. 16
Soviet Union is building new SS-20 launch bases 12/10, p. 23

**MISSILES-INTERNATIONAL-CONSORTIUM**
**AMRAAM**
Europeans consider AMRAAM production 7/9, p. 24
**ASRAAM**
European ASRAAM team finishes feasibility study 4/9, p. 52
**Euromissile Roland**
Economics, politics portend shifts 5/21, p. 50
U.S., Germans discussing 30 more Roland systems 8/6, p. 25
Missile basing leads to U.S.-German offsets 10/22, p. 87
**HeliTOW**
Helicopter buy 8/6, p. 66
**Rockeye 2**
Company develops Rockeye submunition 9/24, p. 63

**MISSILES-U.S.**
**AASM**
USAF nears air-to-surface missile start 2/20, p, 29
USAF reassesses SRAM replacement 9/24, p. 87
**ADATS**
Air defense antitank unit tested at Eglin 2/20, p. 71
**AGM-69A**
USAF reassesses SRAM replacement 9/24, p. 87
**AIM-7**
Defense Dept. plans missile, radar sales to Egypt 2/13, p. 27
**AMRAAM**
U.S., allies build tactical missile stores 3/12, p. 51
Europe's aerospace technology nearing U.S. levels 5/21, p. 136
Technical problems delay production of AMRAAM 7/16, p. 21
**Asat**
USAF flight tests Asat weapon 1/30, p. 19
U.S. urged to negotiate treaty based upon freedom of space 5/28, p. 118
House ties antisatellite tests to further activity by Soviets 5/28, p. 24
Vote in Senate would aid Reagan's Asat authority 6/18, p. 30
Hughes develops sensor 8/27, p. 66
Air Force tests antisatellite payload 11/19, p. 28
**ASRAAM**
France's Matra defines ship-based Samat 2 missile 11/26, p. 64
**ASW/SOW**
Test launch verifies ASW weapon performance 4/2, p. 22
**Atlas**
Air Force developing plan on expendable launchers 6/18, p. 70
Output of Atlas, Titan tied to military, private markets 6/25, p. 159
**Avenger**
Army tests Avenger air defense unit 6/18, p. 117
**Centaur**
Air Force developing plan on expendable launchers 6/18, p. 70
Output of Atlas, Titan tied to military, private markets 6/25, p. 159
Centaur upper-stage tank in assembly 7/23, p. 82
**Chaparral**
Army to modify Chaparral defense system 9/3, p. 289
Company studies updated Chaparral missile 12/3, p. 153
**Cruise**
Tomahawk launched 1/16, p. 27
Tomahawk moves toward dual-source production 2/6, p. 56
U.S. spurs strategic weapon advances 3/12, p. 23
Bomber force modernization 3/12, p. 27
USAF plans uprated cruise missile engine 3/12, p. 275
GLCM launch 4/9, p. 22
USAF proposes upgrades for ALCM 4/23, p. 161
Air Force testing BGM-109 ground-launched cruise missile 5/7, p. 79
Dutch renew debate on missile basing 5/7, p. 79
DARPA will review future cruise missile technology 5/14, p. 20
Dutch cabinet puts off decision on cruise missiles to late 1985 6/11, p. 24
B-1B bomber to carry 14 cruise missiles on fuselage pylons 6/11, p. 51
Dutch parliament approves missile delay 6/18, p. 28
BGM-109C flight 6/25, p. 19
Senate votes defense authorization 6/25, p. 23
Missile launch 7/9, p. 20
Navy developing rapid strike planning 7/16, p. 49
Cruise missile hits, destroys bunker target 8/20, p. 17
Tomahawk failure 8/27, p. 17
USAF asks B-52 upgrade to carry missiles 9/3, p. 270
British liberals call for cruise missile removal 10/1, p. 24
**Dragon**
Army plans antitank missile program 9/17, p. 27
**General**
Growth trends: U.S. missile sales 3/12, p. 31
U.S., allies build tactical missile stores 3/12, p. 51
Fairchild studies light missiles, A-10 follow-on as new efforts 9/3, p. 281
GAO criticizes missile firings criteria 10/22, p. 117
**HARM**
MBB, Panavia plan HARM, new avionics on Tornado 2/13, p. 26
Navy plans to buy more HARM missiles 2/13, p. 65
Spin forming used in missile 2/20, p. 44
MBB, Panavia study adaptation of Tornado to carry Texas Instruments HARM missiles 2/20, p. 68
Warranty issue delays HARM contracts 4/2, p. 15
**Harpoon**
Harpoon sale 3/12, p. 24
Manufacturer plans Harpoon upgrades 4/16, p. 146
Britain selects Harpoon missile to arm Navy surface warships 4/23, p. 163
USAF will buy 85 harpoons ordered by Iran 8/20, p. 16
**Hawk**
Belgium tries to reduce missile expenditures 1/16, p. 26
**Hellfire**
Army extends UH-60 buy, funds tests with Hellfire 11/12, p. 16
**HOE (Homing overlay experiment)**
BMD homing interceptor destroys reentry vehicle 6/18, p. 19
**Hydra 70**
Manufacturer boosts accuracy of Hydra 70 helicopter rocket 8/13, p. 72
**ICBM**
U.S. spurs strategic weapon advances 3/12, p. 23
Strategic force modernization 3/12, p. 25
Strategic forces 3/12, p. 33
ICBM force moernization 3/12, p. 35
Sea-based force modernization 3/12, p. 38
**Joint Antitactical Missile**
U.S. develops antitactical weapon for Europe role 4/9, p. 46
**JTACMS**
U.S., allies build tactical missile stores 3/12, p. 51
**Launchers**
Navy, Martin discuss launcher project 5/14, p. 64
**Maverick**
Hughes halts IIR Maverick line 8/13, p. 18
NATO group offered Maverick 8/20, p. 23
USAF stops hughes payments for missiles built at Tucson 8/27, p. 24
Dual-mode missile 9/3, p. 299
USAF resumes Hughes missile funding 11/26, p. 30
**Minuteman**
Minuteman silos modified for MX launches 2/20, p. 66
BMD homing interceptor destroys reentry vehicle 6/18, p. 19
Minuteman studied for airfield attack 7/9, p. 21
Mid-course ABM defense recommended 10/29, p. 23
**Minuteman 3**
Minuteman motors 1/16, p. 27
**MLRS**
NATO selects emerging technologies 4/16, p. 28
British minister supports emerging technology plan 5/21, p. 77
LTV MLRS system exhibited prior to German Army delivery 8/13, p. 69
Troops test multiple launch rocket system 12/3, p. 54
International team to build new warhead 12/10, p. 26
**Mobile-Target Ballistic Missile**
USAF studies mobile-target ballistic missile 7/23, p. 18
**MQM-107B**
Ames readies TRI60-2 turbojet for delivery 10/22, p. 77
**MX**
USAF tests MX missile on 30-min. flight 1/2, p. 15
Weld failure cited in third MX missile test flight 1/23, p. 20
Defense Dept. stresses research, readiness, upgrades 2/6, p. 14
USAF, contractors defining small ICBM 2/6, p. 54
Minuteman silos modified for MX launches 2/20, p. 66
Parallel programs advance small ICBM 3/5, p. 14
Governors ask delay in MX deployment 3/5, p. 55
U.S. spurs strategic weapon advances 3/12, p. 23
MX test flight succeeds 4/9, p. 21
Computerized X-ray to verify MX motors 4/16, p. 149
USAF will test MX Mk.21 reentry vehicle 4/23, p. 165
USAF reshapes small ICBM effort 5/14, p. 18
House votes curtailed MX production 5/21, p. 20
Air Force conducts MX ejection test 6/4, p. 26
The rhetoric gets rougher 6/11, p. 11
Senate, House diverging on MX production plan 6/11, p. 27
Senate votes defense authorization 6/25, p. 23
MX test includes 10 reentry vehicles 7/2, p. 26
First phase of MX flight tests ends successfully 7/2, p. 54
MX test series ends 7/16, p. 19
Conferees deadlocked on defense budget 8/6, p. 16
A budget morass 8/20, p. 9
Pentagon seeks penetration aid action 9/3, p. 44
House panel opposes effort to kill MX 9/24, p. 22
MX missile enters second phase of testing 10/8, p. 28
Reagan victory margin aids defense, space objectives 11/12, p. 16
**Nike**
Belgium tries to reduce missile expenditures 1/16, p. 26
**Patriot**
Belgium tries to reduce missile expenditures 1/16, p. 26
U.S., Dutch reach agreement on Patriot missile purchase 1/23, p. 29
Belgium seeks U.S. funds for Patriot fire units 2/13, p. 26
Vandals plan appeal 8/13, p. 28
Army evaluates latest Patriot test firings 10/22, p. 83
Missile basing leads to U.S.-German offsets 10/22, p. 87
**Pershing 2**
New resources strategy seeks improved weapons 5/21, p. 115
Pershing launched 5/21, p. 21
Army studies Pershing 2 failure 6/11, p. 24
Pershing test-fired 8/13, p. 19
Vandals plan appeal 8/13, p. 28
Pershing 2 launches 10/8, p. 29
**Phoenix**
Dueling with industry 7/16, p. 11
Navy will seek second source for Phoenix. 7/16, p. 20
Hughes seeks AIM-54C approval 7/23, p. 14
USAF stops hughes payments for missiles built at Tucson 8/27, p. 24
USAF resumes Hughes missile funding 11/26, p. 30
Phoenix payments resume 12/3, p. 27
Navy squadron practices missile firing against target drones 12/3, p. 85
**Polaris**
Sea-based force modernization 3/12, p. 38
**Poseidon**
Sea-based force modernization 3/12, p. 38
**Saber**
Ford Aerospace developing Saber weapon system 9/17, p. 24
**SLAT**
Teledyne, CSD develop ramjet-propelled missile 4/9, p. 46
**Small ICBM**
USAF awards initial contracts for small ICBM missile project 1/23, p. 22
USAF, contractors defining small ICBM 2/6, p. 54
Parallel programs advance small ICBM 3/5, p. 14
U.S.. spurs strategic weapon advances 3/12, p. 23
USAF reshapes small ICBM effort 5/14, p. 18
Rockwell wins ICBM guidance system award 6/4, p. 21

McDonnell Douglas develops small ICBM mockup 11/26, p. 31
Boeing shock tube tests nuclear blast overpressure 12/3, p. 63
Small ICBM design includes three booster stages 12/10, p. 57

**Small Radar-Homing Interceptor Technology Missile**
Army testing hit-to-kill, radar-guided interceptor 7/9, p. 38
Army completes first flight test of guided radar homing missile 12/10, p. 28

**SRAM**
USAF nears air-to-surface missile start 2/20, p. 29

**Stinger**
Stinger lease 4/23, p. 165
U.S. sends Stingers, deploys KC-10 to aid Saudi defenses 6/4, p. 27
State Dept. briefs Senate on Stinger security 6/11, p. 27

**Titan**
USAF Titan launch 4/23, p. 28
Output of Atlas, Titan tied to military, private markets 6/25, p. 159

**Tomahawk**
Tomahawk launched 1/16, p. 27
Tomahawk moves toward dual-source production 2/6, p. 56
Missile launch 7/9, p. 20
Navy developing rapid strike planning 7/16, p. 49
Cruise missile hits, destroys bunker target 8/20, p. 17
Tomahawk failure 8/27, p. 17

**TOW**
Texas Instruments seeks commonality 7/30, p. 64
IR scanner is sized to fit small missiles 8/6, p. 77
USAF stops Hughes payments for missiles built at Tucson 8/27, p. 24
Hughes tests updated light helicopter 9/3, p. 249
USAF resumes Hughes missile funding 11/26, p. 30
Germans select TOW-armed vehicle for airborne units 12/3, p. 56

**Trident**
Sea-based force modernization 3/12, p. 38
Trident missile launch viewed by USSR ship 12/10, p. 23

**Trident 2**
Lockheed computerizes human factors into engineering studies for Trident 2 missile 4/23, p. 161
Lockheed using computer to aid in human factors studies of Trident 2 missile 5/14, p. 65
Eastern range updating timed for Trident 2 tests 8/27, p. 60
Navy budgets Trident R&D, sets 1989 operation start 9/3, p. 297
Pentagon seeks penetration aid action 9/3, p. 44

**NAMES**
Helms resigns as chief of FAA 1/2, p. 29
Laurels for 1983 1/2, p. 9
Western management 1/16, p. 28
New Ames head 1/23, p. 24
Taft assured Senate panel's approval vote 1/30, p. 25
America West President 2/6, p. 34
Dole urges Engen for FAA 2/20, p. 34
NATO commander 3/5, p. 21
Helms files $1-billion suit against associates, firms 3/19, p. 30
Helms files under Chapter 11 of Bankruptcy Act 3/26, p. 30
Abrahamson will direct strategic defense 4/2, p. 21
Tower questions trends in Congress 4/2, p. 54
Canadian astronaut choice initiates program 4/16, p. 175
Space station manager 4/16, p. 26
Boeing executive shift 5/7, p. 26
Braniff auction 5/7, p. 28
Fairchild realigns, names top executives 5/14, p. 26
NASA names 17 astronaut candidates 5/28, p. 29
Sir Stanley Hooker dies 5/28, p. 29
Crew of L-1011 accident 7/23, p. 163
George M. Low, Apollo manager, dies 7/23, p. 22
Sir Robert Hupt wins Curtis Memorial Sword 7/23, p. 25
Restraining order 7/30, p. 32
New Regent Air Chairman 7/30, p. 34

NASA invites Garn to fly on space shuttle 11/12, p. 22
Chairman of Rolls-Royce dies 11/12, p. 26
Hawker Siddeley chairman named to Rolls-Royce post 11/19, p. 26
President of World Airways resigns 11/19, p. 34
Britain names board to oversee broadcasting 12/3, p. 76

**NAVIGATION AND GUIDANCE**
Fleet expansion presses infrastructure 1/16, p. 168
Boeing delivers B-1B avionics shipsets 1/23, p. 117
Navstar operational tests encounter program delay 2/13, p. 133
USAF retains plans to use Star 48 motors on Navstar 2/20, p. 26
Litton accedes to Navy parts, data request 2/27, p. 28
Manufacturer plans Harpoon upgrades 4/16, p. 146
Bendix expands cockpit instrument product line 4/16, p. 167
Collins introducing digital general aviation autopilot 4/16, p. 169
Adaptive guidance steepened shuttle ascent 4/30, p. 17
Gull develops updated flight inspection unit 5/28, p. 159
Sfena, AEG-Telefunken propose PAH-2 controls 5/28, p. 20
Industry, defense officials oppose Navstar user fees 6/4, p. 47
USAF proceeding with ninth Navstar launch 6/11, p. 20
New Loran-C navigation system stores 40 waypoints 6/11, p. 74
C-130 Navaid plan stirs controversy 6/18, p. 21
Ninth Navstar launched from Vandenberg 6/18, p. 31
USAF studies Talon Gold laser tracker design 6/25, p. 20
Rockwell begins Block 2 Navstar tests 7/30, p. 16
U.S. will volunteer GPS services without charge 7/30, p. 30
Texas Instruments seeks commonality 7/30, p. 64
Witnesses urge area navigation to solve congestion at airports 8/6, p. 41
Semiconductor technology improves navigation radar in B-52s 8/13, p. 61
B-1B test pace quickens; second B-1A joins effort 8/20,
Navstar GPS receiver installed in F-16 8/20, p. 47
Eastern range updating timed for Trident 2 tests 8/27, p. 60
Marines delay air operations system 9/10, p. 115
French, U.S. companies team on A320 Gyro bid 9/10, p. 35
Rockwell testing Navstar qualification model 9/24, p. 73
Navaid contract 10/1, p. 30
Industry expanding cockpit integration 10/1, p. 65
Navstar demonstration 10/1, p. 72
French Laser Gyro selected for Ariane 4 10/15, p. 24
Owners retrofitting integrated navaids 10/15, p. 95
Lasernav 2 designed for business aircraft 10/15, p. 98
Norwegian F-16 intercepts 707 transport near Soviet airspace 10/22, p. 34
French to choose GPS supplier 10/29, p. 21
Nova navigation satellite to guide Navy ships 10/29, p. 64
Navidyne talks with potential purchaser 10/29, p. 70
Piedmond 727 will test threat alert/collision avoidance device 11/12, p. 194
FAA gets go-ahead on Naviad inspection aircraft buy 11/12, p. 21
British Aerospace pushing ring laser gyro effort 11/19, p. 91
Dalmo Victor signs to build T/CAS-2 systems 12/3, p. 32

**NETHERLANDS**
U.S., Dutch reach agreement on Patriot missile purchase 1/23, p. 29
Fokker loan guarantees 3/19, p. 30
KLM studies options for DC-9-30 replacement 3/26, p. 33
Dutch renew debate on missile basing 5/7, p. 79
Dutch cabinet puts off decision on cruise missiles to late 1985 6/11, p. 24
Dutch parliament approves missile delay 6/18, p. 28
New wind tunnel yields precise data 6/25, p. 215
British carriers confused by Dutch bilateral 6/25, p. 29
British, Dutch aim at deregulation 6/25, p. 29
SAS begins AP-188 hovercraft service 8/6, p. 36
Land communications 8/27, p. 77
Dutch to participate in EFA program 9/10, p. 28
Dutch propose 9% budget rise in 1985 for country's air force 10/8, p. 24

**NEW ZEALAND**
New Zealand updates P-3B electronics 1/9, p. 75
New Zealand uses UH-1Hs in exercises 6/18, p. 115
Fleet expansion 8/6, p. 27

**NIGERIA**
Westland delivers helicopters to Nigerian Navy 6/4, p. 18

**NOISE CONTROL**
U.S., Santa Monica settle noise dispute 3/12, p. 192
Europe ties sales to economic recovery 3/12, p. 197
Municipal, airport groups ask noise-linked production ban 4/16, p. 32
FAA denies 11 noise rule exemptions 6/11, p. 33
Noise rules to affect Miami commerce 7/2, p. 35
FAA noise rules benefiting nacelle design companies 7/23, p. 39
Modified 707 finishes acoustic flight tests 8/6, p. 32
America West expansion 8/27, p. 36
Racal will make voice system, fighter controls 9/24, p. 93
Aeromexico adds to route growth 10/1, p. 31
State Dept. bucks FAA noise rule rigidity 10/1, p. 32
Corporate flights outpace sales of new aircraft 10/1, p. 38
McDonnell Douglas building AV-8B hush house 10/22, p. 147
Orders received for 707 noise-reduction kits 10/22, p. 45
707 test-flies Tracor/Shannon hush kit 10/29, p. 29
Florida group presses for exemption from noise rules 11/12, p. 157
Air freight carriers undergoing period of transition 11/12, p. 62
Icelandair wins noise exemption based on order for hush kits 12/3, p. 36
Noise exemption 12/10, p. 32

**NORTH ATLANTIC TREATY ORGANIZATION**
Costs by percent of gross national product 1/9, p. 54
NATO country defense expenditures 1/9, p. 54
Germans force NATO general to retire 1/16, p. 22
Belgium tries to reduce missile expenditures 1/16, p. 26
Spain to modernize aerospace industry 1/23, p. 93
Germans investigate dismissal of general 1/30, p. 26
NATO cites Soviet military funding slowdown 2/13, p. 140
Belgium seeks U.S. funds for Patriot units 2/13, p. 26
U.S. will assist Turkey in improving air defense 2/20, p. 68
Britain caps defense fund rise 2/27, p. 21
End sought to German missile range limits 2/27, p. 27
NATO commander 3/5, p. 21
NATO continues to progress on weapons standardization 3/5, p. 60
Tactical funding emphasizes readiness 3/12, p. 43
NATO to debate nonnuclear defense 3/12, p. 57
Europe promotes conventional forces 3/12, p. 74
NATO debates electronic warfare spending levels 4/2, p. 62
European ASRAAM team finishes feasibility study 4/9, p. 52
NATO selects emerging technologies 4/16, p. 26
NATO awards contract 4/23, p. 178
Change sought in joint weapon rules 4/30, p. 23
Dutch renew debate on missile basing 5/7, p. 79
MBB presses laser, sensor research 5/21, p. 103
NATO works to ease tensions with Soviets 5/21, p. 105
Boost sought in research and development 5/21, p. 108
New resources strategy seeks improved weapons 5/21, p. 115
Germans, French tighten security ties 5/21, p. 124
NATO's newest crisis 5/21, p. 13
Europe's aerospace technology nearing U.S. levels 5/21, p. 136
France focusing efforts on experimental fighter 5/21, p. 139
French politicians united in backing Western allies 5/21, p. 145
Warsaw Pact increases arms delivery 5/21, p. 147
NATO ratifies selection of emerging technologies 5/21, p. 26
Economics, politics portend shifts 5/21, p. 50
Allied command defends vast area 5/21, p. 57
Soviets reequip forward air forces 5/21, p. 65
British minister supports emerging technology plan 5/21, p. 77
Communications hamper joint efforts 5/21, p. 91
Choice of common frequency emerges as major IFF issue 5/21, p. 98
Europe's new independence 6/4, p. 11
Europeans seek NATO research agency 6/4, p. 16
AWACS, amphibian on display at Hanover air show 6/4, p. 17
The rhetoric gets rougher 6/11, p. 11
Dutch cabinet puts off decision on cruise missiles to late 1985 6/11, p. 24
Senate rejects NATO troop reduction 6/25, p. 26
U.S. plan will boost NATO air defense 7/9, p. 21
NATO seeking more sensors on E-3A force 7/9, p. 23
Changing allegiances and NATO 7/30, p. 11
Dassault-Breguet designs future combat aircraft 7/30, p. 18
U.S. allies urged to participate in antiballistic missile system 8/13, p. 169
Europeans vie for maintenance awards 8/13, p. 21
New contract to complete NATO air command study 8/20, p. 20
NATO group offered Maverick 8/20, p. 23
Congress reduces military construction $165 million 8/20, p. 24
U.S. takes arms cooperation initiative 9/3, p. 141
Roland deployment to Norway pressed 9/3, p. 289
NATO airspace contract 9/17, p. 26
British liberals call for cruise missile removal 10/1, p. 24
AWACS bases will be operational in 1985 10/8, p. 24
U.S., NATO agree in principle on IFF frequencies approach 10/8, p. 27
Congress backs communication exchange 10/15, p. 26
Congress orders NATO improvement plan 10/15, p. 26
North Atlantic assembly seeks coordinated R&D efforts 11/26, p. 27
Troops test multiple launch rocket system 12/3, p. 54
NATO ministers agree to increase infrastructure budget 12/10, p. 22
U.S. seeks transatlantic weapons proposals 12/10, p. 22
U.S., NATO defense sales trade balance 12/10, p. 69

**NORTHERN IRELAND**
Short Brothers to design, build Fokker 100 wing 3/26, p. 29
Lear Fan lays off almost all workers at its Belfast plant 6/4, p. 25

**NORWAY**
Norwegians photograph Soviet Oscar-class submarine 6/4, p. 75
Roland deployment to Norway pressed 9/3, p. 289

**NUCLEAR WEAPONS**
Soviets accelerate missile defense efforts 1/16, p. 14

Weld failure cited in third MX missile test flight 1/23, p. 20
U.S. realigns program on ballistic missile defense 1/23, p. 22
USAF awards initial contracts for small ICBM missile project 1/23, p. 22
B-1B cockpit to be fitted with nuclear flash shield 2/27, p. 56
U.S. spurs strategic weapon advances 3/12, p. 23
Strategic forces 3/12, p. 33
ICBM force modernization 3/12, p. 35
Strategic forces 3/12, p. 41
Dutch renew debate on missile basing 5/7, p. 79
Germans, French tighten security ties 5/21, p. 124
Non-nuclear bomber forces 5/28, p. 11
BMD homing interceptor destroys reentry vehicle 6/18, p. 19
Dutch parliament approves missile delay 6/18, p. 28
USAF, Navy seek to cut strategic nuclear funding 7/9, p. 20
Administration concern grows over increasing Backfire force 7/23, p. 16
Soviet threat spurs Phoenix follow-on 7/23, p. 16
Super Pumas will support French nuclear test sites in Pacific 8/13, p. 81
B-1A drops B83 weapon 9/10, p. 118
Study raises doubt on EMP protection 9/17, p. 76
Shuttle photographs nuclear accident site 10/15, p. 16
French propose defense budget of $15.8 billion for next year 10/22, p. 29
French government defines nuclear aircraft carrier 11/26, p. 61
Mirage 2000N can be adapted to carry nuclear weapons 12/3, p. 137

**OMAN**
Oman orders radar 2/6, p. 66

**ORDERS, PURCHASES, DELIVERIES**
Rolls-Royce delivers first RB.211-535E4 to Boeing 1/2, p. 53
Fairchild buys half of SatServ 1/2, p. 54
1983 Boeing orders 1/9, p. 31
General aviation predicts sales rebound 1/16, p. 25
Boeing delivers B-1B avionics shipsets 1/23, p. 117
Saudis order French air defense system 1/23, p. 16
Marine Corps receives first of 12 preproduction AV-8B fighter aircraft 1/23, p. 19
U.S., Dutch reach agreement on Patriot missile purchase 1/23, p. 29
CASA assembling 32 BO.105 helicopters 1/23, p. 93
Canadair, dealer resolve dispute over performance 1/30, p. 49
Gulfstream gains 1/30, p. 49
Evergreen orders MBB/Kawasaki helicopters 2/6, p. 46
Capitol Helicopter to start operations 2/6, p. 49
Oman orders radar 2/6, p. 66
Simulator delivered 2/13, p. 41
Navy plans to buy more HARM missiles 2/13, p. 65
Super King Air 300 deliveries set for April 2/27, p. 79
Harpoon sale 3/12, p. 24
Slump in orders may slow French aerospace upturn 3/12, p. 87
Finland buys Drakens 4/2, p. 17
Decision nears on FAA buy of flight inspection aircraft 4/2, p. 36
Royal transport 4/16, p. 33
Dassault expecting production approval of ATL2 patrol aircraft 4/16, p. 63
Fokker readies F-27 armed maritime aircraft 4/23, p. 65
McDonnell Douglas connects fuselage section of first Australian F/A-18 4/30, p. 15
Northrop delivers third F-20 to Edwards facility for flight testing 4/30, p. 16
Fuel tank order 4/30, p. 44
Cessna increases reliance on turbine powered line 5/7, p. 100
Grumman delivers first EA-6B Prowler with improved radar jammer to Navy 5/7, p. 15
Boeing expanding workforce based on transport order gain 5/7, p. 26
Mitsubishi plans 1985 Diamond 2 delivery 5/14, p. 58
Study finds third world arms buys drop in 1983 5/28, p. 143
World's military spending gaining at 3.1% annually 5/28, p. 145
Hawk simulators 5/28, p. 147
Defense Dept. plans tight recoupment charge rules 6/4, p. 18
Military seeks lift of multiyear curbs 6/4, p. 79
Japan orders S-70B 6/4, p. 80
China, U.S. set further arms buy talks 6/11, p. 22
Quantity cited as spares cost factor 6/11, p. 25
Republic Steel negotiates sale of Mooney 6/11, p. 26
USAF plans buy of cargo transports 6/18, p. 23
Cessna reorganizes divisions, stretches shutdown of plant 6/18, p. 28
Marconi Avionics begins wide-angle HUD deliveries for F-16 6/18, p. 96
Brazil's air force purchases linked to Embraer packs 6/25, p. 204
Dassault delivers Mirage 2000 systems trainer 6/25, p. 223
AirCal to purchase Boeing 737-300s 6/25, p. 32
Used market dominates sales of aircraft 7/16, p. 16
Super Puma purchase 7/23, p. 18
R22 helicopter sales 7/23, p. 19
Earth station bid 7/23, p. 20
Long-range AS 332s 7/23, p. 22
European airlines report 1983 profits 7/30, p. 29
Comair advances delivery of Saab-Fairchild 340s 7/30, p. 34
Salvaging a reputation 8/6, p. 11
Navy stops F-18 deliveries pending tail fix solutions 8/6, p. 19
U.S., Germans discussing 30 more Roland systems 8/6, p. 25
Extended sales lag slows general aviation projects 8/6, p. 66
SatServ purchased 8/13, p. 161
Boeing upgrading radome technology 8/13, p. 183
China will purchase Sikorsky S-70Cs 8/13, p. 28
Greece affirms Mirage 2000 purchase 8/13, p. 29
United Parcel acquires 13 more aircraft 8/13, p. 32
LTV MLRS system exhibited prior to German Army delivery 8/13, p. 69
USAF will buy 85 harpoons ordered by Iran 8/20, p. 16
Short Brothers preparing C-23A Sherpa for delivery to USAFE 8/20, p. 57
French order tactical support weapons 8/20, p. 58
Schweizer builds, delivers Hughes Model 300C following licensing agreement 8/20, p. 78
German Defense Ministry buys seven Canadair Challengers 8/27, p. 20
Boeing rolls out 100th 767, 600th 747 9/3, p. 121
Short Brothers will provide logistics, maintenance support for C-23A 9/3, p. 209
Germans will not block tornado sale to Saudis 9/3, p. 216
First production aircraft joins flight test program of Caravan 1 utility aircraft 9/3, p. 287
Rolls-Royce Tay exceeds rated thrust on first test series 9/3, p. 81
Congress directs USAF to buy 707s for spares 9/10, p. 132
Hughes sells first direct broadcast satellites 9/10, p. 151
Dutch to participate in EFA program 9/10, p. 28
France drops Fokker from consortium 9/10, p. 36
Airbus records 24 firm 1984 orders 9/10, p. 49
Boeing sales drop in second quarter 9/10, p. 82
ATR42 tests confirming design goals 9/10, p. 87
British L-1011 buy 9/10, p. 90
Portuguese A-7Ps 9/17, p. 22
Pan Am agrees to acquire 28 Airbus Industrie aircraft 9/17, p. 30
Army will increase AH-64 purchase by 160 9/17, p. 71
Helicopter makers finish offset proposals for Belgian purchase 9/24, p. 23
Gates Learjet halts civil production line 9/24, p. 26
Manufacturer displays Edgley Optica aircraft 9/24, p. 79
Dornier will deliver DO 228 transport to Air Botswana 9/24, p. 85
Helicopter sales continue flat in 1984 10/1, p. 107
Beech Aircraft begins deliveries of its Super King Air 300 10/1, p. 125
Falcon 900 business jet makes first flight 10/1, p. 20
Corporate flights outpace sales of new aircraft 10/1, p. 38
Rising value of U.S. dollar hinders Europe operations 10/1, p. 59
Gulfstream 3s meet military requirement 10/1, p. 63
Weaker exports laid to strong dollar 10/1, p. 90
German order boosts Challenger CL-601 sales 10/1, p. 94
Gates Learjet Piaggio GP-180 first flight scheduled for 1985 10/1, p. 95
Where's the turnaround 10/8, p. 11
Argentines roll out new IA.63 jet trainer 10/8, p. 28
Togo to buy Epsilon trainer 10/15, p. 21
XF-3-30 turbofan delivered to Kawasaki 10/15, p. 22
Hughes resumes deliveries of two radars 10/15, p. 26
McDonnell Douglas will resume F-18 deliveries to U.S. Navy, Canada 10/15, p. 29
Canadian certificate issued for DHC-8 10/15, p. 34
Sikorsky S-76 used for variety of operations 10/15, p. 91
British RAF refuses Nimrod AEW delivery 10/15, p. 98
Howmet uses advanced grinder 10/22, p. 140
Japan's Itoh plans Hughes Satcom buy 10/22, p. 30
Orders received for 707 noise-reduction kits 10/22, p. 45
Ames readies TRI60-2 turbojet for delivery 10/22, p. 77
Army evaluates latest Patriot test firings 10/22, p. 83
Congress orders service report on common aggressor aircraft 10/29, p. 19
Investors seek Commander line rights 10/29, p. 25
India prepares for first Mirage 2000 deliveries 10/29, p. 62
Australia takes first F/A-18 delivery 11/5, p. 18
Defense funds rise in Australian planning 11/5, p. 19
F-16C fixes key to 1985 deliveries 11/5, p. 22
Europeans hone U.S. sales strategy 11/5, p. 42
Bendix records carbon brake order 11/5, p. 44
Facility for F-16 coproduction work is built in Turkey 11/12, p. 18
Second French/Italian ATR42 enters flight test program 11/12, p. 20
FAA gets go-ahead on Naviad inspection aircraft buy 11/12, p. 21
First two sherpa transports arrive at USAFE base 11/12, p. 25
Airbus will accelerate A300, A310 production 11/12, p. 30
Boeing nears completion of Nippon Cargo 747F Freighter 11/12, p. 31
British view antitrust, trade laws in U.S. as key to fare agreements 11/12, p. 81
Mitsubishi Diamond 2 scheduled for certification in 1985 11/19, p. 24
British form airborne early warning helicopter squadron 11/19, p. 26
Coast Guard receives first HH-65 this week 11/19, p. 26
France will acquire E-3A aircraft powered by CFM56 11/19, p. 27
Greek fighter competition won by Mirage 2000, F-16 11/19, p. 28
Skytrader constructing new plant for manufacturing ST1700 11/19, p. 89
Dornier ships instrument pointing system to space center after delays 12/3, p. 124
Singapore buys test unit 12/3, p. 161
British Navy orders Marconi satellite terminals 12/3, p. 165
British using West German gliders in training program 12/3, p. 167
Navy plans to buy 15 Boeing E-6AS for strategic communications mission 12/3, p. 22
Fokker 100 simulators 12/3, p. 53
Matra advances Magic, Super 530 programs 12/3, p. 56
MBB completes test phase of Kormoran 2 antiship missile 12/3, p. 65
Grumman delivers remanufactured KA-6D tanker to Navy 12/3, p. 78
McDonnell Douglas deliveries camouflaged KC-10 aircraft 12/3, p. 89
A320 long-lead items enter production 12/10, p. 41
GAMA expects sharp delivery drop 12/10, p. 71
Analysts predict sound, long-term future for General Aviation market 12/10, p. 74
Inmarsat to postpone use of position indicators 12/10, p. 83

**PAKISTAN**
Pakistan orders 737-300s 3/19, p. 32
Exim Pakistan Loan 8/6, p. 18

**PARACHUTES**
NASA concerned about booster dynamics 9/10, p. 99

**PAYLOAD**
Payload specialists 1/16, p. 16
RCA develops upper stage for shuttle 5/21, p. 167
ESA expands center for large payload satellites 5/28, p. 116
Astrotech sees military uses for stage 6/25, p. 158
Cargo bay of discovery being reconfigured 7/23, p. 20
Triple-satellite payload assembly completed at Kennedy 8/6, p. 17
NASA considering 1986 Sunlab scientific mission 8/6, p. 59
Dornier takes loss on shuttle IPS unit 8/13, p. 155
Discovery rigged for quick payload change 8/13, p. 24
Companies to study space platform payload mix 8/20, p. 65
Insurers express worry amid final launch plans 8/27, p. 17
Shuttle payload creates space sculpture 10/15, p. 21
USAF studies modified aircraft to ship large shuttle payloads 10/15, p. 39
Offices share payload duties 10/29, p. 22
Nozzle exit cones cited in PAM failure 10/29, p. 27
Tile problems delay Mission 51-C six weeks 11/12, p. 22
ESA will select substitute payload for 1986 flight 11/19, p. 20
NASA managers want to cancel Spacelab flight to cover delays 11/26, p. 26
France's Matra plans low-cost communications launch payload 11/26, p. 77

**PEACE MOVEMENT**
Vandals plan appeal 8/13, p. 28
Protestors smash computer at Sperry plant 8/27, p. 24
British liberals call for cruise missile removal 10/1, p. 24

**PERU**
Updated Mirage 5s enter Peruvian service 1/16, p. 21
Direct U.S.-Peru air service halts 5/28, p. 32

**PILOT REPORTS**
Control changes improve Fairchild 300 2/13, p. 49
Skyfox updates T-33 trainer effectively 3/5, p. 39
Sensor system adds to A-6E reliability 4/16, p. 59
DHC-8 meets goal for performance 4/23, p. 137
Brasilia readied for the commuter market 5/28, p. 43
Bk.117 displays engine-out margins 6/4, p. 55
SF-340 offers payload-range versatility 6/11, p. 61
737-300 shows added performance, workload cut 11/12, p. 205
1900's speed, range, payload enhance scheduling flexibility 11/26, p. 48

**PILOTS**
Training key to wind shear effects 1/2, p. 62
Pilot training 1/23, p. 112
Pact could limit Frontier Horizon fleet 1/30, p. 37
Pilots accept pay cut 2/6, p. 32
FAA draft boosts commonality in rules covering pilots' time 2/13, p. 34
Carriers expanding work forces 2/20, p. 32
Research aims at reducing pilot stress 2/20, p. 75
USAF extends study of fighter voice control 2/20, p. 82
Advisory committee supports FAA draft for pilot time rules 3/12, p. 194
France paces Europe's business flying 3/12, p. 264
SAS forming regional airline division 4/2, p. 28
Republic pilots approve labor contract 4/2, p. 36
IFALPA presses Greece, Libya on hijack policy 4/9, p. 30
House panel sets hearing on ALPA safety charges 4/23, p. 34
Pilots to be sentenced 4/30, p. 27
KSC airspace violations raise concern 4/30, p. 51
Pilots obtain weather data by computer 4/30, p. 78
FAA probes harassment of Continental 5/7, p. 30
Continental sues Air Line Pilots Assn. 5/7, p. 31
NTSB urges final rule on pilots' alcohol level 5/14, p. 30
Pilot pay freeze 5/14, p. 42
Saudis seek technical self-sufficiency 5/14, p. 68
Pilots sentenced in bomb case 5/21, p. 34
Saudia pilots earn A300-600 ratings 5/28, p. 42
ALPA, Continental dispute shifts to hearing in House 6/18, p. 33

Stricter controls sought on ultralights 6/25, p. 233
Transamerica, ALPA discuss low-cost charter 6/25, p. 30
Court backs Continental contract rejection 6/25, p. 36
Contract dispute 7/2, p. 32
Caution issued to Olympic Games area pilots 7/2, p. 61
Union launches program to organize controllers 7/9, p. 30
Crew of L-1011 accident 7/23, p. 163
Careers in the cockpit 7/23, p. 9
Western's unions propose further pay cuts 7/30, p. 30
Eastern pilot class 8/27, p. 29
Midair collision 9/3, p. 68
Comair sets wages for Saab 340 pilots 9/10, p. 89
Western pilots' union approves pay cuts 9/17, p. 39
Cockpit crew curriculums emphasize human factors 10/1, p. 99
Cessna opening pilot schools in Britain to increase licenses 10/15, p. 88
Production B-1B makes first flight 10/22, p. 31
Provincetown-Boston Airline seeks FAA recertification 11/19, p. 31
AMX attack aircraft 11/26, p. 23
Pilot technique cited in DC-8 incident at Stansted 12/3, p. 167
Second multinational AMX prototype makes its first flight 12/3, p. 28
ALPA board shifts policy powers to headquarters 12/3, p. 32
American, United contract for pilot hiring aid 12/3, p. 33

**PORTUGAL**
Portuguese A-7Ps 9/17, p. 22

**POWERPLANTS**
**Allison Model 250-B17D**
Valmet develops turbine-engine L-80TP trainer 10/22, p. 81
**Allison Model 250-C30**
Sikorsky testing S-76 Mk. 2 with Pratt & Whitney PT6B-36s 3/5, p. 51
**Avco Lycoming ALF502L**
Engine incidents may spur Challenger retrofit plans 3/5, p. 23
**Avco Lycoming LTP101**
Lycoming faces decision on new engine technology 8/27, p. 42
**Avco Lycoming LTS101**
Lycoming faces decision on new engine technology 8/27, p. 42
**Avco Lycoming PLT 34**
Engine teams organizing for LHX helicopter project 8/20, p. 21
Factory updates aid Avco production 9/17, p. 74
**Avco Lycoming PLT34A**
Army, NASA lead testing of turboshaft components 1/16, p. 117
**CFM International CFM56**
Boeing installing CFM56 engines on KC-135R tankers 1/23, p. 89
French develop CFM56 thrust reversers 2/6, p. 43
Air Canada wins DC-8 reengining contract 3/5, p. 33
Cammacorp flight testing digital cockpit on reengined DC-8 4/30, p. 29
A320's CFM56 engine will use four-door reverser 9/24, p. 75
Improved CFM56 will power A320 11/12, p. 42
**CFM International CFM56-3**
Boeing installs CFM56-3 engines on second 737-300 2/13, p. 39
**CFM International CFM56-4**
European companies team for CFM56-4 reverser bid 1/9, p. 32
Partners advance V2500 certification date 2/13, p. 34
GE, Snecma weigh CFM56 follow-on to match V2500 5/28, p. 20
**CFM International CFM56-5**
Powerplant upgrade 9/3, p. 62
**Detroit Diesel Allison GMA 500**
Army, NASA lead testing of turboshaft components 1/16, p. 117
**Garrett**
Diesel engine contract 11/26, p. 27
**Garrett TFE731**
Engine retrofits of Jetstar, Jet Commander offer fuel savings 9/10, p. 59
**Garrett TFE731-3**
California firms start engine retrofit venture 4/9, p. 24
**Garrett TFE731-3B-100G**
Israel Aircraft Industries' Astra business aircraft makes its first flight 4/2, p. 16
**Garrett TFE731-5A**
Dassault books U.S.Falcon 900 orders 6/4, p. 67
**Garrett TPE331**
FAA MU-2 review finds type approval compliance 10/29, p. 49
**General**
Army, NASA lead testing of turboshaft components 1/16, p. 117
GE, Rolls sign engine risk, profit sharing agreement 2/13, p. 29
Rolls anticipates larger share of U.S. military engine market 2/13, p. 30
Engineers study low propulsion ascent 4/16, p. 27
Lockheed developing cross-ducting propulsion system 5/7, p. 21
Aeronautical Systems Div. awards ramjet engine test contract 5/14, p. 19
Saudia using new engine test facility 5/21, p. 155
Large engine design costs dictate consortium efforts 6/18, p. 108
Engine makers use derivatives to build in reliability, cut costs 6/18, p. 112
General Electric uses computer-controlled lasers in engine production 6/25, p. 222
Airlines study turbine blade HIP processing 7/2, p. 30
LHX engine testing 7/9, p. 64
FAA noise rules benefiting nacelle design companies 7/23, p. 39
Automated plasma sprayers being developed 8/13, p. 53
Propfan efficiency tested at United Technologies' facility 8/13, p. 88
Engine teams organizing for LHX helicopter project 8/20, p. 21
757 engine controls survive lightning strike 8/20, p. 22
New fighter engine planned 8/27, p. 23
E-Systems Group pushes engine overhaul at Taiwanese facility 9/10, p. 131
New technologies adapted to engines 10/1, p. 49
Blanket of ceramics adapted by Boeing to composite cowl 10/15, p. 67
Engine makers stress product support in maintenance programs 11/12, p. 125
Justice Dept. would remove obstacles to joint ventures 12/3, p. 149
**General Electric**
T700 Engine work 7/30, p. 21
Swiss ground SF-340 aircraft after Crossair engine incidents 9/10, p. 36
USAF audit discovers General Electric problems 10/22, p. 27
**General Electric CF6**
French plant delivers GE/Snecma parts 5/7, p. 91
Hydraulic pump eases DC-10 engine work 11/5, p. 89
**General Electric CF6-80**
Pratt, Rolls match shutdown rates 9/10, p. 82
**General Electric CF6-80C2**
GE, Rolls sign engine risk, profit sharing agreement 2/13, p. 29
Engine manufacturers testing new turbofans 5/7, p. 29
New CF6 version installed on A300B2 testbed 7/30, p. 31
Airbus A300B2 testbed is fitted with General Electric CF6-80C2 engine 9/3, p. 215
**General Electric CF34**
California firms start engine retrofit venture 4/9, p. 24
Engine retrofits of Jetstar, Jet Commander offer fuel savings 9/10, p. 59
**General Electric CF650**
Engine cowling falls off United DC-10-30 11/12, p. 133
**General Electric CT7**
Saab-Fairchild 340 commuter demonstrates capabilities at Farnborough 9/24, p. 63
FAA approves fix for CT7 engine 10/1, p. 34
GE modifying CT7 second stage following operational failure 11/12, p. 32
**General Electric F100-GE-100**
General Electric tests F110 fighter engine 4/23, p. 64
Engine contract 5/7, p. 24
**General Electric F101-GE-102**
B-1 engine award 7/30, p. 23
B-1B sustains engine damage on first flight 10/29, p. 16
B-1B program on time despite component shortage, engine problems 12/10, p. 18
Multiyear engine procurement will save B-1B program funds 12/10, p. 20
**General Electric F110-GE-100**
Navy switches F-14D to F110 engine 2/13, p. 24
Navy studies retrofitting F-14 with F110 engines 7/16, p. 26
F110 disk crack traced to coating 8/6, p. 18
Air Force seeks F100 warranty price cut 10/22, p. 27
Fighter engine award 12/10, p. 27
**General Electric F404**
F404 engine may include composite material duct 9/17, p. 69
**General Electric F404-GE-RM12**
General Electric F404-GE-RM12 completes initial performance evaluations 7/16, p. 64
**General Electric F404-GE-400**
Navy issues bulletin on F404 afterburner 6/25, p. 25
Navy stops accepting F404 engines 9/10, p. 43
Pratt named GE F404 second source 10/1, p. 20
**General Electric GE27**
Army, NASA lead testing of turboshaft components 1/16, p. 117
**General Electric MTD/GE27**
New General Electric turboshaft engine completes test series 11/19, p. 29
**General Electric/Snecma CFM56**
French plant delivers GE/Snecma parts 5/7, p. 91
**General Electric TF34**
RSRA flies in fixed-wing configuration 5/14, p. 23
**General Electric TF39-1C**
General Electric TF39-1C undergoes testing 12/10, p. 20
**General Electric T700-GE-401**
T700 will power role adaptable weapon system 11/5, p. 19
**General Electric Unducted Fan**
GE developing unducted fan for 1990s transports 4/9, p. 74
**General Electric unducted fan**
Propfan concepts gain in development 9/17, p. 54
Airframe makers plan for new propfan engine 9/17, p. 60
**General Electric 700-GE-701**
Hughes accelerating AH-64 production 6/25, p. 202
**International Aero Engines V2500**
V2500 program 1/16, p. 24
Partners advance V2500 ceritifcation date 2/13, p. 34
Rolls signs V2500 export plan 3/19, p. 32
IAE sets V2500 design specifications 5/7, p. 84
Airbus to offer V2500 option on A320 5/21, p. 33
British funding 5/21, p. 33
IAE board approves V2500 engine schedule 5/21, p. 33
GE, Snecma weigh CFM56 follow-on to match V2500 5/28, p. 20
**Ishikawa-jima-Harima XF-3-30**
XF-3-30 turbofan delivered to Kawasaki 10/15, p. 22
**Larzac 04 C20**
Larzac certified 7/9, p. 55
**Lycoming 0360A**
Folding-wing aircraft designed in Britain 9/10, p. 134
**Motoren- und Turbinen-Union and Turbomeca MTM 385**
Joint company formed 10/8, p. 17
**Pratt & Whitney**
Engine manufacturers testing new turbofans 5/7, p. 29
Pratt & Whitney expands small engines 5/14, p. 56
PW4000 engine completes test series 5/21, p. 48
Initial 757 sent to Delta with PW2037 engines 11/5, p. 29
**Pratt & Whitney F100**
Pratt nears completion of F100 inspections 1/16, p. 19
Air Force seeks voluntary refund on F100 part 3/26, p. 27
F100 sales drop affects Bendix controls 11/19, p. 28
**Pratt & Whitney F100-PW-200**
Pratt & Whitney proposes new F100 version to power F-15E 5/7, p. 21
**Pratt & Whitney F100-PW-220**
Engine contract 5/7, p. 24
Air Force seeks F100 warranty price cut 10/22, p. 27
**Pratt & Whitney JT3D**
Treated nacelle will lessen DC-8 noise 4/23, p. 40
Congress directs USAF to buy 707s for spares 9/10, p. 132
**Pratt & Whitney JT8D**
America West expansion 8/27, p. 36
Pratt & Whitney will remanufacture JT8Ds 9/10, p. 54
Pratt & Whitney studies more remanufacturing 11/12, p. 129
**Pratt & Whitney JT8D-200**
Pratt & Whitney names JT8D-200 partners 6/18, p. 43
**Pratt & Whitney JT9D**
Saudia powers A300-600s with highest-thrust JT9D 5/14, p. 51
Hydraulic pump eases DC-10 engine work 11/5, p. 89
Pratt & Whitney studies more remanufacturing 11/12, p. 129
**Pratt & Whitney JT9D-7R4**
Pratt, Rolls match shutdown rates 9/10, p. 82
**Pratt & Whitney JT12**
Engine retrofits of Jetstar, Jet Commander offer fuel savings 9/10, p. 59
**Pratt & Whitney of Canada**
Higher thrust engines equip GP-180 4/2, p. 48
Starship 1 tests prompt few changes 4/9, p. 80
ATR42 partners analyzing cost of stretched version 4/23, p. 65
Pratt & Whitney expands small engines 5/14, p. 56
**Pratt & Whitney of Canada PT6A**
Neiva building Chieftan turboprop conversion 3/5, p. 23
**Pratt & Whitney of Canada PT6B**
PT6-powered S-76 helicopter to begin tests 2/13, p. 41
Sikorsky testing S-76 Mk.2 with Pratt & Whitney PT6B-36s 3/5, p. 51
Lear Fan 2100 certification remains on schedule 9/3, p. 50
**Pratt & Whitney of Canada PT6B-36**
Sikorsky flight testing its S-76 Mk.2 with PT6B-36 turboshafts 7/23, p. 17
**Pratt & Whitney PW120**
Engine tests start on ATR42 transport 7/9, p. 37
**Pratt & Whitney PW124**
Hamilton Standard tests six-blade propeller 8/20, p. 74
**Pratt & Whitney PW1120**
Chem-tronics producing ducts for PW1120 engines 12/3, p. 100
**Pratt & Whitney PW2037**
FAA certificates Pratt & Whitney PW2037 engine 1/2, p. 27
Boeing 757 transport tested with Pratt & Whitney PW2037 powerplants 3/19, p. 28
Boeing testing PW2037 powerplants on 757 transport 3/26, p. 29
Boeing readies 757 for Pratt & Whitney PW2037 powerplants 4/2, p. 33
Floatwall combustor design may extend component life 7/9, p. 56
High flight rates achieved on Boeing's test aircraft 7/23, p. 50
**Pratt & Whitney PW3005**
Army, NASA lead testing of turboshaft components 1/16, p. 117
**Pratt & Whitney PW4000**
Floatwall combustor design may extend component life 7/9, p. 56
**Pratt & Whitney PW5000**
Strong gains planned for advanced engine 11/19, p. 52
**Rolls Royce RB211-524C**
Cathay Pacific buys 10 Rolls-Royce RB.211s 10/8, p. 32
**Rolls Royce/Turbomeca TRM 322**
Lucas ground tests helicopter turret 11/5, p. 43
**Rolls-Royce**
AMX fighter prototype makes first flight 5/21, p. 24
Rolls testing first full-scale Tay fan, compressor 5/28, p. 23
Rolls makes first carbon fiber bypass duct for Tay engine 6/18, p. 89
Rolls-Royce Tay exceeds rated thrust on first test series 9/3, p. 81
Eastern's CEO praises RB.211-535 12/10, p. 40
**Rolls-Royce F402-RR-404A**
Manufacturers modify AV-8D, its engines to solve problems 8/27, p. 22
**Rolls-Royce Gem**
British use field repair shop for gem engine 12/3, p. 155
**Rolls-Royce RB.211**
Saudi Arabia buys 10 747s, 60 RB.211s with oil 8/20, p. 28
**Rolls-Royce RB.211-524D4A**
Rolls anticipates larger share of U.S. military engine market 2/13, p. 30
**Rolls-Royce RB.211-535**
Rolls-Royce Miami facility seeks new work despite losses 12/3, p. 110
**Rolls-Royce RB.211-535C**
Pratt, Rolls match shutdown rates 9/10, p. 82
**Rolls-Royce RB.211-535E4**
Rolls-Royce delivers first RB.211-535E4 engines to Boeing 1/2, p. 53
Boeing prepares to flight test RB.211-535E4 engine on 757 1/30, p. 45
High flight rates achieved on Boeing's test aircraft 7/23, p. 50
India orders engines 9/10, p. 90
Rolls sets production rate for RB.211-535E4 10/22, p. 222
**Rolls-Royce RB.211-600**
Rolls anticipates larger share of U.S. military engine market 2/13, p. 30

**Rolls-Royce Spey Mk. 511**
  - Rolls-Royce alters Speys to meet pollution rules 7/2, p. 34

**Rolls-Royce Tay**
  - Rolls-Royce completes engineering mock-up of Tay engine 7/30, p. 21

**Rolls-Royce/Turbomeca RTM 322**
  - Manufacturers study RTM 322 powerplant use 1/9, p. 18

**Rolls-Royce/Turbomeca RTM-322**
  - Rolls, Turbomeca launch RTM-322 program 5/28, p. 19
  - Europeans sign to build, market U.S. rotorcraft 9/10, p. 35

**Snecma M88**
  - Snecma evaluates M88 turbofan engine 1/23, p. 17
  - Snecma tests future fighter turbofan 4/9, p. 68
  - European ministers sign pact to study new fighter program 7/16, p. 23

**Thunder Engines, Inc.**
  - Company aims for engine certification 1/2, p. 60

**Turbomeca TM333**
  - Europeans stress turboshaft efficiency 1/16, p. 125
  - Reengined Dauphin 2 begins tests 3/19, p. 24

**Turbomeca TM333-1M**
  - Military Dauphin completes hot weather tests 10/22, p. 59

**Turbo-Union RB.199**
  - Lucas digital engine control unit flying on Tornado 9/3, p. 143

**Williams International F107-WR-101**
  - USAF plans uprated cruise missile engine 3/12, p. 275

### PROPULSION

- Propfan testbeds aimed at 1986 flight 1/9, p. 60
- Improved testing methods enhancing rotor research 1/16, p. 101
- Europeans pursue rotor development 1/16, p. 109
- SEP developing ceramic parts 2/13, p. 145
- Floatwall combustor design may extend component life 7/9, p. 56
- SEP modifying programs after merger 8/13, p. 81
- New fighter engine planned 8/27, p. 23
- Propfan concepts gain in development 9/17, p. 54
- Airframe makers plan for new propfan engine 9/17, p. 60
- GE tests unducted fan system in tunnel 10/15, p. 72
- Propfan test planned 10/29, p. 65
- Hughes designs new blade hub for Apache 11/5, p. 59
- Dowty awarded Jetstream 31 prop deicing contract 11/5, p. 77
- Engine makers stress product support in maintenance programs 11/12, p. 125
- Japan studying carbon fiber blades 11/12, p. 91
- Lockheed-Georgia develops concept for future freighter 12/3, p. 141
- Hamilton Standard testing counter-rotational propfan 12/3, p. 79
- Convair Super 580 to enter regional market 12/3, p. 97

### RADAR

- Soviets test new cruise missiles 1/2, p. 14
- Air Force updating F/FB-111 avionics 1/2, p. 62
- FAA planning to deploy terminal weather radar 1/2, p. 64
- Microburst detection 1/2, p. 65
- Soviets accelerate missile defense efforts 1/16, p. 14
- New cockpits use integrated avionics 1/16, p. 148
- Firms demonstrate new sensor technology 1/16, p. 153
- Airborne radar maps Canadian ice field 1/16, p. 193
- Swedish Navy radar 1/16, p. 24
- GE realigns avionics, ordnance operations 1/16, p. 25
- Boeing delivers B-1B avionics shipsets 1/23, p. 117
- McDonnell Douglas testing F-15B with sensors in chin pod 1/23, p. 97
- Coast Guard flight tests HU-25A with Aerojet Aireye sensor package 1/30, p. 22
- Oman orders radar 2/6, p. 66
- Meteor-burst links planned for Alaskan radar 2/6, p. 67
- Navy cruiser carrying Aegis system completes initial tests 2/13, p. 158
- Defense Dept. plans missile, radar sales to Egypt 2/13, p. 27
- Navy develops new plan for Aegis weapon tests 2/20, p. 30
- U.S. spurs strategic weapon advances 3/12, p. 23
- Lockheed to modify P-3A 3/12, p. 53
- TAC studies tethered aerostats for Arctic use 3/19, p. 64
- Radar systems provide early warning network 3/19, p. 80
- USAF hones air defense capabilities 3/19, p. 85
- B-1 pioneers airborne phased array 4/9, p. 84
- New radar unit cuts Venus mapper cost 4/16, p. 141
- Bendix expands cockpit instrument product line 4/16, p. 167
- Grumman delivers first EA-6B Prowler with improved radar jammer to Navy 5/7, p. 15
- Pilatus Britten-Norman Castor Islander proposed for British airborne standoff radar role 6/4, p. 25
- Rockwell installs Westinghouse radar set in B-1 avionics integrator aircraft 6/11, p. 17
- Kennedy Space Center technicians process shuttle radar laboratory for flight 6/25, p. 115
- Army testing hit-to-kill, radar-guided interceptor 7/9, p. 38
- Warsaw Pact improving radar jamming abilities 7/16, p. 64
- Air Force to test enemy radar locator 7/23, p. 19
- Microburst forecasting tested at Denver 7/30, p. 27
- P-3A modified for customs service is tested at Patuxent 8/6, p. 21
- Marconi to display air defense, terminal radar at Farnborough 8/6, p. 81
- Boeing upgrading radome technology 8/13, p. 183
- Pave Tiger Drone pace slowed by underestimate of complexity 8/13, p. 25
- Semiconductor technology improves navigation radar in B-52s 8/13, p. 61
- New contract to complete NATO air command study 8/20, p. 20
- P-3A Orion fitted with phased-array antenna for telemetry data collection 8/20, p. 74
- BMEWS update program progresses at Thule site 8/20, p. 87
- Sperry wins short-range radar contract 8/27, p. 79
- Dual-mode missile 9/3, p. 299
- Pentagon seeks penetration aid action 9/3, p. 44
- U.S. companies seek contract for German F-4 radar upgrade 9/3, p. 49
- Dassault demonstrates Atlantic 2 in Germany 9/10, p. 133
- McDonnell Douglas offers F-4 fighter modification package 9/17, p. 25
- Raytheon subsidiary in Britain to upgrade Royal Navy radar 9/17, p. 62
- Shuttle plan emphasizes Earth survey 9/24, p. 38
- U.S., NATO agree in principle on IFF frequencies approach 10/8, p. 27
- Lockheed using new radar range at Georgia facility 10/8, p. 76
- Challenger crew obtains significant science data 10/15, p. 16
- Soviets form Cosmos radar data network 10/15, p. 23
- Hughes resumes deliveries of two radars 10/15, p. 26
- Airborne early warning defender makes appearance in Britain 10/15, p. 64
- Shuttle Earth imagery spurs censorship debate 10/22, p. 18
- Lockheed-California tests airborne early warning P-3 aircraft 10/22, p. 57
- Soviet Cosmos spacecraft providing land, sea imagery 11/12, p. 212
- Cubic Corp. upgrades air combat training system for Navy use 12/3, p. 157

### RADIATION

- Radiation satellite designed 9/17, p. 41

### RECONNAISSANCE

- Satellite intelligence—and its limits 1/16, p. 9
- Rockwell tests model of Teal Ruby system 1/23, p. 52
- Navy signs for reconnaissance F/A-18 testbed 2/20, p. 27
- Mitterand outlines military space station 2/20, p. 61
- Chinese university develops RPV for aerial photography 4/30, p. 19
- Gulfstream completes first SRA-1 for military surveillance and reconnaissance 5/28, p. 24
- French to propose satellite imaging system 7/9, p. 61
- Boeing upgrading radome technology 8/13, p. 183
- Army aviation command orders Skyeye RPV 8/20, p. 15
- Gulfstream SRA-1 surveillance, reconnaissance aircraft makes its first flight 9/10, p. 132
- Vinten working on flir for U.S. drug unit 9/17, p. 62
- Reconnaissance equipment added to McDonnell Douglas F/A-18 Hornet 10/1, p. 23
- Hughes develops target recognition, attack multisensor 12/10, p. 75

### REMOTE MANIPULATORS

- Rocket motor failure analysis focuses on nozzle assembly 2/13, p. 19
- Long duration facility deployed successfully 4/16, p. 20
- Goddard Center stops solar spacecraft tumbling 4/16, p. 26
- Orbiter serviced by reduced crew at Edwards 4/23, p. 18

### RESCUE

- Helicopter makers eye medevac market 3/12, p. 262
- Sarsat participants agree to enter full operations 5/28, p. 125
- Emergency transponder 6/4, p. 25
- President, Senators proposing space rescue operation plans 7/9, p. 16
- Super Pumas will support French nuclear test sites in Pacific 8/13, p. 81
- Air Florida, Midway face deadline on rescue plan 9/3, p. 68
- Hughes stations will aid Palapa rescue 9/17, p. 21
- U.S. will negotiate with Soviets on search and rescue satellite 9/24, p. 22
- Underwriters pay for satellite recovery try 10/1, p. 28
- Sarsat/Cospas to operate through 1990 10/15, p. 24
- Sarsat/Cospas proves successful in rescues 11/12, p. 25
- Satellite retrieval succeeds despite equipment problem 11/19, p. 16

### RESEARCH AIRCRAFT

- Improved testing methods enhancing rotor research 1/16, p. 101
- NASA nears fixed-wing tests on RSRA research aircraft 1/30, p. 54
- DARPA/NASA set X-wing research aircraft design 2/13, p. 141
- Rockwell studying joined-wing technology 2/27, p. 25
- British role in new aircraft program grows 3/5, p. 25
- NASA studies new civil aircraft technology 3/5, p. 52
- Bell displays its tilt-rotor vehicle mockup 4/16, p. 29
- RSRA flies in fixed-wing configuration 5/14, p. 23
- AFTI/F-16 will test voice recognizers 8/13, p. 177
- Kremer prize awarded for man-powered flight 12/3, p. 144
- NASA seeks design for supersonic oblique wing testbed 12/3, p. 23
- X-29A research aircraft completes series of taxi tests at Edwards 12/10, p. 25

### RESEARCH AND DEVELOPMENT

- Defense Dept. stresses research, readiness, upgrades 2/6, p. 14
- Fund request renews focus on basic scientific research 2/6, p. 28
- Research aims at reducing pilot stress 2/20, p. 75
- Rules deter R&D exchanges with Japan 4/9, p. 91
- Soviets realign research efforts 5/7, p. 14
- GE develops material for use in infrared sensing system 5/7, p. 86
- Boost sought in research and development 5/21, p. 108
- A new research pattern 6/18, p. 11
- Directed-energy studies 6/18, p. 127
- Air Force developing plan on expendable launchers 6/18, p. 70
- Industry fighting to save tax credit for research 6/25, p. 222
- Congress backs aeronautical research 7/9, p. 48
- Floatwall combustor design may extend component life 7/9, p. 56
- European ministers sign pact to study new fighter program 7/16, p. 23
- Congress refuses extension of tax credits for research 7/23, p. 137
- Hughes expands Mesa operations 8/6, p. 20
- New fighter engine planned 8/27, p. 23
- U.S. takes arms cooperation initiative 9/3, p. 141
- Science advisers cite research need 9/3, p. 173
- Canada supports R&D programs 9/3, p. 227
- Army combining Aquila tests to return program to schedule 9/3, p. 272
- Fairchild T-46A assembly on schedule 9/3, p. 275
- Fairchild studies light missiles, A-10 follow-on as new efforts 9/3, p. 281
- Researchers study lightning to improve aircraft designs 9/3, p. 295
- Navy budgets Trident R&D, sets 1989 operation start 9/3, p. 297
- Research center boosts Arizona firms 9/3, p. 303
- Pentagon seeks penetration aid action 9/3, p. 44
- Dowty Rotol studies large turboprops 9/10, p. 123
- Folding-wing aircraft designed in Britain 9/10, p. 134
- European spacecraft projects gaining 9/10, p. 139
- The toils of collaboration 9/17, p. 11
- Ford Aerospace developing Saber weapon system 9/17, p. 24
- Propfan concepts gain in development 9/17, p. 54
- F404 engine may include composite material duct 9/17, p. 69
- European companies team on standoff weapon 9/24, p. 19
- Company ends electrical tests on telescope 9/24, p. 55
- Alloy makers react to composite gains 9/24, p. 57
- Company develops Rockeye submunition 9/24, p. 63
- Boeing develops multipurpose, inexpensive drone for military 9/24, p. 66
- USAF pushes survivability of satellites 9/24, p. 71
- University students design supersonic corporate jet 10/1, p. 133
- Conferees grant $32.1 billion to research 10/1, p. 25
- New technologies adapted to engines 10/1, p. 49
- NASA developing laminar flow control system 10/1, p. 93
- 3M submits commercial program to NASA 10/8, p. 16
- McDonnell Douglas to develop STOL F-15 10/8, p. 21
- Navy pushes heat-seeking missile counters 10/8, p. 26
- Starship emphasis 10/8, p. 29
- State stresses expansion in aerospace 10/8, p. 69
- Industry urges upgrades in engineering education 10/8, p. 72
- Ford designing transportable stations 10/8, p. 75
- Company developing optical rate sensor 10/8, p. 76
- GE tests unducted fan system in tunnel 10/15, p. 72
- Air Force unit developing method for rapid repair of bombed runways 10/22, p. 125
- Boeing joins consortium devoted to computer research 10/22, p. 128
- Congress votes $15.36 million for USAF space booster 10/22, p. 28
- General Electric develops new airborne gun series 10/22, p. 57
- Starship 1 dominates Beech research programs 10/22, p. 89
- Engineers facing challenges in design of space station 10/22, p. 97
- NASA promotes commercialization of space to automobile makers 10/29, p. 21
- McDonnell Douglas developing MD-11X as new DC-10 derivative 10/29, p. 36
- New MD-80 tail cone developed to reduce aerodynamic drag 10/29, p. 37
- Reliability, maintainability cited as vital fighter requirements 10/29, p. 59
- Overreacting to Star Wars 11/5, p. 9
- Japan studying carbon fiber blades 11/12, p. 91
- Litton develops night-vision helmet-goggles 11/19, p. 107
- Strong gains planned for advanced engine 11/19, p. 52
- NASA formulates policy to spur private investment 11/26, p. 18
- Ford test-fires projectile with on-board computer 11/26, p. 88
- Avco conducting full-scale development on new airfield attack submunition 12/3, p. 105
- Venture seeks to boost machine tool effort 12/3, p. 113
- Lockheed-Georgia develops concept for future freighter 12/3, p. 141
- Georgia Tech, firms expand research roles 12/3, p. 143
- Justice Dept. would remove obstacles to joint ventures 12/3, p. 149
- Missile launcher studied for Naval Air Defense 12/3, p. 65
- Companies focus research activity on artificial intelligence applications 12/10, p. 25
- Joint study focuses on two C-130 modifications for assault, airlift role 12/10, p. 60
- Telesat preparing services for less restrictive market 12/10, p. 79

**ROBOTICS**
McDonnell Douglas tests plug insertion robot 1/9, p. 55
Research firm developing robotic wing deriveter 1/16, p. 201
Company will spend $1 billion on automation 4/9, p. 27
U.S. closing robot technology gap with Japan 4/16, p. 76
Sikorsky using robot in production of SH-60B Seahawk 5/7, p. 85
Aerospatiale uses robots to build missiles 5/21, p. 139
Northrop using robot in F/A-18 production work 6/18, p. 93
Automated plasma sprayers being developed 8/13, p. 53
Computer controls schedule of B-1B spare parts production 8/13, p. 74
Air Force invests in centralized control at Georgia plant 8/27, p. 70
Discovery crew removed ice hazard with robot arm 9/10, p. 110
Semi-automated plant enhances quality, cuts manufacturing cost 11/26, p. 66
Robot used in manufacturing of F-16 fighter 12/3, p. 113
Companies focus research activity on artificial intelligence applications 12/10, p. 25

**ROCKET MOTORS**
NASA seeks improved shuttle main engines 1/9, p. 20
Minuteman motors 1/16, p. 27
CSD studies extendable solid motor exit cones 2/13, p. 131
Parachute problem damages boosters 2/13, p. 18
Rocket motor failure analysis focuses on nozzle assembly 2/13, p. 19
USAF cancels July IUS shuttle mission 2/13, p. 22
Loss of two satellites expected to double insurance premiums 2/13, p. 23
NASA studies recovery of Westar, Palapa 2/13, p. 23
USAF retains plans to use Star 48 motors on Navstar 2/20, p. 26
Propellant leaks disrupt orbiter work 2/27, p. 22
Propellant salvage 3/12, p. 120
Columbia engine tests 3/19, p. 21
Booster change delays TDRS-B launch 3/19, p. 97
Materials scrutinized in PAM failures 4/2, p. 18
Liquid-fueled engine to extend Olympus operations 4/2, p. 52
Engineers study low propulsion ascent 4/16, p. 27
Shuttle main engine certificated for 20 flights 4/23, p. 156
Lockheed contract 4/30, p. 18
USAF plans work on improved shingle-lap extendable cone 4/30, p. 73
France to put SEP Ariane engine company under Snecma control 5/21, p. 28
Change of engine delays Discovery's initial launch 6/18, p. 18
ESA awards launcher engine study contract 6/18, p. 69
Astrotech sees military uses for stage 6/25, p. 158
Space Services pushing Conestoga launch vehicle 6/25, p. 163
Bay area firms pursue booster designs 6/25, p. 166
McDonnell Douglas sees 50 PAM-Ds sold by 1990 6/25, p. 169
NASA assesses effects of failure in launch of Discovery 7/2, p. 16
Shuttle abort challenges controllers at Kennedy 7/2, p. 18
First phase of MX flight tests ends successfully 7/2, p. 54
NASA ponders shuttle payload options 7/9, p. 19
Shuttle replacement engine arrives at launch pad 7/23, p. 115
Ariane 3 will be launched with two strap-on boosters 7/30, p. 68
Japanese select launcher with heavy-lift capability 8/13, p. 162
Starstruck launches prototype Dolphin Rocket in first flight 8/13, p. 20
United Space Boosters wins shuttle award 8/27, p. 21
USAF finishes third IUS motor ground test 9/10, p. 42
Documentation is involved in delay of shuttle 9/24, p. 14
Arnold Center testing Perigee motor for satellite 10/8, p. 52
Ames readies TRI60-2 turbojet for delivery 10/22, p. 77
Morton-Thiokol tests graphite/epoxy booster motor 11/5, p. 24
Boost motor, nozzle changes precede orbiting of Ariane payload 11/19, p. 22
Pratt proposing design changes for shuttle engine powerhead 12/3, p. 121

**ROMANIA**
Yugoslavia, Romania eye export market 10/8, p. 37

**SAFETY**
**Accident Prevention**
Groundings fuel debate on safety 1/2, p. 26
Pan American installing smoke detectors 1/2, p. 26
Accidents spur ground traffic control review 1/2, p. 31
Training key to wind shear effects 1/2, p. 62
Agencies end Westland 30 suspension 1/9, p. 30
Army develops crew restraint system 1/16, p. 187
Control errors spur FAA probe 1/16, p. 29
USAF T-38 jet trainers to start tests of windshield redesign 1/23, p. 89
NTSB criticizes Eastern, FAA on O-ring problem 1/30, p. 32
Air Vermont surrenders operating certificate 1/30, p. 34
NASA studies lightning hits on F-106B 2/13, p. 42
FAA will increase number of air carrier inspectors 2/20, p. 36
FAA will safety check 400 airlines 3/5, p. 32
Smoking ban will cover commuter-class aircraft 3/26, p. 31
U.S. flight crews served varied menus 4/2, p. 30
House panel sets hearing on ALPA safety charges 4/23, p. 34
Bell claims bogus use of data plates 4/30, p. 26
NTSB recommends changes to improve safety of airports 5/7, p. 34
NTSB urges final rule on pilots' alcohol level 5/14, p. 30
Airlines to carry required medical equipment 5/14, p. 32
ALPA, Continental dispute shifts to hearing in House 6/18, p. 33
Stricter controls sought on ultralights 6/25, p. 233
NTSB expected to recommend better windshear forecasts 6/25, p. 33
Shuttle abort challenges controllers at Kennedy 7/2, p. 18
Agency to conduct aviation safety audit 7/2, p. 38
Caution issued to Olympic Games area pilots 7/2, p. 61
Electro-impulses deicing shows promise 7/9, p. 65
FAA prepares overwater guides 7/16, p. 28
FAA will start general aviation safety audit 7/23, p. 15
Navy studies ground proximity warning for tactical aircraft 7/23, p. 24
Vertical separation cut weighed 7/30, p. 27
FAA to review standards for small aircraft 8/6, p. 21
NASA studies ways to prevent damage from lightning strikes 8/13, p. 66
757 engine controls survive lightning strike 8/20, p. 22
FAA orders modifications made on S-76 8/27, p. 25
Insurance group distributes jet fuel nozzles 8/27, p. 30
Antimisting additive tests 8/27, p. 35
FAA proposes to standardize controls for general aviation 9/10, p. 137
Swiss ground SF-340 aircraft after Crossair engine incidents 9/10, p. 36
Station likely to be hit by debris 9/17, p. 16
FAA bars flyers east of area during orbiter launch, landing 9/24, p. 25
Racal will make voice system, fighter controls 9/24, p. 93
Cockpit crew curriculums emphasize human factors 10/1, p. 99
ATC users urge agency to add 1,000 controllers 10/8, p. 32
Propeller deicing configurations undergo evaluation at California site 10/8, p. 81
FAA proposes rulemaking aimed at fire suppression 10/22, p. 41
FAA adopts rules to improve safety during cabin fires 10/29, p. 31
Midair study likely to speed adoption of alert systems 10/29, p. 32
Piedmond 727 will test threat alert/collision avoidance device 11/12, p. 194
FAA cites over 50 violations in grounding South Pacific Island Airways 11/26, p. 85
FAA will act on continental safety findings 12/10, p. 31
**Accident Reports**
NTSB revises 1975 finding on 727 crash 2/27, p. 66
ATC cited in midair over Yugoslavia 6/18, p. 129
Traffic control scrutinized after midair 6/25, p. 235
ATC, crew cited in Yugoslavian midair 7/2, p. 71
O-Ring lack cited in L-1011 accident 7/23, p. 163
Maintenance cited in triple-engine out 8/13, p. 185
Uncontrolled descent cited by NTSB 8/27, p. 83
Spindle failure cited in S-76 helicopter crash in Scotland 10/22, p. 137
S-76A bearings scrutinized following crash in Scotland 10/29, p. 76
Maintenance procedures reviewed after S-76A helicopter crash 11/5, p. 89
British recommend rotor systems be designed to fail-safe criteria 11/19, p. 99
Pilot technique cited in DC-8 incident at Stansted 12/3, p. 167
**Accidents**
Airspur schedule 1/23, p. 31
Boeing Vertol found negligent in 1982 CH-47C Chinook crash 2/13, p. 143
NTSB upgrades landing incident 2/27, p. 29
Inex DC-9-80 crash involved imprecise terminology 2/27, p. 34
Commuter air carriers achieve best accident rate in 9 years 2/27, p. 64
USAF, Navy accident rates continue to improve 2/27, p. 64
NTSB investigates DC-10 overrun at Kennedy 3/5, p. 32
Piper agrees to pay heirs of crash victims 4/23, p. 150
USAF receiving digital flight recorders 5/7, p. 43
Fuel pollutant suspected in Mirage 2000 crash 5/21, p. 27
Aztec, 1900C collide near Hanover 5/28, p. 17
AMX prototype crashes on its fifth flight 6/11, p. 52
Oil loss incidents due to detector or O-ring seal 7/23, p. 182
NTSB urges review of Metro stall device 7/23, p. 31
Crash probe focuses on approach decisions 7/30, p. 32
Four Tornadoes crash in July 8/13, p. 26
U.S. sues on withheld crash evidence 8/20, p. 26
FAA orders modifications made on S-76 8/27, p. 25
B-1A testbed crashes at Edwards AFB 9/3, p. 47
Midair collision 9/3, p. 68
DHC-5 crash damages several aircraft at show 9/10, p. 32
B-1A was testing stability, control at time of crash 9/10, p. 39
B-1 investigators focus on fuel system 10/1, p. 27
B-1 crew discussed earlier test during incident 10/8, p. 22
USAF cites fuel transfer error in B-1 aircraft crash 10/8, p. 22
Controllers "Talk" nonpilot to landing 10/8, p. 81
F-20 crashes during demonstration in Korea 10/15, p. 25
FAA crash plan 10/29, p. 76
720 completes tests before crash 11/5, p. 61
Demonstration 720 crash delayed for control changes 11/19, p. 25
NTSB investigates 747 takeoff abort 11/26, p. 34
Military grounds CH-53E 12/3, p. 27
Control impact demonstration 720 cabin fire leaves key data intact 12/10, p. 31

**SATELLITES-INTERNATIONAL**
**Argentina**
Argentina performing solar research 11/12, p. 218
**Australia**
Satcom pact signed 10/29, p. 24
Ground segment contract signed for use with Aussat 11/5, p. 18
**Brazil**
Spacecraft systems being tested in Canadian laboratory 12/3, p. 68
**Canada**
Telesat urges Canadian direct broadcast TV 2/13, p. 22
Telesat seeks new rates, market plan 9/3, p. 177
China contract 10/1, p. 29
Shuttle deploys two communications satellites 11/19, p. 19
Astronauts deploy, retrieve satellites 11/26, p. 20
Telesat preparing services for less restrictive market 12/10, p. 79
Mature market to affect next Anik generation 12/10, p. 87
**China**
Chinese satellite fails to reach proper orbit 3/12, p. 100
Chinese satellite 9/24, p. 16
China offers space launch services 10/8, p. 48
**Europe**
ESA upgrades space command center 3/5, p. 62
ESA boosts GOES-2 to new orbit 3/5, p. 67
Ariane cleared to start commercial launches 3/12, p. 271
Eutelsat to request new satellite proposals 3/19, p. 22
Four payloads planned 4/2, p. 53
Satellite assembly site 4/2, p. 53
Fokker completes Olympus test series 6/25, p. 161
Curbs hamper satellite plans in Europe 6/25, p. 171
Canada to distribute European satellite data 9/3, p. 49
Boost motor, nozzle changes precede orbiting of Ariane payload 11/19, p. 22
**France**
Ariane places two satellites in proper orbit 8/13, p. 19
Matra offers small, low-cost satellite 8/20, p. 65
Matra deploys solar panels on Telecom-1 9/3, p. 116
European spacecraft projects gaining 9/10, p. 139
Matra satellite uses piggyback launch 9/10, p. 149
ESA will select substitute payload for 1986 flight 11/19, p. 20
France's Matra plans low-cost communications launch payload 11/26, p. 77
French delay launch of TV satellite 12/3, p. 73
**General**
Agency backs private international bids 1/9, p. 63
Satellite pricing 12/3, p. 21
**Germany**
Curbs hamper satellite plans in Europe 6/25, p. 178
Triple-satellite payload assembly completed at Kennedy 8/6, p. 17
Triple satellite payload to study Van Allen Belts 8/6, p. 54
Triple satellite mission launched 8/20, p. 27
Germany starts building X-ray satellite 8/20, p. 80
Europeans question value of U.S. subcontract work 9/3, p. 189
European spacecraft projects gaining 9/10, p. 139
**Great Britain**
British Aerospace Dynamics displays Olympus 1 communications satellite mockup 5/21, p. 176
Britsat offers direct-broadcast satellite 6/18, p. 29
Prospect of competition jolting Intelsat members 6/25, p. 171
British Dynamics prepares Marecs B2 for November launch 6/25, p. 87
Triple-satellite payload assembly completed at Kennedy 8/6, p. 17
British companies approved for DBS plan 8/6, p. 22
Triple satellite payload to study Van Allen Belts 8/6, p. 54
Triple satellite mission launched 8/20, p. 27
Comsat clusters may improve coverage 9/3, p. 233
British expect large transfer vehicle market 9/3, p. 47
British satellite transfer vehicle will deploy two satellites 9/10, p. 153
Spacecraft systems being tested in Canadian laboratory 12/3, p. 68
**India**
Indian satellite power 4/23, p. 30
**Indonesia**
Loss of two satellites expected to double insurance premiums 2/13, p. 23
NASA studies recovery of Westar, Palapa 2/13, p. 23
NASA reviewing launch prices after Westar 6, Palapa losses 2/20, p. 22
Satellite losses generate varied insurer reactions 2/20, p. 23
Astronauts practice for future tasks 2/27, p. 37
Indonesia weighs mission to recover Palapa B-2 4/2, p. 18
Materials scrutinized in PAM failures 4/2, p. 18
NASA seeks cause of docking failure 4/16, p. 25
Talks continuing on retrieval of Palapa 4/30, p. 17
Loss of Satcoms affecting insurance 6/25, p. 85
Commercial Satcom rescue flight nears approval 8/13, p. 23
Westar 6 signed over to underwriters 9/3, p. 53

- Hughes stations will aid Palapa rescue 9/17, p. 21
- Underwriters pay for satellite recovery try 10/1, p. 28
- Satellite orbits lowered 10/22, p. 21
- Nozzle exit cones cited in PAM failure 10/29, p. 27
- Westar, Palapa positioned for rendezvous with shuttle 11/5, p. 21
- Satellite retrieval linked to precise orbit control 11/5, p. 66
- Satellite retrieval succeeds despite equipment problem 11/19, p. 16
- Down the learning curve 11/26, p. 13
- Astronauts deploy, retrieve satellites 11/26, p. 20
- Palapa, Westar processed at NASA facility 11/26, p. 23
- Satellite rescue made possible by detailed contingency plans 12/10, p. 46

**Israel**
- Israelis plan satellites 11/12, p. 17

**Italy**
- Selenia signs study contract for communications satellite 4/2, p. 24
- Curbs hamper satellite plans in Europe 6/25, p. 171

**Japan**
- Japan will launch ETS-5 satellite in 1987 1/2, p. 21
- Japanese GMS-2 weather satellite malfunctions 1/23, p. 26
- Japanese launch direct TV broadcast satellite 1/30, p. 19
- Japan funds launcher, satellite development 2/13, p. 125
- Japan prepares for next space phase 3/12, p. 129
- Japanese executives back import of spacecraft 4/9, p. 26
- Japan orders study of BS-2A satellite failure 5/14, p. 24
- Loss of satellite sparks complaint by Japan 5/21, p. 18
- Earth sensors further Japan's efforts 6/25, p. 151
- Europe offers weather satellite to Japan 7/2, p. 21
- Japan will launch third meteorological satellite 7/9, p. 26
- Japanese complete transponder testing 7/23, p. 24
- Japan GMS-3 Metsat nears orbital station 8/20, p. 81
- Hughes to study Japanese telecommunications 9/24, p. 25
- Japanese ministry plans 60-70 transponder satellites 11/5, p. 16

**Luxembourg**
- Luxembourg proposes own TV relay satellite 6/4, p. 19

**Sweden**
- Swedish firm plans Satcom services 7/16, p. 22
- Saab displays Tele-X Satcom at Farnborough 10/22, p. 97

**USSR**
- Soviets make 14 launches, bringing 1983 total to 98 1/9, p. 20
- French, Soviets define observation platform 2/20, p. 55
- Soviets boost Satcom use 3/5, p. 59
- Cosmonauts conduct 5-hr. EVA to install new propellant valve 4/30, p. 18
- Soviets form Cosmos radar data network 10/15, p. 23
- Soviets orbit seven military spacecraft 11/5, p. 70
- Soviet Cosmos spacecraft providing land, sea imagery 11/12, p. 212

### SATELLITES-INTERNATIONAL-CONSORTIUM

**Arabsat**
- Arabsat being prepared for launch on Ariane 1/23, p. 49
- Arabsat satellite's control signals will be encrypted 5/21, p. 176
- Arabsat Satellites nearing completion 9/3, p. 118
- Kuwait earth station 10/1, p. 146

**BS-2B**
- Testing renews confidence in BS-2B satellite launch 9/17, p. 20

**ECS**
- Eutelsat considering third ECS launch 5/28, p. 115
- Eutelsat to launch third satellite 10/15, p. 103
- French film Ariane, booster separation 10/15, p. 47

**ECS-2**
- Ariane places two satellites in proper orbit 8/13, p. 19

**Eutelsat**
- Eutelsat seeks guarantee of monopoly inside Europe 10/1, p. 139
- Eutelsat seeks guarantee of monopoly inside Europe 10/1, p. 139

**GESAT**
- Satellite group formed 12/3, p. 27

**Giotto**
- British ship Giotto spacecraft to France 6/25, p. 188

**Hipparcos**
- ESA astronomy probe's launch is set for 1988 9/3, p. 221

**Inmarsat**
- Emergency transponder 6/4, p. 25
- West screens Inmarsat technical bids 7/30, p. 18
- Companies show new Inmarsat design 10/1, p. 137
- Iran joins Inmarsat; Soviets operate earth stations 12/3, p. 76
- Inmarsat to postpone use of position indicators 12/10, p. 83

**Intelsat**
- Agency backs private international bids 1/9, p. 63
- Intelsat alters Earth station standards 1/16, p. 203
- Intelsat launch on Ariane 1 scheduled for early March 2/20, p. 65
- Intelsat plans launch on Ariane 4 4/2, p. 20
- Intelsat Centaur stage failure will increase insurance rates 6/18, p. 24
- Prospect of competition jolting Intelsat members 6/25, p. 171
- Loss of Satcoms affecting insurance 6/25, p. 85
- Intelsat introduces services to counter competitive threat 7/2, p. 24
- Intelsat reports maritime satellite problems 8/6, p. 26
- Arnold Center testing Perigee motor for satellite 10/8, p. 52

**Joint Reconnaissance Satellite**
- French, Germans study recon satellite plan 6/4, p. 23

**LAGEOS 2**
- Italian/U.S. satellites 3/19, p. 97

**Meteosat**
- Europe offers weather satellite to Japan 7/2, p. 21
- Meteosat proposal 8/13, p. 84

**Olympus**
- Liquid-fueled engine to extend Olympus operations 4/2, p. 52
- ESA's Olympus will test communications packages 6/25, p. 146
- Fokker completes Olympus test series 6/25, p. 161
- Europeans plan common TV channel 11/26, p. 18

**Sarsat-Cospas**
- Sarsat participants agree to enter full operations 5/28, p. 125
- U.S. will negotiate with Soviets on search and rescue satellite 9/24, p. 22
- Sarsat/Cospas to operate through 1990 10/15, p. 24
- Sarsat/Cospas proves successful in rescues 11/12, p. 25
- French receiving station monitors Sarsat/Cospas rescue service 12/3, p. 71

**Spacebus**
- Europeans developing new communications satellites 6/25, p. 125

**Spot Earth**
- Spot Earth-resources program accelerates to commercial use 6/25, p. 148

**TDF**
- AEG-Telefunken testing TV-Sat traveling wave tube 1/16, p. 203
- Television satellite pact 5/14, p. 80
- Television satellite pact 5/14, p. 80

### SATELLITES-U.S.

**Acts**
- RCA marshaling support behind advanced Satcom 1/9, p. 24
- House panel revives Satcom test 3/19, p. 16
- House panel approves funds for space station 3/26, p. 26
- Satellite communications tests restart at NASA 8/6, p. 24
- Satellite negotiations 8/13, p. 27

**Amsat**
- Sears to use Amsat 10/1, p. 139

**Charge Composition Explorer**
- Triple-satellite payload assembly completed at Kennedy 8/6, p. 17
- Triple satellite payload to study Van Allen Belts 8/6, p. 54
- Triple satellite mission launched 8/20, p. 27

**Commercial**
- Fairchild buys half of SatServ 1/2, p. 54
- Sporty course in space 1/9, p. 11
- Rise seen in insurance coverage, costs 2/20, p. 25
- Comsat withdraws from Sparx venture 3/5, p. 16
- Trend shifts in Satcom orbit positions 3/12, p. 114
- FCC evaluating 15 proposals for satellite TV broadcasting 3/12, p. 116
- Ford wins direct-TV contract 4/9, p. 25
- Astrotech opens commercial satellite processing facility 4/23, p. 156
- Satcom application 6/11, p. 28
- Astrotech offering satellite processing 6/25, p. 122
- Satcoms tailor services to customers 6/25, p. 181
- Satcom salvage plans near completion 6/25, p. 22
- United States Satellite, Federal Express reach capacity pact 8/6, p. 27
- Home Box Office 8/6, p. 68
- SatServ purchased 8/13, p. 161
- Commercial Satcom rescue flight nears approval 8/13, p. 23
- U.S. cuts costs, updates Intelpost mail 9/3, p. 215
- FCC approves 4 firms for satellite TV 10/15, p. 22
- U.S. company signs for two Ariane slots 12/10, p. 77

**Communications**
- Hughes loan tied to purchase option 1/30, p. 46
- Hughes subsidiary asks to run two direct broadcast satellites 1/30, p. 46
- SBS partners make leadership shifts 2/6, p. 61
- Satellite link aiding search for Arctic oil 2/6, p. 61
- Hewlett-Packard, Vitalink form joint venture 2/13, p. 162
- Ford wins direct-TV contract 4/9, p. 25
- FCC denies petition for direct access 4/16, p. 153
- SBS planning expansion of its markets 5/14, p. 59
- RCA develops upper stage for shuttle 5/21, p. 167
- UTC satellite link 5/21, p. 28
- Satellites link mobile communications 6/25, p. 197
- Sixth firm seeks international Satcom rights 7/9, p. 18
- CBS withdraws direct broadcast proposal 7/9, p. 25
- Western Union abandons plan for direct broadcast service 7/16, p. 24
- New ventures tied to sponsor capital 7/23, p. 115
- Earth station bid 7/23, p. 20
- Comsat to sell its satellite business systems shares 7/30, p. 20
- Satellite communications tests restart at NASA 8/6, p. 24
- Satellite capacity 8/13, p. 167
- Companies to study space platform payload mix 8/20, p. 65
- Orbiter Discovery carries three Comsats into space 9/3, p. 52
- Hughes to study Japanese telecommunications 9/24, p. 25
- Comsat, two others sign broadcasting pact 9/24, p. 26
- Comsat moves to boost near-term profit 10/1, p. 140
- Soviets form Cosmos radar data network 10/15, p. 23
- Congress backs communication exchange 10/15, p. 26
- Japan's Itoh plans Hughes Satcom buy 10/22, p. 30
- California company plans to build communications satellite 10/29, p. 23
- Navidyne talks with potential purchaser 10/29, p. 70
- Shuttle set to rendezvous with communication satellites 11/12, p. 22
- Space network readied for McDonnell Douglas 11/26, p. 77
- Video teleconferencing 12/10, p. 83

**Comstar**
- Space network readied for McDonnell Douglas 11/26, p. 77

**Cropcast**
- Satellite-acquired data used in crop forecasts 6/25, p. 183

**DBS**
- Hughes subsidiary asks to run two direct broadcast satellites 1/30, p. 46

**ERBS**
- Radiation satellite designed 9/17, p. 41
- Shuttle plan emphasizes Earth survey 9/24, p. 38
- Challenger crew obtains significant science data 10/15, p. 16
- Astronaut, ground crew action solves ERBS deployment issue 10/15, p. 19

**Galaxy**
- PAM failures on Shuttle 10 delay Galaxy launch 3/26, p. 18
- USAF cites PAM failure in Navstar launch delay 4/9, p. 27
- Home Box Office 8/6, p. 68

**Galileo**
- Galileo to employ cosmic ray-resistant parts 5/7, p. 20
- Change in launch plan clouded Galileo's asteroid possibilities 9/24, p. 16
- NASA considers asteroid flyby for Galileo mission 9/24, p. 16

**General**
- Rockwell expansion 5/7, p. 23
- Position locator 7/30, p. 69
- USAF pushes survivability of satellites 9/24, p. 71
- NASA extends Delta marketing deadline 10/8, p. 57
- Increase foreseen in space insurance rates 11/19, p. 18
- Satellite pricing 12/3, p. 21

**GOES**
- NASA to study flying weather sensors on private Satcoms 1/30, p. 24
- NOAA seeks new weather satellites 2/6, p. 28
- Another lamp failure blinds GOES-5 8/6, p. 22
- GOES-5 refund 8/13, p. 18

**GOES-1**
- NOAA reactivates GOES-1 following repair maneuver 11/5, p. 17

**GTE/Spacenet**
- Ariane's commercial flights to start in May 4/23, p. 152
- GTE/Spacenet 1 readies satellites for Ariane launch 5/14, p. 22
- GTE Spacenet satellite control center in Virginia begins operations 5/28, p. 115
- GTE Spacenet launch initiates commercial Ariane program 5/28, p. 28

**GTE/Spacenet 2**
- GTE Spacenet satcom prepared for Ariane launch 10/15, p. 63
- GTE Spacenet 2 arrives at Kourou 11/5, p. 20
- Boost motor, nozzle changes precede orbiting of Ariane payload 11/19, p. 22
- Spacenet 2 shown prior to launch on Ariane 2 11/19, p. 98

**GTE/Spacenet 3**
- GTE Spacenet seeks coverage for another launch on Ariane 3 11/19, p. 20

**Hughes HS 394**
- Hughes sells first direct broadcast satellites 9/10, p. 151

**IRAS**
- Researchers discover material orbiting star 1/2, p. 84
- IRAS may have recorded interacting galaxies 6/18, p. 26

**KH-8**
- Satellite intelligence—and its limits 1/16, p. 9

**KH-9**
- Satellite intelligence—and its limits 1/16, p. 9

**KH-11**
- Satellite intelligence—and its limits 1/16, p. 9

**Land Remote-Sensing**
- House approves Landsat commercialization 4/16, p. 30

**Landsat**
- Landsat deadline 2/13, p. 24
- Landsat 5 launched 3/12, p. 272
- Landsat 5 thematic mapper covers Gulf Coast 3/26, p. 19
- Private remote sensing bill passes House panel 3/26, p. 52
- NASA plans Landsat orbital repair 4/9, p. 16
- Value added to remotely sensed data 6/25, p. 125
- Landsat contract bidders plan private alternatives 6/25, p. 61
- Kodak studies modified Landsat terms 8/6, p. 19
- Soviet ability to fire through ice creates new SLBM basing mode 12/10, p. 16

**Leasat**
- Discovery rescheduled to late August 7/16, p. 24
- Mission bolsters commercial viability 9/10, p. 95

**Leasat 2**
- Shuttle deploys two communications satellites 11/19, p. 19
- Astronauts deploy, retrieve satellites 11/26, p. 20

**Leasecraft**
- Medicine sales forecast at $1 billion 6/25, p. 52
- Fairchild seeks agreements on Leasecraft 6/25, p. 54
- Fairchild designs Leasecraft as space platform 6/25, p. 93

**Metsat**
- NOAA seeks contributions to continue second polar Metsat 5/14, p. 76

**Milstar**
- Milstar to employ Centaur upper stage 1/2, p. 21
- Satellite communications tests restart at NASA 8/6, p. 24

**Navstar**
- Defense Dept. stresses research, readiness, upgrades 2/6, p. 14
- Navstar operational tests encounter program delay 2/13, p. 133

USAF retains plan to use Star 48 motors on Navstar 2/20, p. 26
USAF cites PAM failure in Navstar launch delay 4/9, p. 27
Industry, defense officials oppose Navstar user fees 6/4, p. 47
USAF proceeding with ninth Navstar launch 6/11, p. 20
Ninth Navstar launched from Vandenberg 6/18, p. 31
Navstar processing facility work under way 7/16, p. 20
Rockwell begins Block 2 Navstar tests 7/30, p. 16
U.S. will volunteer GPS services without charge 7/30, p. 30
B-1B test pace quickens; second B-1A joins effort 8/20,
Navstar GPS receiver installed in F-16 8/20, p. 47
Eastern range updating timed for Trident 2 tests 8/27, p. 60
Rockwell testing Navstar qualification model 9/24, p. 73
Navstar demonstration 10/1, p. 72
French to choose GPS supplier 10/29, p. 21
French plan to build global positioning system receiver 11/19, p. 109

**NOAA**
NASA to study flying weather sensors on private Satcoms 1/30, p. 24
Outlook remote for saving NOAA-8 7/23, p. 25
NOAA launch postponed 11/26, p. 19
Dual polar satellites draw international support 12/10, p. 27

**Nova**
Nova navigation satellite to guide Navy ships 10/29, p. 64

**SAM-T**
Ford designing transportable stations 10/8, p. 75

**SBS-4**
Competing company satellites share Discovery's payload bay 9/10, p. 106
Mission bolsters commercial viability 9/10, p. 95
Discovery deploys satellites, test array 9/24, p. 49

**SBS-5**
U.S. company will launch satellite on Ariane 7/2, p. 24

**Solar Max**
Repaired Solar Max would observe Halley's comet 3/26, p. 26
Tight pace challenges Solar Max repair 3/26, p. 42
Exposure facility carries 57 payloads 4/2, p. 45
Shuttle to make direct orbit insertion launch 4/2, p. 46
Solar Max repair uses special tools 4/2, p. 47
Black Sunday...fat Tuesday 4/16, p. 13
Orbiter crew restores Solar Max 4/16, p. 18
NASA believes EVAs valid despite recovery problem 4/16, p. 21
NASA seeks cause of docking failure 4/16, p. 25
Aftermath of a rescue 4/23, p. 13
Pin scrutinized in Solar Max docking problem 4/23, p. 23
Cameras record docking attempt, Solar Max repair 6/4, p. 40

**Solar Mesospheric Explorer**
Students monitor solar mesospheric explorer 10/8, p. 73

**Talon Gold**
Talon Gold launch slips 8/20, p. 16

**TDRS**
NASA shift to space data relay consolidates Spanish stations 1/23, p. 94
Booster change delays TDRS-B launch 3/19, p. 97
IUS hardware delivered for shuttle launches 9/24, p. 17
TDRS tumbling interrupts communications 10/15, p. 20
Shuttle's reentry path passes directly over central U.S. 10/22, p. 22

**TDRSS**
Sixth firm seeks international Satcom rights 7/9, p. 18

**Teal Ruby**
USAF's Teal Ruby platform undergoes acceptance tests 7/30, p. 17

**Telstar**
Competing company satellites share Discovery's payload bay 9/10, p. 106
Mission bolsters commercial viability 9/10, p. 95
Space network readied for McDonnell Douglas 11/26, p. 77

**Tiros**
Sarsat/Cospas to operate through 1990 10/15, p. 24
Sarsat/Cospas proves successful in rescues 11/12, p. 25

**Upper Atmosphere Research Satellite**
NASA awards contract for high atmosphere ozone experiment 1/23, p. 68
Space station funding bid adds new NASA line item 2/6, p. 25
Lockheed builds sensor for atmospheric mission 4/9, p. 76

**Westar 6**
Hewlett-Packard, Vitalink form joint venture 2/13, p. 162
Loss of two satellites expected to double insurance premiums 2/13, p. 23
NASA studies recovery of Westar, Palapa 2/13, p. 23
NASA reviewing launch prices after Westar 6, Palapa losses 2/20, p. 22
Satellite losses generate varied insurer reactions 2/20, p. 23
Commercial Satcom rescue flight nears approval 8/13, p. 23
Westar 6 signed over to underwriters 9/3, p. 53
Hughes stations will aid Palapa rescue 9/17, p. 21
Underwriters pay for satellite recovery try 10/1, p. 28
Satellite orbits lowered 10/22, p. 21
Nozzle exit cones cited in PAM failure 10/29, p. 27
Westar, Palapa positioned for rendezvous with shuttle 11/5, p. 21
Satellite retrieval linked to precise orbit control 11/5, p. 66
Satellite retrieval succeeds despite equipment problem 11/19, p. 16
Down the learning curve 11/26, p. 13
Astronauts deploy, retrieve satellites 11/26, p. 20
Palapa, Westar processed at NASA facility 11/26, p. 23
Satellite rescue made possible by detailed contingency plans 12/10, p. 46

**Whitecloud**
NASA souvenir spills Navy satellite secrets 10/22, p. 20

**SAUDI ARABIA**
1983 Boeing orders 1/9, p. 31
Saudis order French air defense system 1/23, p. 16
Saudis preparing for Shahine missiles 2/20, p. 66
Royal transport 4/16, p. 33
Stinger lease 4/23, p. 165
Saudis allocating $23 billion for military 4/23, p. 59
Five Airbus A300-600S join Saudi fleet 5/14, p. 46
Saudia powers A300-600s with highest-thrust JT9Ds 5/14, p. 51
Saudis seek technical self-sufficiency 5/14, p. 68
Saudis expand KV-107 helicopter fleet 5/21, p. 150
Saudis receive foreign bids for C-130 maintenance work 5/21, p. 150
Saudia using new engine test facility 5/21, p. 155
Slack oil funds may force Saudis to cut airport plans 5/21, p. 41
Saudi Arabia modernizes airport facilities 5/21, p. 44
Saudia expects traffic rise to continue 5/28, p. 37
Saudia pilots earn A300-600 ratings 5/28, p. 42
U.S. sends Stingers, deploys KC-10 to aid Saudi defenses 6/4, p. 27
Saudia corporate division expands with Citation 2s 6/11, p. 39
CAA confirms route transfer recommendation 7/30, p. 28
Saudi Arabia buys 10 747s, 60 RB.211s with oil 8/20, p. 28
Germans will not block tornado sale to Saudis 9/3, p. 216

**SCOTLAND**
S-76A bearings scrutinized following crash in Scotland 10/29, p. 76

**SEMICONDUCTORS**
National suit 7/2, p. 24
National hearing 7/9, p. 26
Mask access 7/30, p. 49
Westinghouse designs building blocks 7/30, p. 53
Semiconductor technology improves navigation radar in B-52s 8/13, p. 61

**SENSORS**
New Zealand updates P-3B electronics 1/9, p. 75
Firms demonstrate new sensor technology 1/16, p. 153
Airborne radar maps Canadian ice field 1/16, p. 193
GE realigns avionics, ordnance operations 1/16, p. 25
Boeing evaluates two systems for weight, balance on 747s 1/23, p. 36
Rockwell tests model of Teal Ruby system 1/23, p. 52
Coast Guard flight tests HU-25A with Aero-Aireye sensor package 1/30, p. 22
NASA to study flying weather sensors on private Satcoms 1/30, p. 24
Six teams plan bids on INEWS warning system 2/6, p. 66
Crew validates rendezvous sensor units 2/13, p. 22
Landsat deadline 2/13, p. 24
USAF reviews surveillance system technology 3/5, p. 62
Space sensor planned to detect cruise missiles 3/26, p. 16
Remote-sensing bill 4/2, p. 16
Sensor system adds to A-6E reliability 4/16, p. 59
NATO awards contract 4/23, p. 178
GE develops material for use in infrared sensing system 5/7, p. 86
MBB presses laser, sensor research 5/21, p. 103
RCA develops upper stage for shuttle 5/21, p. 167
Infrared pod on Columbia tail to measure reentry heating 6/18, p. 22
Value added to remotely sensed data 6/25, p. 125
Earth sensors further Japan's efforts 6/25, p. 151
Satellite-acquired data used in crop forecasts 6/25, p. 183
Army will test airborne space sensor 7/2, p. 47
Army testing hit-to-kill, radar-guided interceptor 7/9, p. 38
Boeing receivers airborne sensor contract 8/6, p. 16
Kodak studies modified Landsat terms 8/6, p. 19
P-3A modified for customs service is tested at Patuxent 8/6, p. 21
IR scanner is sized to fit small missiles 8/6, p. 77
Army accepts night-vision equipped AH-1S 8/13, p. 171
Pave Tiger Drone pace slowed by underestimate of complexity 8/13, p. 25
Lebanon lessons raise interest in RPVs 8/20, p. 44
Hughes develops sensor 8/27, p. 66
Scientists observe satellites for GEODSS facility in Hawaii 9/3, p. 313
Vinten working on flir for U.S. drug unit 9/17, p. 62
SDI plans comprehensive option study 10/8, p. 20
Company developing optical rate sensor 10/8, p. 76
Sensor helps pilot see in total darkness 10/22, p. 137
Scientists see delay in climate change detection 11/12, p. 217
Air Force tests antisatellite payload 11/19, p. 28
Services specify 1990s aircraft design goals 11/19, p. 58
Lockheed investigates solar-powered platform 11/26, p. 89
Hughes develops target recognition, attack multisensor 12/10, p. 75

**SIMULATORS AND TRAINERS**
Vertol builds CH-47D maintenance trainer 1/16, p. 118
Sikorsky developing simulator for ARTI program 1/16, p. 180
Computer-based trainer simulates AWACS radar 1/16, p. 206
Army to use simulation in LHX development 1/16, p. 87
Maneuvering unit keyed to simplicity 1/23, p. 42
USAF T-38 jet trainers to start tests of windshield redesign 1/23, p. 89
Italians deliver Macchi trainer to Malaysians 1/30, p. 51
Aerospatiale accelerating production of Epsilon trainer 1/30, p. 60
Simulator delivered 2/13, p. 41
Sikorsky chooses Rediflight simulation for ARTI 2/13, p. 62
Skyfox updates T-33 trainer effectively 3/5, p. 39
French testing Epsilon in trainer role 3/5, p. 51
SAS opens training facility for Saab-Fairchild 340 3/12, p. 243
PSA awaits flight simulator for 146 3/12, p. 254
Britain's Royal Air Force plans buy of new turboprop trainer 3/26, p. 24
Hughes seeks McDonnell simulator for LHX 4/2, p. 25
Australia enters tandem-seat in RAF competition 4/9, p. 22
British plan to install variable flight control system in Hawk trainer 4/16, p. 73
USAir using computerized visual simulation system 4/23, p. 177
Boeing improves MAC refueling trainer 4/30, p. 75
MAC to install reflectone refueling simulators 4/30, p. 77
Rediffusion building spaceflight simulators for public education 5/7, p. 107
Pilatus PC-9 trainer makes first flight 5/14, p. 25
SAC integrates B-52 weapons training 5/14, p. 81
Fantrainer specifications 5/21, p. 157
Germans prepare Fantrainer for rollout 5/21, p. 157
Swiss PC-9 turboprop trainer makes first flight 5/21, p. 23
Trainer/attack prototype rolls out in Taiwan 5/21, p. 25
ESA expands center for large payload satellites 5/28, p. 116
Hawk simulators 5/28, p. 147
Pilatus pushes PC-9 as trainer for RAF 5/28, p. 63
CH-47D maintenance trainer cuts cost 6/11, p. 49
French testing Epsilon trainer prior to introduction into air force service 6/11, p. 69
USAF evaluates new simulator imagery 6/11, p. 72
U.S. seeks larger Latin airport market 6/18, p. 40
Dassault delivers Mirage 2000 systems trainer 6/25, p. 223
Singer places AH-1S simulator in operation at Ft. Hood 7/9, p. 68
Embraer preparing Tucano trainers for Egypt 7/23, p. 119
Second Pilatus PC-9 trainer joins flight test program 8/20, p. 50
Swiss claim PC-7 hard points violate export law 8/20, p. 50
Harris Computer expands user access 8/20, p. 83
French start training on Thomson-CSF C-160 simulator 9/3, p. 183
U.S. simulated war game center begins operations 9/3, p. 201
GE builds advanced simulator training center 9/3, p. 243
Fairchild T-46A assembly on schedule 9/3, p. 275
Fairchild studies light missiles, A-10 follow-on as new efforts 9/3, p. 281
Three Fantrainers participate in German flight test program 9/3, p. 44
Simulator maintenance 9/3, p. 49
Malaysian A-4 Trainer makes first flight 9/3, p. 56
Discovery crew removed ice hazard with robot arm 9/10, p. 110
Vought increasing simulator realism 9/10, p. 165
Navy will lease Kfirs for Aggressor role 9/10, p. 43
Study raises doubt on EMP protection 9/17, p. 76
Simulator tests TV broadcast reaction 9/24, p. 73
Company plans new flight training concept 10/1, p. 105
Cockpit crew curriculums emphasize human factors 10/1, p. 99
Navy issues initial contract for T-45 10/8, p. 25
Argentines roll out new IA.63 jet trainer 10/8, p. 28
Togo to buy Epsilon trainer 10/15, p. 21
Argentine IA.63 trainer undergoes flight tests 10/22, p. 26
Valmet develops turbine-engine L-80TP trainer 10/22, p. 81
Boeing selected to build B-1B simulator 10/29, p. 21
Argentine trainer designed to lead to fighter project 10/29, p. 61
Argentines seek IA.63 export sales 10/29, p. 63
Australia takes first F/A-18 delivery 11/5, p. 18
Defense funds rise in Australian planning 11/5, p. 19
F-16 flight simulator 11/5, p. 23
USAF plans to ask multiengine trainer funding in 1987 11/12, p. 20
Japanese modify C-1 flight simulator 11/12, p. 93
United subsidiary receives award for USAF C-5 crew training 11/19, p. 23
Variety of new trainers compete for military market 11/19, p. 54
Cessna delays testing of navigation trainer 11/26, p. 30
Cubic Corp. upgrades air combat training system for Navy use 12/3, p. 157
Fokker 100 simulators 12/3, p. 53
Boeing shock tube tests nuclear blast overpressure 12/3, p. 63
Sweden buys helicopter antitank missile systems 12/10, p. 62

**SINGAPORE**
Singaporean charges U.S. flouts bilateral 9/24, p. 34
Singapore buys test unit 12/3, p. 161

**SPACE PHOTOGRAPHY**
Metric camera views from shuttle 2/20, p. 62
Shuttle crew photographed Soviet missile site 2/27, p. 18
Astronauts practice for future tasks 2/27, p. 37
Venus project team finds extensive volcanic activity 2/27, p. 44
Mission 9 astronauts photographed Soviet submarine, fighter bases at Petropavlosk 3/19, p. 17
U.S. space shuttle astronauts photographed Soviet flight test center 3/26, p. 17
Landsat 5 thematic mapper covers Gulf Coast 3/26, p. 19
Cameras record docking attempt, Solar Max repair 6/4, p. 40
Litton Itek prepares lenses for large format camera 6/25, p. 197
French to propose satellite imaging system 7/9, p. 61
NASA considers asteroid flyby for Galileo mission 9/24, p. 16
Mission 41-D photographs cover Earth views, crew duties 10/8, p. 44
Shuttle photographs nuclear accident site 10/15, p. 16
Shuttle Earth imagery spurs censorship debate 10/22, p. 18
Challenger gathers new Earth, ocean data 10/29, p. 54

**SPACE SHUTTLE**
General Dynamics prepares Centaur for shuttle launch 1/23, p. 51
**EOM 1**
  NASA advances date of science mission 2/20, p. 65
**General**
  APU treatment suspected in shuttle fires 1/2, p. 20
  NASA seeks improved shuttle main engines 1/9, p. 20
  NASA seeking bids on spacecraft that would supplement space shuttle 1/16, p. 17
  NASA planning 12 unmanned, 10 shuttle launches in 1984 1/16, p. 27
  Maneuvering unit keyed to simplicity 1/23, p. 42
  General Dynamics prepares Centaur for shuttle launch 1/23, p. 51
  Spacelab hardware to fly on 41 missions 2/13, p. 133
  3M, NASA sign memorandum on space materials processing 2/13, p. 16
  FAA, NASA review shuttle airspace security 2/20, p. 21
  Air Force plans security update at Vandenberg 2/20, p. 25
  Shuttle carrier refueling tests suspended 2/27, p. 21
  Japan shuttle contract 2/27, p. 23
  JPL set to integrate Galileo Jupiter probe with orbiter 2/27, p. 41
  Space agency completes long-duration exposure facility for Earth orbit 2/27, p. 47
  Shuttle transmission links will rely on fiber optics 3/12, p. 249
  Columbia engine tests 3/19, p. 21
  Shuttle tank contract 3/26, p. 25
  Indonesia weighs mission to recover Palapa B-2 4/2, p. 18
  French astronaut to fly on shuttle in 1985 4/2, p. 20
  NASA plans Landsat orbital repair 4/9, p. 16
  Shuttle to carry Chinese astronaut 4/9, p. 16
  Shuttle booster contract 4/16, p. 144
  Orbiter serviced by reduced crew at Edwards 4/23, p. 18
  Shift urged in shuttle landing site 4/23, p. 18
  China puts payload in geosynchronous orbit 4/23, p. 24
  Chinese reserve Ariane payload space 4/30, p. 18
  Contractors prepare for shuttle operation bids 4/30, p. 25
  Dispute grows over shift of USAF shuttle payloads 4/30, p. 25
  KSC airspace violations raise concern 4/30, p. 51
  NASA offers launch vehicle using space shuttle elements 5/14, p. 18
  Barge transports shuttle Enterprise to New York 5/14, p. 59
  RCA develops upper stage for shuttle 5/21, p. 167
  New shuttle upper stage 5/28, p. 29
  ESA plans Solar-Polar satellite launch in 1986 on U.S. shuttle 6/4, p. 54
  General Dynamics builds Centaur G-prime test article 6/11, p. 23
  Infrared pod on Columbia tail to measure reentry heating 6/18, p. 22
  Shuttle hitchhiker spurs business effort 6/25, p. 102
  Two firms ready to buy, produce shuttle orbiters 6/25, p. 116
  Getaway specials create new market for hardware 6/25, p. 138
  C2 Spacelines signs for shuttle slots, will lease cargo spacecraft 6/25, p. 144
  Sparx decision clouds imaging projects 6/25, p. 147
  Space shuttle to launch West Germany's Spacelab D1 mission with emphasis on materials research 6/25, p. 178
  Litton Itek prepares lenses for large format camera 6/25, p. 197
  Beggs foresees shuttle in private hands 6/25, p. 20
  USAF studies Talon Gold laser tracker design 6/25, p. 20
  NASA revises shuttle launch manifest 6/25, p. 201
  Fairchild seeks agreements on Leasecraft 6/25, p. 54
  Lovelace studies cancer research in space 6/25, p. 55
  Researchers developing space station concepts 6/25, p. 61
  Space telescope prepared for 1986 launch on shuttle 7/2, p. 61
  Spacelab payload processing activity quickens 7/2, p. 63
  Navstar processing facility work under way 7/16, p. 20
  Shuttle replacement engine arrives at launch pad 7/23, p. 115
  Technicians install x-ray experiment in Spacelab pallet 7/23, p. 70
  Johnson Space Center builds space station module mockup 7/23, p. 75
  Galileo to employ Sandia components 7/30, p. 19
  Shuttle launch facilities built at Vandenberg 8/6, p. 53
  NASA considering 1986 Sunlab scientific mission 8/6, p. 59
  Dornier takes loss on shuttle IPS unit 8/13, p. 155
  Matra readies echography for flight on space shuttle 8/13, p. 164
  New plasma welding method used on shuttle tank 8/13, p. 169
  Commercial Satcom rescue flight nears approval 8/13, p. 23
  NASA official urges transfer of mission control 8/27, p. 14
  U.S. adopts new space strategy 8/27, p. 14
  Foreign, civil launch services change U.S. government role 9/3, p. 229
  Shuttle gas generator 9/3, p. 238
  Teacher to fly shuttle 9/3, p. 52
  Columbia nosecap will collect pressure data 9/17, p. 22
  NASA to demonstrate artificial intelligence in flight operations 9/17, p. 79
  FAA bars flyers east of area during orbiter launch, landing 9/24, p. 25
  3M submits commercial program to NASA 10/8, p. 16
  NASA devises new shuttle price policy 10/8, p. 16
  3M to fly 10 additional getaway specials 10/15, p. 18
  Shuttle external tank arrives at Vandenberg 11/5, p. 67
  NASA invites Garn to fly on space shuttle 11/12, p. 22
  Tile problems delay Mission 51-C six weeks 11/12, p. 22
  External tank, shuttle to begin compatibility tests at Vandenberg 11/19, p. 71
  Pratt proposing design changes for shuttle engine powerhead 12/3, p. 121
  Dornier ships instrument pointing system to space center after delays 12/3, p. 124
  NASA to test new solid rocket booster cases 12/3, p. 129
  Garn, teacher orbiter flights expected in next realignment 12/3, p. 21
  Pace of artificial intelligence research shows acceleration 12/10, p. 24
  Facilities construction 12/10, p. 52
  Space shuttle launch support equipment installed at Vandenberg 12/10, p. 52
**Mission 9**
  Shuttle crew photographs Soviet sites 1/9, p. 19
  Investigators isolate source of shuttle APU fire 1/9, p. 20
  Metric camera views sent from shuttle 2/20, p. 62
  Shuttle crew photographed Soviet missile site 2/27, p. 18
  Mission 9 astronauts photographed Soviet submarine, fighter bases at Petropavlovsk 3/19, p. 17
  U.S. space shuttle astronauts photographed Soviet flight test center 3/26, p. 17
**Mission 10**
  Mission 10 slips to Feb. 3; NASA studies APU failure 1/2, p. 19
  Astronauts to perform untethered EVAs from shuttle 1/9, p. 44
  NASA refining Mission 10 countdown 1/23, p. 27
  NASA changes power units on Challenger 1/30, p. 27
  Astronauts evaluate maneuvering backpacks 2/13, p. 16
  Parachute problem damages boosters 2/13, p. 18
  Rocket motor failure analysis focuses on nozzle assembly 2/13, p. 19
  Crew validates rendezvous sensor units 2/13, p. 22
  Loss of two satellites expected to double insurance premiums 2/13, p. 23
  Growth pains for shuttle 2/20, p. 11
  EVAs, landing highlight Shuttle 10 2/20, p. 16
  Florida landing cuts turnaround 2/20, p. 20
  Astronauts practice for future tasks 2/27, p. 37
  PAM failures on Shuttle 10 delay Galaxy launch 3/26, p. 18
  Materials scrutinized in PAM failures 4/2, p. 18
  Exposure facility carries 57 payloads 4/2, p. 45
  Investigators continue to study PAM failure 5/14, p. 25
  Nozzle exit cones cited in PAM failure 10/29, p. 27
**Mission 41-C**
  Mission 11 faces brief launch windows 3/19, p. 21
  Mission 11 crew conducts countdown test 3/26, p. 21
  Tight pace challenges Solar Max repair 3/26, p. 42
  Shuttle to make direct orbit insertion launch 4/2, p. 46
  Solar Max repair uses special tools 4/2, p. 47
  Black Sunday...fat Tuesday 4/16, p. 13
  Orbiter crew restores Solar Max 4/16, p. 18
  Long duration facility deployed successfully 4/16, p. 20
  Goddard Center stops solar spacecraft tumbling 4/16, p. 26
  Engineers study low propulsion ascent 4/16, p. 27
  Aftermath of a rescue 4/23, p. 13
  Shuttle main engine certificated for 20 flights 4/23, p. 156
  Pin scrutinized in Solar Max docking problem 4/23, p. 23
  Adaptive guidance steepened shuttle ascent 4/30, p. 17
  Cameras record docking attempt, Solar Max repair 6/4, p. 40
**Mission 41-D**
  NASA plans next shuttle mission for June 20 4/23, p. 24
  Discovery cleared for June 22 launch 6/11, p. 20
  Change of engine delays Discovery's initial launch 6/18, p. 18
  Discovery will erect 102-ft. structure 6/18, p. 57
  Industrial astronaut to fly with biological machine 6/18, p. 67
  Technicians install large format camera for Mission 41D 6/25, p. 107
  NASA assesses effects of failure launch of Discovery 7/2, p. 16
  Shuttle abort challenges controllers at Kennedy 7/2, p. 18
  NASA ponders shuttle payload options 7/9, p. 19
  Discovery rescheduled to late August 7/16, p. 24
  Cargo bay of Discovery being reconfigured 7/23, p. 20
  Discover in VAB 8/6, p. 26
  Discovery rigged for quick payload change 8/13, p. 24
  Discovery cleared for Aug. 29 launch with heaviest weight 8/27, p. 17
  Insurers express worry amid final launch plans 8/27, p. 17
  Orbiter Discovery carries three Comsats into space 9/3, p. 52
  Joint action prevents loss of drug project on shuttle 9/10, p. 105
  Competing company satellites share Discovery's payload bay 9/10, p. 106
  Master controller software error delayed mission count 9/10, p. 107
  Discovery crew removed ice hazard with robot arm 9/10, p. 110
  Discovery fulfills all mission objectives 9/10, p. 40
  Rockwell backs student project on Discovery 9/10, p. 41
  Mission bolsters commercial viability 9/10, p. 95
  NASA concerned about booster dynamics 9/10, p. 99
  Texas Instruments chip linked to shuttle delay 9/17, p. 23
  Discovery deploys satellites, test array 9/24, p. 49
  Mission 41-D photographs cover Earth views, crew duties 10/8, p. 44
  Space processed hormone found contaminated, unusable 11/12, p. 18
**Mission 41-E**
  USAF cancels July IUS shuttle mission 2/13, p. 22
**Mission 41-F**
  NASA ponders shuttle payload options 7/9, p. 19
**Mission 41-G**
  NASA revising shuttle, cargo assignments 6/4, p. 47
  Oceanographer will fly shuttle mission 6/18, p. 29
  Kennedy Space Center technicians process shuttle radar laboratory for flight 6/25, p. 115
  Challenger towed to pad 39A for Oct. 4 launch 9/17, p. 27
  Radiation satellite designed 9/17, p. 41
  Documentation is involved in delay of shuttle 9/24, p. 14
  Shuttle plan emphasizes Earth survey 9/24, p. 38
  Canadian crewman on shuttle revives two-year-old plan 9/24, p. 50
  Challenger crew obtains significant science data 10/15, p. 16
  Shuttle photographs nuclear accident site 10/15, p. 16
  Astronaut, ground crew action solves ERBS deployment issue 10/15, p. 19
  TDRS tumbling interrupts communications 10/15, p. 20
  Shuttle payload creates space sculpture 10/15, p. 21
  Shuttle Earth imagery spurs censorship debate 10/22, p. 18
  Shuttle's reentry path passes directly over central U.S. 10/22, p. 22
  Challenger gathers new Earth, ocean data 10/29, p. 54
  Shuttle tile loss traced to agent in waterproofing 11/5, p. 14
**Mission 51-A**
  3M prepares shuttle experiment 10/29, p. 22
  Shuttle Mission 51-A preparations continue 10/29, p. 23
  Westar, Palapa positioned for rendezvous with shuttle 11/5, p. 21
  Satellite retrieval linked to precise orbit control 11/5, p. 66
  Shuttle set to rendezvous with communication satellites 11/12, p. 22
  Satellite retrieval succeeds despite equipment problem 11/19, p. 16
  Shuttle deploys two communications satellites 11/19, p. 19
  Down the learning curve 11/26, p. 13
  Astronauts deploy, retrieve satellites 11/26, p. 20
  Palapa, Westar processed at NASA facility 11/26, p. 23
  Satellite rescue made possible by detailed contingency plans 12/10, p. 46
**Mission 51-C**
  IUS hardware delivered for shuttle launches 9/24, p. 17
  Challenger readied for Defense Dept. mission 10/22, p. 25
  Military to withhold shuttle liftoff time 11/5, p. 14
  Tile problems delay Mission 51-C six weeks 11/12, p. 22
  Shuttle tile waterproofing will be tested on next launch 12/10, p. 23
**Mission 51-E**
  France will fly second biology package on shuttle 12/10, p. 56
**Mission 51-H**
  NASA managers want to cancel Spacelab flight to cover delays 11/26, p. 26
**Mission 61-J**
  Perkin-Elmer completes fabrication of telescope assembly 9/17, p. 20
  Company ends electrical tests on telescope 9/24, p. 55
**USSR**
  USSR's reusable orbiter nears approach, landing tests 12/3, p. 18

**SPACE STATIONS, PLATFORMS, STRUCTURES**
Soviets end winged spacecraft orbital test in Black Sea 1/2, p. 14
NASA budget includes station funding 1/23, p. 25
Soviets emphasize station, booster efforts 1/23, p. 26
President orders start on space station 1/30, p. 16
Station decision overrode strong opposition 1/30, p. 16

Space station funding bid adds new NASA line item 2/6, p. 25
NASA head schedules European visit 2/13, p. 18
Germany, Italy propose space station 2/20, p. 55
Mitterand outlines military space station 2/20, p. 61
Soviets try to outpace U.S. technology in space 3/12, p. 111
TRW develops design for permanent space station 3/12, p. 114
Lockheed develops concept for advanced space station 3/12, p. 118
Europe weighs station, launcher plans 3/12, p. 123
Beggs cites need for European funding of U.S. space station 3/12, p. 271
NASA to shift focus with space station 3/12, p. 99
Soviet Salyut mission 3/26, p. 20
House panel approves funds for space station 3/26, p. 26
Long duration facility deployed successfully 4/16, p. 20
Space station manager 4/16, p. 26
Johnson mockup aiding station design 5/7, p. 103
Salyut 7 cosmonauts continue repair EVAs 5/14, p. 20
Senate unit votes space station funds 5/14, p. 25
NASA defining technology required by space station 5/14, p. 80
Companies develop space station concepts 5/28, p. 122
Japanese planning space station studies 5/28, p. 26
Europeans hesitate on U.S. space station plan 6/4, p. 24
House funds space stations in NASA bill 6/4, p. 26
Soviet space station will carry own defense 6/11, p. 18
Europe pushes space station role 6/18, p. 16
Discovery will erect 102-ft. structure 6/18, p. 57
Space Industries, Inc., to begin marketing unmanned facility 6/25, p. 116
NASA asks wider industry role in processing work 6/25, p. 120
Eureca marketing keyed to platform cost 6/25, p. 145
Europe outlines future space plan 6/25, p. 16
Hodge urges caution in space station pace 6/25, p. 16
U.S., European leaders debate roles in planned development of space station 6/25, p. 187
Researchers developing space station concepts 6/25, p. 61
Fairchild designs Leasecraft as space platform 6/25, p. 93
Europeans develop long-term space transportation concepts 7/2, p. 23
Vibration damping studied for weapons in space 7/2, p. 54
U.S. space agency narrows station concepts 7/9, p. 14
ESA approves two studies for future space presence 7/9, p. 17
Cooperation on space station 7/9, p. 9
Congressional study questions requirement for space station 7/16, p. 22
NASA studies station cost control measures 7/16, p. 27
Soyuz T-12 crew docks with Salyut 7/23, p. 23
Spaceplane called a weapons platform 7/23, p. 70
Johnson Space Center builds space station module mockup 7/23, p. 75
Woman cosmonaut participates in Salyut EVA 7/30, p. 23
Marshall awards contracts for key space programs 8/13, p. 161
MBB, Aeritalia will produce Columbus module 8/20, p. 20
Soviets resupply Salyut, provide EVA details 8/20, p. 25
Companies to study space platform payload mix 8/20, p. 65
Soviets monitor Cosmonauts during EVA 8/20, p. 82
NASA issues draft RFP for space station 8/27, p. 15
Savitskaya demonstrates metal work during Salyut EVA 9/3, p. 231
British design satellite transfer vehicle 9/3, p. 241
NOAA seeks man-tended free flyer 9/10, p. 151
NASA preparing 412 space station contracts 9/17, p. 16
Station likely to be hit by debris 9/17, p. 16
Data indicate station needs protective layers 9/17, p. 18
Engineers study station assembly concepts 9/17, p. 19
NASA requests design proposals for unmanned space platform to fly with station 9/24, p. 14
Salyut 7 crew prepared to end record flight 10/1, p. 29
Cosmonauts land after 237-day flight 10/8, p. 17
SDI plans comprehensive option study 10/8, p. 20
Japanese station initiative 10/15, p. 28
Europeans want space stations rights defined 10/22, p. 101
Engineers facing challenges in design of space station 10/22, p. 97
Space ground station completed near Tokyo 11/5, p. 16
Shuttle external tank arrives at Vandenberg 11/5, p. 67
Space station plan 11/12, p. 21
Soviet Cosmos spacecraft providing land, sea imagery 11/12, p. 212
The next four years 11/19, p. 11
Spacelab adding members 11/19, p. 22
Manned U.S. lunar station wins support 11/19, p. 73
Congressional report attacks NASA's justification of station 11/26, p. 80
British aerospace downscales its proposed space platform 11/26, p. 81
Hardware integration held key challenge to space station 11/26, p. 84
Lockheed defines sleeping quarters for NASA's space station 12/3, p. 125
French seek inclusion of Hermes shuttle in ESA's space program 12/3, p. 20
Europe, U.S. near agreement on station studies 12/3, p. 23
More than 100 organizations team on 13 space station bids 12/3, p. 25

## SPACE TECHNOLOGY

**Argentina**
Argentina performing solar research 11/12, p. 218
**Brazil**
Brazil plans to launch its own satellites in 1990s 7/9, p. 60
**Canada**
Canadian astronaut choice initiates program 4/16, p. 175
Spar targets third world as key market 9/10, p. 141
Canadian crewman on shuttle revives two-year-old plan 9/24, p. 50
**China**
Chinese launch 2/6, p. 25
Chinese satellite fails to reach proper orbit 3/12, p. 100
China puts payload in geosynchronous orbit 4/23, p. 24
Chinese reserve Ariane payload space 4/30, p. 18
Chinese satellite 9/24, p. 16
China offers space launch services 10/8, p. 48
**Europe**
ESA uses Soviet data in comet mission 1/2, p. 46
Arabsat being prepared for launch on Ariane 1/23, p. 49
Spain to modernize aerospace industry 1/23, p. 93
Giotto construction is meeting schedule 2/13, p. 119
West Germany objects to ERS satellite costs 2/20, p. 61
Intelsat launch on Ariane 1 scheduled for early March 2/20, p. 65
ESA upgrades space command center 3/5, p. 62
Aerospatiale continues development, production on Ariane 3, 4 launchers 3/5, p. 63
ESA boosts GEOS-2 to new orbit 3/5, p. 67
Europe plans 30 missions with Ariane 3/12, p. 103
Europe weighs station, launcher platforms 3/12, p. 123
Ariane cleared to start commercial launches 3/12, p. 271
Beggs cites need for European funding of U.S. space station 3/12, p. 271
Intelsat plans launch on Ariane 4 4/2, p. 20
Second Ariane pad nears completion 4/23, p. 151
GTE/Spacenet readies satellite for Ariane launch 5/14, p. 22
Eutelsat considering third ECS launch 5/28, p. 115
ESA expands center for large payload satellites 5/28, p. 116
ESA will negotiate with MBB, Aerospatiale for ISO satellite 5/28, p. 122
GTE Spacenet launch initiates commercial Ariane program 5/28, p. 28
Europeans hesitate on U.S. space station plan 6/4, p. 24
U.S. space company files complaint on Arianespace 6/4, p. 24
ESA plans Solar-Polar satellite launch in 1986 on U.S. shuttle 6/4, p. 54
Europe pushes space station role 6/18, p. 16
Thomson-CSF resolves Satcom tube problems 6/18, p. 23
ESA awards launcher engine study contract 6/18, p. 69
ESA's Olympus will test communications packages 6/25, p. 146
Sparx decision clouds imaging projects 6/25, p. 147
Spot Earth-resources program accelerates to commercial use 6/25, p. 148
Europe outlines future space plan 6/25, p. 16
British ship Giotto spacecraft to France 6/25, p. 188
British Dynamics prepares Marecs B2 for November launch 6/25, p. 87
Europe offers weather satellite to Japan 7/2, p. 21
ESA replies to charges on Arianespace pricing 7/2, p. 22
Europeans develop long-term space transportation concepts 7/2, p. 23
ESA preparing to produce ERS-1 satellite 7/2, p. 25
ESA approves two studies for future space presence 7/9, p. 17
Ariane 3 readied for first flight 7/23, p. 77
Arianespace sets new pricing policy 7/23, p. 77
CNES studies Ariane 5P 7/23, p. 79
European astronauts form association 7/30, p. 18
West screens Inmarsat technical bids 7/30, p. 18
Ariane 3 will be launched with two strap-on boosters 7/30, p. 68
Ariane places two satellites in proper orbit 8/13, p. 19
Meteosat proposal 8/13, p. 84
Europeans question value of U.S. subcontract work 9/3, p. 189
ESA astronomy probe's launch is set for 1988 9/3, p. 221
Europeans endorse scientific cooperation 9/24, p. 15
French Laser Gyro selected for Ariane 4 10/15, p. 24
Europeans want space stations rights defined 10/22, p. 101
Spacelab adding members 11/19, p. 22
Europeans plan common TV channel 11/26, p. 18
NASA managers want to cancel Spacelab flight to cover delays 11/26, p. 26
French seek inclusion of Hermes shuttle in ESA's space program 12/3, p. 20
Europe, U.S. near agreement on station studies 12/3, p. 23
ESA designs semi-reusable launch system 12/10, p. 21
European Halley flyby probe completing test series at Toulouse 12/10, p. 55
**France**
French, Soviets define observation platform 2/20, p. 55
French astronaut to fly on shuttle in 1985 4/2, p. 20
France to put SEP Ariane engine company under Snecma control 5/21, p. 28
Spot Earth-resources program accelerates to commercial use 6/25, p. 148
French develop plans for small space shuttle 6/25, p. 17
Ground terminal 7/2, p. 22
French to propose satellite imaging system 7/9, p. 61
CNES studies Ariane 5P 7/23, p. 79
France changes industry managers 8/6, p. 24
Matra readies echography for flight on space shuttle 8/13, p. 164
Matra offers small, low-cost satellite 8/20, p. 65
Matra deploys solar panels on Telecom-1 9/3, p. 116
French film Ariane, booster separation 10/15, p. 47
Aerospatiale prepares Ariane 3 first stage for shipment 12/3, p. 20
French seek inclusion of Hermes shuttle in ESA's space program 12/3, p. 20
France will fly second biology package on shuttle 12/10, p. 56
**Germany**
Germans complete solar array for European L-Sat satellite 1/9, p. 63
Germany, Italy propose space station 2/20, p. 55
West Germany objects to ERS satellite costs 2/20, p. 61
Metric camera views sent from shuttle 2/20, p. 62
Sparx decision clouds imaging projects 6/25, p. 147
Space shuttle to launch West Germany's Spacelab D1 mission with emphasis on materials research 6/25, p. 178
German Spacelab mission will concentrate on pure research 6/25, p. 94
Triple-satellite payload assembly completed at Kennedy 8/6, p. 17
Triple satellite payload to study Van Allen Belts 8/6, p. 54
Dornier takes loss on shuttle IPS unit 8/13, p. 155
MBB, Aeritalia will produce Columbus module 8/20, p. 20
Triple satellite mission launched 8/20, p. 27
Germany starts building X-ray satellite 8/20, p. 80
**Great Britain**
British Dynamics prepares Marecs B2 for November launch 6/25, p. 87
Triple-satellite payload assembly completed at Kennedy 8/6, p. 17
Triple satellite payload to study Van Allen Belts 8/6, p. 54
Triple satellite mission launched 8/20, p. 27
British design satellite transfer vehicle 9/3, p. 241
British study shuttle competitor 9/3, p. 245
British expect large transfer vehicle market 9/3, p. 47
British satellite transfer vehicle will deploy two satellites 9/10, p. 153
Simulator tests TV broadcast reaction 9/24, p. 73
British aerospace downscales its proposed space platform 11/26, p. 81
**India**
Joint Soviet/Indian crew docks with Salyut station 4/9, p. 19
**International**
Soviets to aid Halley's comet observations 1/2, p. 20
Space exposition planned at Zurich 3/5, p. 61
IAF Congress 6/4, p. 20
U.S. walks out of U.N. space meeting 6/25, p. 18
**Italy**
Germany, Italy propose space station 2/20, p. 55
Italian/U.S. satellites 3/19, p. 97
MBB, Aeritalia will produce Columbus module 8/20, p. 20
Italy plans cabinet-level space agency 9/24, p. 19
**Japan**
Japan will launch ETS-5 satellite in 1987 1/2, p. 21
Japan funds launcher satellite development 2/13, p. 125
Japan prepares for next space phase 3/12, p. 129
Council sets Japan's space goals 3/12, p. 130
Japan orders study of BS-2A satellite failure 5/14, p. 24
Loss of satellite sparks complaint by Japan 5/21, p. 18
Earth sensors further Japan's efforts 6/25, p. 151
Europe offers weather satellite to Japan 7/2, p. 21
Japan will launch third meteorological satellite 7/9, p. 26
Japanese H-2 Booster wins approval 7/30, p. 68
Japanese select launcher with heavy-lift capability 8/13, p. 162
Meteosat proposal 8/13, p. 84
Japanese study space Commerce 8/20, p. 14
Japanese station initiative 10/15, p. 28
Japanese ministry plans 60-70 transponder satellites 11/5, p. 16
Space ground station completed near Tokyo 11/5, p. 16
**Sweden**
Saab displays Tele-X Satcom at Farnborough 10/22, p. 97
**U.S.**
Researchers discover material orbiting star 1/2, p. 48
Space agency develops high-power camera for use with space telescope 1/2, p. 63
Shuttle crew photographs Soviet sites 1/9, p. 19
Investigators isolate source of shuttle APU fire 1/9, p. 20
Astronauts to perform untethered EVAs from shuttle 1/9, p. 44
Payload specialists 1/16, p. 16
NASA budget includes station funding 1/23, p. 25
NASA refining Mission 10 countdown 1/23, p. 27
Maneuvering unit keyed to simplicity 1/23, p. 42
Rockwell tests model of Teal Ruby system 1/23, p. 52
Soviets fly NASA hardware 1/23, p. 67
NASA awards contract for high atmosphere ozone experiment 1/23, p. 68
Reagan's space challenge 1/30, p. 11

Space suit penalty 2/6, p. 25
NASA lists fiscal 1985 budget request 2/6, p. 26
Spacelab hardware to fly on 41 missions 2/13, p. 133
3M, NASA sign memorandum on space materials processing 2/13, p. 16
Astronauts evaluate maneuvering backpacks 2/13, p. 16
NASA head schedules European visit 2/13, p. 18
Rocket motor failure analysis focuses on nozzle assembly 2/13, p. 19
Crew validates rendezvous sensor units 2/13, p. 22
Growth pains for shuttle 2/20, p. 11
Florida landing cuts turnaround 2/20, p. 20
Metric çamera views sent from shuttle 2/20, p. 62
NASA advances date of science mission 2/20, p. 65
Astronauts practice for future tasks 2/27, p. 37
JPL set to integrate Galileo Jupiter probe with orbiter 2/27, p. 41
Venus project team finds extensive volcanic activity 2/27, p. 44
Space exposition planned at Zurich 3/5, p. 61
USAF reviews surveillance system technology 3/5, p. 62
Defense Dept. space plan designed for user needs 3/12, p. 103
NASA will stress environmental studies 3/12, p. 107
Soviets strive to outspace U.S. technology in space 3/12, p. 111
Lockheed develops concept for advanced space station 3/12, p. 118
Italian/U.S. satellites 3/19, p. 97
Space sensor planned to detect cruise missiles 3/26, p. 16
USAF spurs spaceplane research 3/26, p. 16
DARPA studying manned space cruiser 3/26, p. 20
Mission 11 crew conducts countdown test 3/26, p. 21
Repaired Solar Max would observe Halley's comet 3/26, p. 26
Orbital sciences signs pact on stage program 3/26, p. 53
Exposure facility carries 57 payloads 4/2, p. 45
Lockheed builds sensor for atmospheric mission 4/9, p. 76
Black Sunday...fat Tuesday 4/16, p. 13
New radar unit cuts Venus mapper cost 4/16, p. 141
NASA selects contractors for Topex program 4/16, p. 157
NASA believes EVAs valid despite recovery problem 4/16, p. 21
NASA seeks cause of docking failure 4/16, p. 25
Goddard Center stops Solar spacecraft tumbling 4/16, p. 26
Astrotech opens commercial satellite processing facility 4/23, p. 156
Adaptive guidance steepened shuttle ascent 4/30, p. 17
Contractors prepare for shuttle operation bids 4/30, p. 25
Lockheed tests large space antenna 4/30, p. 66
Johnson mockup aiding station design 5/7, p. 103
Rediffusion building spaceflight simulators for public education 5/7, p. 107
Galileo to employ cosmic ray-resistant parts 5/7, p. 20
NOAA seeks contributions to continue second polar Metsat 5/14, p. 76
U.S. urged to negotiate treaty based upon freedom of space 5/28, p. 118
NASA names 17 astronaut candidates 5/28, p. 29
Europeans hesitate on U.S. space station plan 6/4, p. 24
U.S. space company files complaint on Arianespace 6/4, p. 24
Cameras record docking attempt, Solar Max repair 6/4, p. 40
Discovery cleared for June 22 launch 6/11, p. 20
Astronauts suggest improved space-ground links for station 6/18, p. 16
Change of engine delays Discovery's initial launch 6/18, p. 18
Infrared pod on Columbia tail to measure reentry heating 6/18, p. 22
IRAS may have recorded interacting galaxies 6/18, p. 26
Oceanographer will fly shuttle mission 6/18, p. 29
Discovery will erect 102-ft. structure 6/18, p. 57
Industrial astronaut to fly with biological machine 6/18, p. 67
Pioneer orbiter tested for Halley mission 6/18, p. 79
Technicians install large format camera for Mission 41D 6/25, p. 107
Space as a business 6/25, p. 11
Kennedy Space Center technicians process shuttle radar laboratory for flight 6/25, p. 115
Astrotech sees military uses for stage 6/25, p. 158

NASA requests design proposals for unmanned space platform to fly with station 9/24, p. 14
Shuttle plan emphasizes Earth survey 9/24, p. 38
Fairchild assembling thermal control louvers 9/24, p. 56
USAF pushes survivability of satellites 9/24, p. 71
3M submits commercial program to NASA 10/8, p. 16
Mission 41-D photographs cover Earth views, crew duties 10/8, p. 44
Challenger crew obtains significant science data 10/15, p. 16
3M to fly 10 additional getaway specials 10/15, p. 18
Astronaut, ground crew action solves ERBS deployment issue 10/15, p. 19
Shuttle Earth imagery spurs censorship debate 10/22, p. 18
Shuttle's reentry path passes directly over central U.S. 10/22, p. 22
Engineers facing challenges in design of space station 10/22, p. 97
More decisive than it looks 10/29, p. 11
Space power project moves to SDI office 10/29, p. 19
NASA promotes commercialization of space to automobile makers 10/29, p. 21
Shuttle tile loss traced to agent in waterproofing 11/5, p. 14
President signs bill aimed at restoring cooperation in space 11/5, p. 16
NASA readies new communications net 11/5, p. 17
Reagan victory margin aids defense, space objectives 11/12, p. 16
Scientists see delay in climate change detection 11/12, p. 217
The next four years 11/19, p. 11
Satellite retrieval succeeds despite equipment problem 11/19, p. 16
Increase foreseen in space insurance rates 11/19, p. 18
External tank, shuttle to begin compatibility tests at Vandenberg 11/19, p. 71
Manned U.S. lunar station wins support 11/19, p. 73
Astronomers locate possible solar system around star 11/19, p. 99
Down the learning curve 11/26, p. 13
NASA formulates policy to spur private investment 11/26, p. 18
Congressional report attacks NASA's justification of station 11/26, p. 80
Hardware integration held key challenge to space station 11/26, p. 84
Pratt proposing design changes for shuttle engine powerhead 12/3, p. 121
More than 100 organizations team on 13 space station bids 12/3, p. 25
Joint staff to shape space command 12/10, p. 21
Satellite rescue made possible by detailed contingency plans 12/10, p. 46
SDI pushes space surveillance effort 12/10, p. 57
Current technologies could aid in implementing Reagan's SDI policy 12/10, p. 75

### USSR

Soviets end winged spacecraft orbital test flight in Black Sea 1/2, p. 14
Soviets to aid Halley's comet observations 1/2, p. 20
ESA uses Soviet data in comet mission 1/2, p. 46
Shuttle crew photographs Soviet sites 1/9, p. 19
Soviets make 14 launches, bringing 1983 total to 98 1/9, p. 20
Soviets emphasize station, booster efforts 1/23, p. 26
Soviets fly NASA hardware 1/23, p. 67
French, Soviets define observation platform 2/20, p. 55
Japan prepares for next space phase 3/12, p. 129
Soviet Salyut mission 3/26, p. 20
Joint Soviet/Indian crew docks with Salyut station 4/9, p. 19
Soviet Union continues military buildup 4/23, p. 53
Cosmonauts conduct 5-hr. EVA to install new propellant valve 4/30, p. 18
Salyut 7 cosmonauts continue repair EVAs 5/14, p. 20
Soviet space station will carry own defense 6/11, p. 18
Soyuz T-12 crew docks with Salyut 7/23, p. 23
Spaceplane called a weapons platform 7/23, p. 70
Woman cosmonaut participates in Salyut EVA 7/30, p. 23
Matra readies echography for flight on space shuttle 8/13, p. 164
Soviets resupply Salyut, provide EVA details 8/20, p. 25
Soviets monitor Cosmonauts during EVA 8/20, p. 82
Soviets ready new boosters at Tyuratam 8/27, p. 18
Savitskaya demonstrates metal work during Salyut EVA 9/3, p. 231
Salyut 7 crew prepared to end record flight 10/1, p. 29
Cosmonauts land after 237-day flight 10/8, p. 17
Soviets form Cosmos radar data network 10/15, p. 23
Two landers targeted for Venus' night side 10/15, p. 23
Cosmos 1,603 conducts space maneuvers 10/22, p. 24
President signs bill aimed at restoring cooperation in space 11/5, p. 16
Soviets orbit seven military spacecraft 11/5, p. 70
Soviet Cosmos spacecraft providing land, sea imagery 11/12, p. 212
Soviet Jupiter interest 12/3, p. 18
USSR's reusable orbiter nears approach, landing tests 12/3, p. 18

## SPACE TELESCOPES

Space agency develops high-powered camera for use with space telescope 1/2, p. 63
French, Soviets define observation platform 2/20, p. 55
NASA preparing space telescope for launch in 1986 3/12, p. 100
Goddard Center to link astronomers with space telescope 3/26, p. 63
Space telescope prepared for 1986 launch on shuttle 7/2, p. 61
Perkin-Elmer cleans space telescope primary mirror 7/16, p. 21
Technicians install x-ray experiment in spacelab pallet 7/23, p. 70
IPS delivery delayed further 8/6, p. 20
IPS delivery delayed further 8/6, p. 20
Germany starts building X-ray satellite 8/20, p. 80
ESA astronomy probe's launch is set for 1988 9/3, p. 221
Station likely to be hit by debris 9/17, p. 16
Perkin-Elmer completes fabrication of telescope assembly 9/17, p. 20
Company ends electrical tests on telescope 9/24, p. 55
TRW develops concept for Astrophysics facility 10/8, p. 48

## SPACE VEHICLES

Soviets end winged spacecraft orbital test flight in Black Sea 1/2, p. 14
Soviets to aid Halley's comet observations 1/2, p. 20
ESA uses Soviet data in comet mission 1/2, p. 46
NASA seeking bids on spacecraft that would supplement space shuttle 1/16, p. 17
Giotto construction is meeting schedule 2/13, p. 119
JPL set to integrate Galileo Jupiter probe with orbiter 2/27, p. 41
Venus project team finds extensive volcanic activity 2/27, p. 44
Japan prepares for next space phase 3/12, p. 129
USAF spurs spaceplane research 3/26, p. 16
DARPA studying manned space cruiser 3/26, p. 20
NASA selects contractors for Topex program 4/16, p. 157
RCA develops upper stage for shuttle 5/21, p. 167
USAF studies transatmospheric vehicle 5/28, p. 25
ESA plans Solar-Polar satellite launch in 1986 on U.S. shuttle 6/4, p. 54
French fix Hermes mini-shuttle size 6/11, p. 18
Pioneer orbiter tested for Halley mission 6/18, p. 79
Shuttle hitchhiker spurs business effort 6/25, p. 102
French develop plans for small space shuttle 6/25, p. 17
Users challenging policies of Japan 6/25, p. 190
Medicine sales forecast at $1 billion 6/25, p. 52
Gamma ray project spurs TRW efficiency measures 7/9, p. 62
Upper stage spacecraft 7/16, p. 26
Spaceplane called a weapons platform 7/23, p. 70
Galileo to employ Sandia components 7/30, p. 19
NASA studies Spartan project delay effects 7/30, p. 69
NASA considering 1986 Sunlab scientific mission 8/6, p. 59
Marshall awards contracts for key space programs 8/13, p. 161
Soviets resupply Salyut, provide EVA details 8/20, p. 25
Japan GMS-3 Metsat nears orbital station 8/20, p. 81
U.S. adopts new space strategy 8/27, p. 14
LTV develops orbital maneuvering vehicle concept 8/27, p. 60
British design satellite transfer vehicle 9/3, p. 241
British expect large transfer vehicle market 9/3, p. 47

Fairchild assembling thermal control louvers 9/24, p. 56
Two landers targeted for Venus' night side 10/15, p. 23
Soviets orbit seven military spacecraft 11/5, p. 70
French seek inclusion of Hermes shuttle in ESA's space program 12/3, p. 20
Planetary probe incorporates existing design elements 12/10, p. 46
European Halley flyby probe completing test series at Toulouse 12/10, p. 55

**SPAIN**
CASA assembling 32 BO.105 helicopters 1/23, p. 93
Spain to modernize aerospace industry 1/23, p. 93
NASA shift to space data relay consolidates Spanish stations 1/23, p. 94

**SPARE PARTS**
Spares changes concern industry 1/23, p. 16
Manufacturing of own spares saving millions for Air Force 1/23, p. 19
Defense Dept. proposing warranty mandate repeal 2/20, p. 44
Litton accedes to Navy parts, data request 2/27, p. 28
USAF lifts engine parts supplier suspension 3/5, p. 24
Anatomy of a horror story 3/19, p. 11
Bill would limit proprietary rights on parts 3/19, p. 25
Supply changes boost aircraft utilization 3/19, p. 73
Northrop offers logistic support with F-20 3/26, p. 22
Spares firms oppose proprietary limits 3/26, p. 22
Air Force seeks voluntary refund on F100 part 3/26, p. 27
Military studies private spares data use 3/26, p. 61
House panel votes to cut spares proprietary rights 4/9, p. 22
USAF warns industry on spares costs 4/16, p. 175
Lack of spares hinders Italy's Tornados 4/16, p. 72
Senator urges legislative limit to proprietary rights 5/7, p. 80
Senate panel may ease spare parts plan 5/21, p. 22
House bill would form teams to broaden bidding on spares 6/4, p. 20
Senate funding bill shifts spares policy 6/4, p. 20
House legislation restricts spare parts sole sourcing 6/4, p. 22
Quantity cited as spares cost factor 6/11, p. 25
Defense study opposes proprietary rights limit 6/18, p. 24
USAF secretary extends spares disposal freeze 6/25, p. 25
Dueling with industry 7/16, p. 11
Navy upgrades document management 7/16, p. 18
Defense Dept. issues final rule on price increases of spares 7/23, p. 135
Computer controls schedule of B-1B spare parts production 8/13, p. 74
Munitions control office plans eased spares export licensing 8/13, p. 88
Exports of U.S. aircraft, parts falling in 1984 8/20, p. 24
Pentagon studies stricter audit effects 8/20, p. 71
Schweizer builds, delivers Hughes Model 300C following licensing agreement 8/20, p. 78
Lack of spare parts undercuts Air Force's flying-hour goals 9/3, p. 291
Congress directs USAF to buy 707s for spares 9/10, p. 132
Duncan Aviation plans parts center 10/1, p. 123
More posturing over procurement 10/1, p. 13
New spare rules 10/1, p. 25
New procurement rules may raise costs 10/22, p. 117
Fiscal 1984 competitive procurement statistics 12/3, p. 149

**STOL, V/STOL**
Improved testing methods enhancing research 1/16, p. 101
Rolls tests U.S. Navy/McDonnell Douglas STOVL model 4/23, p. 26
Fixed-wing V/STOL joins NASA research fleet 5/7, p. 14
Lockheed developing cross-ducting propulsion system 5/7, p. 21
Lockheed tests high technology L-100-20 7/9, p. 48
Witnesses urge area navigation to solve congestion at airports 8/6, p. 41
McDonnell Douglas to develop STOL F-15 10/8, p. 21
British expand SkyHook launch system uses 10/22, p. 65
British design retractable hook-on device enabling all harrier aircraft to use SkyHook 10/22, p. 67
Navy awards contract for night-attack AV-8B 11/19, p. 27

**STRATEGIC ARMS LIMITATION TALKS**
Interagency review lists Soviet arms violations 1/30, p. 60
The rhetoric gets rougher 6/11, p. 11

**STRIKES, BOYCOTTS, JOB ACTIONS**
Bankruptcy court supports Continental filing 1/23, p. 35
Continental sues IAM 2/6, p. 32
Sabena agrees to pay increases 4/2, p. 29
Pilots to be sentenced 4/30, p. 27
FAA probes harassment of Continental 5/7, p. 30
Contract dispute 7/2, p. 32
Beech employees return to work after strike 9/3, p. 273
Union pension concern sparks walkout 9/17, p. 39

**SUDAN**
Metric camera views from shuttle 2/20, p. 62

**SURVEILLANCE**
USAF reviews surveillance system technology 3/5, p. 62
Soviets try to outspace U.S. technology in space 3/12, p. 111
TAC studies tethered aerostats for Arctic use 3/19, p. 64
Radar systems provide early warning network 3/19, p. 80
USAF hones air defense capabilities 3/19, p. 85
Dassault expecting production approval of ATL2 patrol aircraft 4/16, p. 63
NATO awards contract 4/23, p. 178
Soviets fill low-altitude air defense gap 4/23, p. 55
Customs Service adds four Citation 2s to its drug detection fleet 5/7, p. 17
Gulfstream completes first SRA-1 for military surveillance and reconnaissance 5/28, p. 24
Satellites link mobile communications 6/25, p. 197
Army will test airborne space sensor 7/2, p. 47
France basing Gardian aircraft in Pacific 7/23, p. 131
Scientists observe satellites for GEODSS facility in Hawaii 9/3, p. 313
Gulfstream SRA-1 surveillance, reconnaissance aircraft makes its first flight 9/10, p. 132
Raytheon subsidiary in Britain to upgrade Royal Navy radar 9/17, p. 62
Shuttle plan emphasizes Earth survey 9/24, p. 38
Partenavia's P.68 Observer has TV surveillance system 9/24, p. 85
Norwegians photograph new Soviet submarine 9/24, p. 87
Gulfstream Aerospace stresses special mission aircraft 10/1, p. 94
Ecureuil undergoes weapons, landing tests 10/8, p. 67
Su-24s, Tu-16s support Soviet ground forces 10/29, p. 40

**SWEDEN**
Sweden confiscates computer components 1/2, p. 18
Swedish military funding 1/2, p. 24
Swedes seek to penetrate U.S. market 1/9, p. 67
Swedish Navy radar 1/16, p. 24
Manufacturer seeks to acquire seized computer 1/16, p. 26
Sweden adjusts to military reductions 1/23, p. 101
Pilot training 1/23, p. 112
Sweden trimming combat force 1/23, p. 112
Sweden returns confiscated computer to U.S. 1/23, p. 27
Swedair performs target-towing with Mitsubishi MU-2 aircraft 3/5, p. 69
SAS opens training facility for Saab-Fairchild 340 3/12, p. 243
Intrusions into Swedish waters spurring defense spending 3/12, p. 93
SAS forming regional airline division 4/2, p. 28
Datasaab fined $3.1 million 5/7, p. 20
Sweden plans to increase defense funds 5/14, p. 65
IAF Congress 6/4, p. 20
Swedish firm plans Satcom services 7/16, p. 22
SAS begins AP-188 hovercraft service 8/6, p. 36
Helicopter buy 8/6, p. 66

**SWITZERLAND**
British improving Rapier missile for Swiss Army 3/5, p. 55
Second Pilatus PC-9 trainer joins flight test program 8/20, p. 50
Swiss claim PC-7 hard points violate export law 8/20, p. 50

**TAIWAN**
E-Systems Group pushes engine overhaul at Taiwanese facility 9/10, p. 131
Taiwan air traffic control update includes fault-assessing computers 10/22, p. 36

**TAX**
Report urges aviation fuel tax rise 1/16, p. 17
Bill on export income tax fails to placate Europeans 2/13, p. 151
Senate votes measure cutting aircraft operator tax benefits 4/23, p. 30
Aviation facilities funding outlook called bleak 5/21, p. 36
Senate votes to alter export income tax 6/4, p. 79
Industry fighting to save tax credit for research 6/25, p. 222
Florida court upholds fuel tax 6/25, p. 33
Investors taking cautious view of private programs 6/25, p. 78
Congress alters export taxes 7/2, p. 25
Congress refuses extension of tax credits for research 7/23, p. 137
Reagan backs space commerce 7/30, p. 16
Corporate flights outpace sales of new aircraft 10/1, p. 38
Bankers examine drawbacks of investing in space programs 10/15, p. 51
Import duties blocked on space products 10/29, p. 66
Florida group presses for exemption from noise rules 11/12, p. 157
Analysts forecast little chance for passage of tax proposal 12/3, p. 24

**TECHNOLOGY TRANSFER**
Defense Dept. drafts controls on data 1/2, p. 17
Sweden confiscates computer components 1/2, p. 18
House panel urges law killing lie detector tests 1/9, p. 59
Manufacturer seeks to acquire seized computer 1/16, p. 26
Sweden returns confiscated computer to U.S. 1/23, p. 27
Equipment seized 1/23, p. 98
Europeans oppose U.S. license shift 1/30, p. 22
AIA proposes simplified export restraints 1/30, p. 24
Air Force plans security update at Vandenberg 2/20, p. 25
Five held in plot to smuggle avionics to China 2/20, p. 29
Soviet technology advances erode U.S., allies advantages 3/12, p. 24
Smuggling advances Soviet technology 4/9, p. 24
Rules deter R&D exchanges with Japan 4/9, p. 91
Defense Dept. seeks curb of small computer expot 4/16, p. 30
Panel urges easing computer export control 5/7, p. 19
Datasaab fined $3.1 million 5/7, p. 20
The technology transfer mess 5/14, p. 13
Germans, French tighten security ties 5/21, p. 124
Spy sentenced to life imprisonment 5/21, p. 20
GAO suggests eased export licensing 5/28, p. 142
Dispute persists over export licensing 5/28, p. 26
Conferees codify Defense export controls directive 5/28, p. 27
Europeans seek NATO research agency 6/4, p. 16
Solar cell fabrication 6/18, p. 132
Commerce division will urge decontrol of microcomputers 6/25, p. 224
Pentagon drops report screening plan 7/23, p. 119
Government focus on data transfer to industry urged 7/23, p. 131
CoCom agrees on export computers 7/23, p. 21
West screens Inmarsat technical bids 7/30, p. 18
Protecting circuit technology raises numerous uncertainties 7/30, p. 50
U.S., Belgium agree to halt sale to Soviets 8/20, p. 19
Export deadlock 9/17, p. 19
Commerce eases export license plan 9/24, p. 20
Export penalty 9/24, p. 72
U.S. transport sales in Mideast hampered by export controls 10/22, p. 111
U.S. approves technology transfer to Israel for Lavi 11/5, p. 20
Directive gives Pentagon control of unclassified technical data 11/12, p. 26
Strictures on non-secret data concern scientific community 11/19, p. 24
North Atlantic assembly seeks coordinated R&D efforts 11/26, p. 27
Military issues condensed export list 11/26, p. 28
Report urges expanded export role for security council 12/3, p. 153
International team to build new warhead 12/10, p. 26
Key western technology is target of Soviet military 12/10, p. 67
U.S. tallies cost to Soviets of technology transfer rules 12/10, p. 67

**TESTING EQUIPMENT**
Hughes using scanning electron microscope to inspect integrated circuit connections 1/9, p. 78
Canada allows U.S. firms use of test 205A-1 1/16, p. 106
IBM laboratories verify Lamps, Sikorsky SH-60B operations 1/16, p. 187
Soviets develop ultrasonic equipment to test for cracks 1/23, p. 41
Boeing prepares to flight test RB.211-535E4 engine on 757 1/30, p. 45
Boeing tests transport active controls 2/13, p. 153
Airship truss completes static testing 2/20, p. 53
Computerized X-ray to verify MX motors 4/16, p. 149
Snecma using new powerplant testing facility 5/7, p. 46
Saudia using new engine test facility 5/21, p. 155
ESA expands center for large payload satellites 5/28, p. 116
Gull develops updated flight inspection unit 5/28, p. 159
Rolls testing first full-scale Tay fan, compressor 5/28, p. 23
Production B-1B tested in new facility 5/28, p. 55
General Dynamics builds Centaur G-prime test article 6/11, p. 23
Fokker completes Olympus test series 6/25, p. 161
Arnold test facility nears completion 6/25, p. 210
Initial B-1B in automated test facility 7/2, p. 52
Hughes Chip Set Supports Signal Processing Needs 7/30, p. 61
MBB builds variable-stability testbed 8/6, p. 70
Allison operates Airflow Tester 8/13, p. 65
Japan Air Lines orders French Avionics test station 10/29, p. 77
Singapore buys test unit 12/3, p. 161
Iowa State advances nondestructive testing 12/3, p. 80

**THAILAND**
Boeing delivers VIP-configured 737-200 transport to Thailand 3/5, p. 33

**THEMATIC MAPPER**
Landsat 5 thematic mapper covers Gulf Coast 3/26, p. 19
Kodak studies modified Landsat terms 8/6, p. 19

**TIBET**
British display 146 transport in Far East 11/12, p. 86

**TILT ROTOR AIRCRAFT**
Bell designing tilt rotor craft with internal engines 1/16, p. 158
Bell displays tilt-rotor vehicle mockup 4/16, p. 29
JVX tilt-rotor aircraft wing will have 6-deg. forward sweep 5/14, p. 70
NASA testing rotor for JVX tilt-rotor aircraft 7/16, p. 71

**TIRES**
Michelin testing radial tires on aircraft 3/26, p. 57

### TRACKING AND SCANNING
NASA shift to space data relay consolidates Spanish stations 1/23, p. 94
Space sensor planned to detect cruise missiles 3/26, p. 16
Talon Gold launch slips 8/20, p. 16

### TRAINING
Training key to wind shear effects 1/2, p. 62
Trans World studies disposal of overhaul, training facilities 1/9, p. 30
Pilot training 1/23, p. 112
United trains flight attendant reserve 2/27, p. 36
Composite training 3/19, p. 42
Training counters lack of combat experience 3/19, p. 60
Decentralized maintenance boosts sortie rates, hours 3/19, p. 64
TAC cuts deployment aerial refuelings , p. 57
Saudis seek technical self-sufficiency 5/14, p. 68
C-5B production planned for cost, time efficiencies 5/28, p. 135
Industrial astronaut to fly with biological machine 6/18, p. 67
Stricter controls sought on ultralights 6/25, p. 233
Eastern pilot class 8/27, p. 29
Company plans new flight training concept 10/1, p. 105
Cockpit crew curriculums emphasize human factors . 10/1, p. 99
Dutch propose 9% budget rise in 1985 for country's air force 10/8, p. 24
Cessna opening pilot schools in Britain to increase licenses 10/15, p. 88
GAO criticizes missile firings criteria 10/22, p. 117
Satellite retrieval linked to precise orbit control 11/5, p. 66
United subsidiary receives award for USAF C-5 crew training 11/19, p. 23
Cubic Corp. upgrades air combat training system for Navy use 12/3, p. 157
British using West German gliders in training program 12/3, p. 167
Garn, teacher orbiter flights expected in next realignment 12/3, p. 21
PSA using head-up displays in MD-80s 12/3, p. 41

### TURKEY
Turkish F-16s 1/9, p. 16
U.S. will assist Turkey in improving air defense 2/20, p. 68
Aid to Turkey 5/14, p. 26
Turkey, U.S. sign agreement to coproduce F-16 fighters 5/14, p. 26
Turks seek C-47 replacement 8/20, p. 22
Facility for F-16 coproduction work is built in Turkey 11/12, p. 18

### ULTRALIGHT AIRCRAFT
Stricter controls sought on ultralights 6/25, p. 233
FAA plans ultralight meetings 7/30, p. 26
Ultralight study 10/8, p. 23

### UNITED ARAB EMIRATES
United Arab Emirates buy 8/13, p. 32

### UNITED NATIONS ORGANIZATION
U.S. walks out of U.N. space meeting 6/25, p. 18

### UNITED STATES AIR FORCE
USAF tests MX missile on 30-min. flight 1/2, p. 15
USAF tests arresting systems 1/2, p. 45
USAF, Boeing probe charring on IUS nozzle 1/9, p. 21
Spares changes concern industry 1/23, p. 16
USAF awards initial contracts for small ICBM missile project 1/23, p. 22
USAF T-38 jet trainers to start tests of windshield redesign 1/23, p. 89
USAF flight tests Asat weapon 1/30, p. 19
USAF studying combat aircraft decoys 1/30, p. 64
USAF seeking to continue force structure updates 2/6, p. 18
USAF, contractors defining small ICBM 2/6, p. 54
Six teams plan bids on INEWS warning system 2/6, p. 66
Bechtel contract 2/13, p. 151
Air Force considers using integrated avionics in F-16 2/13, p. 160
USAF cancels July IUS shuttle mission 2/13, p. 22
EF-111A gives electronic strike support 2/13, p. 25
Air Force plans security update at Vandenberg 2/20, p. 25
USAF retains plans to use Star 48 motors on Navstar 2/20, p. 26
USAF to study self-repairing controls 2/20, p. 28
USAF nears air-to-surface missile start 2/20, p. 29
USAF shifts strategic forces in preparing to deploy B-1Bs 2/20, p. 30
USAF extends study of fighter voice control 2/20, p. 82
Lockheed proposes C-5 maximum capacity tests 2/27, p. 20
USAF, Navy accident rates continue to improve 2/27, p. 64
USAF studying future cockpit displays 2/27, p. 81
1st fighter wing acquires new mission 3/1, p. 73
Parallel programs advance small ICBM 3/5, p. 14
USAF selects F-15 as dual-role fighter 3/5, p. 18
USAF awards expendable launcher study contracts 3/5, p. 19
USAF awards laser communications contract 3/5, p. 24
USAF lifts engine parts supplier suspension 3/5, p. 24
USAF tests ground proximity alert system on A-10A aircraft 3/5, p. 53
Boeing Military Airplane Co. performing depot maintenance on F-4C fighters 3/5, p. 54
USAF reviews surveillance system technology 3/5, p. 62
Flying Tigers repayment 3/12, p. 194
USAF orders Short Brothers Sherpa transports 3/12, p. 275
USAF plans uprated cruise missile engine 3/12, p. 275
USAF activates computer facility 3/12, p. 94
USAF seeks to double airlift capacity 3/19, p. 20
All-weather force set as TAC goal 3/19, p. 42
Composite training 3/19, p. 42
New Soviet aircraft focus U.S. attention on advanced fighter 3/19, p. 46
TAC cuts deployment aerial refuelings 3/19, p. 57
Training counters lack of combat experience 3/19, p. 60
TAC studies tethered aerostats for Arctic use 3/19, p. 64
Supply changes boost aircraft utilization 3/19, p. 73
Command develops advanced stand-off air-ground weapons 3/19, p. 77
Radar systems provide early warning network 3/19, p. 80
USAF hones air defense capabilities 3/19, p. 85
USAF spurs spaceplane research 3/26, p. 16
Air Force seeks voluntary refund on F100 part 3/26, p. 27
Navy, USAF set -flight tests of jammer 4/2, p. 57
USAF will increase export fighter role 4/9, p. 20
USAF cites PAM failure in Navstar launch delay 4/9, p. 27
Boeing awarded USAF composite contract 4/9, p. 75
USAF warns industry on spares costs 4/16, p. 175
USAF proposes upgrades for ALCM 4/23, p. 161
USAF will test MX Mk.21 reentry vehicle 4/23, p. 165
Shift urged in shuttle landing site 4/23, p. 18
USAF Titan launch 4/23, p. 28
General Electric tests F110 fighter engine 4/23, p. 64
Dispute grows over shift of USAF shuttle payloads 4/30, p. 25
USAF plans work on improved shingle-lap extendable cone 4/30, p. 73
USAF receiving digital flight recorders 5/7, p. 43
USAF upgrades wind tunnel 5/7, p. 81
USAF reshapes small ICBM effort 5/14, p. 18
Air Force funds automatic composite curing system 5/14, p. 71
Air Force receives leased Beech C-12F support aircraft 5/21, p. 151
USAF laboratory studies voice controls 5/21, p. 182
Companies submit tactical fighter studies 5/21, p. 26
USAF awards ejection system contracts 5/28, p. 142
USAF studies successor to A-10 5/28, p. 22
USAF, Army agree on joint initiatives 5/28, p. 22
Services defer Assault Breaker development 5/28, p. 23
USAF studies transatmospheric vehicle 5/28, p. 25
Air Force conducts MX ejection test 6/4, p. 26
USAF proceeding with ninth Navstar launch 6/11, p. 20
TRW payment 6/11, p. 22
USAF evaluates new simulator imagery 6/11, p. 72
Crest system to increase crew survival 6/18, p. 101
USAF plans Arnold tunnel modifications 6/18, p. 105
Directed-energy studies 6/18, p. 123
C-130 Navaid plan stirs controversy 6/18, p. 21
USAF plans buy of 72 cargo transports 6/18, p. 23
Air Force developing plan on expendable launchers 6/18, p. 70
USAF studies Talon Gold laser tracker design 6/25, p. 20
Arnold test facility nears completion 6/25, p. 210
Grumman seeking way to ship X-29 aircraft to Edwards AFB 6/25, p. 213
USAF secretary extends spares disposal freeze 6/25, p. 25
USAF, Navy seek to cut strategic nuclear funding 7/9, p. 20
USAF drafts $108.3-billion fund bid 7/16, p. 19
Technical problems delay production of AMRAAM 7/16, p. 21
USAF studies mobile-target ballistic missile 7/23, p. 18
Air Force to test enemy radar locator 7/23, p. 19
Careers in the cockpit 7/23, p. 9
USAF's Teal Ruby platform undergoes acceptance tests 7/30, p. 17
B-1 engine award 7/30, p. 23
USAF nearing EF-111 jammer upgrade pact 7/30, p. 23
Outlook for new airplanes 8/13, p. 13
AFTI/F-16 will test voice recognizers 8/13, p. 177
McDonnell Douglas is computerizing autoclave process 8/13, p. 201
Pave Tiger Drone pace slowed by underestimate of complexity 8/13, p. 25
Automated plasma sprayers being developed 8/13, p. 53
USAF will buy 85 harpoons ordered by Iran 8/20, p. 16
USAF changes launcher proposal bid 8/20, p. 18
PA-48 Enforcers finish tests 8/20, p. 50
General Dynamics testing production F-16C for USAF 8/20, p. 55
Short Brothers preparing C-23A Sherpa for delivery to USAFE 8/20, p. 57
Air Force testing PAM-D2 in spin rig 8/20, p. 73
New fighter engine planned 8/27, p. 23
USAF stops hughes payments for missiles built at Tucson 8/27, p. 24
Air Force invests in centralized control at Georgia plant 8/27, p. 70
USAF solar monitor nears completion 8/27, p. 75
U.S. Koreans conduct joint air exercises 9/3, p. 141
USAF to cut overseas maintenace costs 9/3, p. 199
U.S. simulated war game center begins operations 9/3, p. 201
Short Brothers will provide logistics, maintenance support for C-23A 9/3, p. 209
C-17 wind tunnel tests near completion 9/3, p. 258
Contract monitor 9/3, p. 267
USAF projects slip in C-17 operations to Fiscal 1992 9/3, p. 267
USAF asks B-52 upgrade to carry missiles 9/3, p. 270
Fairchild T-46A assembly on schedule 9/3, p. 275
Lack of spare parts undercuts Air Force's flying-hour goals 9/3, p. 291
Dual-mode missile 9/3, p. 299
USAF inspecting Vandenberg launch facilities 9/3, p. 46
Congress directs USAF to buy 707s for spares 9/10, p. 132
Plans change on F-16 communications 9/10, p. 163
Responsibility division 9/10, p. 41
USAF finishes third IUS motor ground test 9/10, p. 42
Teal Ruby contract 9/24, p. 15
IUS hardware delivered for shuttle launches 9/24, p. 17
USAF pushes survivability of satellites 9/24, p. 71
USAF reassesses SRAM replacement 9/24, p. 87
More posturing over procurement 10/1, p. 13
USAF asks for C-5B option delay for review of costs 10/1, p. 22
Hughes outlines production restart plan 10/1, p. 23
B-1 investigators focus on fuel system 10/1, p. 27
Gulfstream 3s meet military requirement 10/1, p. 63
Law prohibits diversion of funding to B-1 bomber 10/8, p. 17
Act accelerates, stretches arms programs 10/8, p. 19
McDonnell Douglas to develop STOL F-15 10/8, p. 21
USAF cites fuel transfer error in B-1 aircraft crash 10/8, p. 22
Ultralight study 10/8, p. 23
U.S., NATO agree in principle on IFF frequencies approach 10/8, p. 27
MX missile enters second phase of testing 10/8, p. 28
Initial MLS tests scheduled for C-141A 10/8, p. 76
Lockheed using new radar range at Georgia facility 10/8, p. 76
Hughes resumes deliveries of two radars 10/15, p. 26
Contractor charges attacked 10/15, p. 27
USAF studies modified aircraft to ship large shuttle payloads 10/15, p. 39
USAF demonstrates F-15, F-16 10/15, p. 71
Guides issued for avionic stress screening 10/15, p. 99
New procurement rules may raise costs 10/22, p. 117
Air Force unit developing method for rapid repair of bombed runways 10/22, p. 125
Firms study close support aircraft 10/22, p. 26
Air Force seeks F100 warranty price cut 10/22, p. 27
USAF audit discovers General Electric problems 10/22, p. 27
Congress votes $15.36 million for USAF space booster 10/22, p. 28
Production B-1B makes first flight 10/22, p. 31
Company tests C-17's loading efficiency 10/22, p. 60
Rockwell develops powered GBU-15 10/22, p. 83
Unions rally opposition to military cost moves 10/29, p. 25
GAO foresees savings in altered B-1B basing plan 10/29, p. 64
Military to withhold shuttle liftoff time 11/5, p. 14
F-16C fixes key to 1985 deliveries 11/5, p. 22
Air Force will withhold General Electric payments because of discrepencies 11/5, p. 23
USAF plans to ask multiengine trainer funding in 1987 11/12, p. 20
USAF approves Hughes plan to correct quality problems 11/12, p. 24
First two sherpa transports arrive at USAFE base 11/12, p. 25
United subsidiary receives award for USAF C-5 crew training 11/19, p. 23
Air Force tests antisatellite payload 11/19, p. 28
USAF advanced fighter program nears acquisition review 11/19, p. 46
ATF project stresses range, supportability 11/19, p. 53
USAF readies self-repairing control awards 11/19, p. 53
USAF, Lockheed conducting C-5 evaluations 11/19, p. 58
USAF resumes Hughes missile funding 11/26, p. 30
McDonnell Douglas develops small ICBM mockup 11/26, p. 31
Air Force pushes industry role in value engineering 11/26, p. 57
F-4 update program 11/26, p. 57
Ford test-fires projectile with on-board computer 11/26, p. 88
Avco conducting full-scale development on new airfield attack submunition 12/3, p. 105
Boeing shock tube tests nuclear blast overpressure 12/3, p. 63
USAF emphasizing technology to improve quality assurance 12/3, p. 78
McDonnell Douglas deliveries camouflaged KC-10 aircraft 12/3, p. 89
B-1B program on time despite component shortage, engine problems 12/10, p. 18
Fighter engine award 12/10, p. 27
Space shuttle launch support equipment installed at Vandenberg 12/10, p. 52
Joint study focuses on two C-130 modifications for assault, airlift role 12/10, p. 60
Lockheed installs new wings on C-5A 12/10, p. 62

### UNITED STATES AIR NATIONAL GUARD
Boeing Military Airplane Co. performing depot maintenance on F-4C fighters 3/5, p. 54
Air Guard transports 6/11, p. 24

### UNITED STATES ARMY
Army, NASA lead testing of turboshaft components 1/16, p. 117
Army evaluating lessons learned in Grenada fight 1/16, p. 131

Army tests methane as helicopter fuel 1/16, p. 135
Army pushes missile countermeasures 1/16, p. 157
Army awards initial ARTI program contracts 1/16, p. 18
Army develops crew restraint system 1/16, p. 187
Army LHX spurs rotorcraft design 1/16, p. 80
Military seeking upgraded capabilities 1/16, p. 84
Army to use simulation in LHX development 1/16, p. 87
Army seeks improved helicopter force 2/6, p. 20
Hughes seeks McDonnell simulator for LHX 4/2, p. 25
SAR program acquisition cost summary 4/30, p. 60
USAF, Army agree on joint initiatives 5/28, p. 22
Services defer Assault Breaker development 5/28, p. 23
Army studies Pershing 2 failure 6/11, p. 24
Army tests Avenger air defense unit 6/18, p. 117
Hughes accelerating AH-64 production 6/25, p. 202
Army will test airborne space sensor 7/2, p. 47
Army requests harmonic control study 7/2, p. 67
Army testing hit-to-kill, radar-guided interceptor 7/9, p. 38
Army will compete 40% of LHX engine 7/9, p. 64
Army receives initial production divads 7/23, p. 151
Bell produces UH-1 retrofit after mast bumping study 7/23, p. 23
Hughes Chip Set Supports Signal Processing Needs 7/30, p. 61
Army accepts night-vision equipped AH-1S 8/13, p. 171
Aquila Flir contract 8/13, p. 25
Avco upgrading its PLT34 turboshaft 8/13, p. 50
Army aviation command orders Skyeye RPV 8/20, p. 15
U.S. simulated war game center begins operations 9/3, p. 201
Army combining Aquila tests to return program to schedule 9/3, p. 272
Army to modify Chaparral defense system 9/3, p. 289
Army will accelerate LHX light helicopter program 9/3, p. 46
Army plans antitank missile program 9/17, p. 27
DARPA, NASA, army plan tests on heavy-lift helicopter 9/17, p. 46
Army will increase AH-64 purchase by 160 9/17, p. 71
RAF evaluating rotor vibration of diagnostic unit 9/24, p. 71
Navaid contract 10/1, p. 30
Act accelerates, stretches arms programs 10/8, p. 19
Army evaluates latest Patriot test firings 10/22, p. 83
Army plans November release for LHX engine proposals 10/29, p. 16
Army consolidates night vision efforts 10/29, p. 18
Tracor wins Black Hawk ECM contract 10/29, p. 59
Army extends UH-60 buy, funds tests with Hellfire 11/12, p. 16
Litton develops night-vision helmet-goggles 11/19, p. 107
Lockheed Electronics wins Vulcan upgrade kit contract 11/19, p. 63
Diesel engine contract 11/26, p. 27
Company studies updated Chaparral missile 12/3, p. 153
Troops test multiple launch rocket system 12/3, p. 54
International team to build new warhead 12/10, p. 26
Joint study focuses on two C-130 modifications for assault, airlift role 12/10, p. 60

**UNITED STATES COAST GUARD**
Coast Guard delays HH-65A acceptance 1/23, p. 24
Coast Guard flight tests HU-25A with Aero-Aireye sensor package 1/30, p. 22
Coast Guard request 2/6, p. 18
Coast Guard again delays HH-65 deliveries 6/18, p. 21
Coast Guard receives first HH-65 this week 11/19, p. 26

**UNITED STATES GOVERNMENT**
**Commerce Dept.**
Aviation trade mission to visit Asia 1/16, p. 134
Exports of military aircraft expected to rise in 1984 3/12, p. 94
Paris Air Show survey reopens dispute 3/19, p. 24
Commerce continuing Paris Air Show activity 4/9, p. 23
Tool import relief appeal returned for more study 4/9, p. 93
Commerce Dept. cancels air show in Britain 4/23, p. 27
Opposition mounts to plan for tight reexport rules 5/7, p. 18
Panel urges easing computer export controls 5/7, p. 19
U.S. General Aviation Show in London sold out 6/11, p. 71
Commerce melds defense priority rules 7/9, p. 25
Kodak studies modified Landsat terms 8/6, p. 19
U.S. Embassy offers data on industry during show 9/3, p. 101
Canada to continue industry investment 9/3, p. 224
Commerce eases export license plan 9/24, p. 20
Conferees would facilitate export denial appeal 9/24, p. 20
Travel with computer requires license 9/24, p. 21
U.S. imposes more restrictions on exports of aircraft to Iran 10/8, p. 28
U.S. transport sales in Mideast hampered by export controls 10/22, p. 111
Bell seeks Iraqi sale license 10/22, p. 30
Exhibit firm asks injunction on Commerce Dept. 11/5, p. 49
Report urges expanded export role for security council 12/3, p. 153
**Congress**
Defense Dept. controls on data 1/2, p. 17
House panel urges law killing lie detector tests 1/9, p. 59
Report urges aviation fuel tax rise 1/16, p. 17
Committee chief will seek bills to assure orderly CAB demise 1/23, p. 34
Backers expect passage of bill limiting sole-source awards 1/30, p. 22
Defense request facing Congressional opposition 2/6, p. 24
Shifts asked in essential service 2/6, p. 31
Tomahawk moves toward dual-source production 2/6, p. 56
Bill on export income tax fails to placate Europeans 2/13, p. 151
Defense Dept. plans missile, radar sales to Egypt 2/13, p. 27
Defense Dept. proposing warranty mandate repeal 2/20, p. 44
High deficit called threat to defense fund support 2/27, p. 24
Report urges military aircraft cancellations 3/5, p. 20
Senate softens import control powers 3/5, p. [illegible]
Defense, industry officials push warranty law repeal 3/5, p. 24
Life after sunset 3/5, p. 9
Officials expect key weapons to survive Congressional cuts 3/12, p. 83
House panel approves FMS credits for Israel 3/19, p. 101
House panel reviews Satcom test 3/19, p. 16
House panel votes 7.5% defense spending rise 3/19, p. 18
Senate panel requests space defense costs 3/19, p. 23
Bill would limit proprietary rights on parts 3/19, p. 25
Spares firms oppose proprietary limits 3/26, p. 22
Democrats propose curtailed defense growth 3/26, p. 25
House panel approves funds for space station 3/26, p. 26
Private remote sensing bill passes House panel 3/26, p. 52
Remote-sensing bill 4/2, p. 16
House panel offers defense options 4/2, p. 17
Tower questions trends in Congress 4/2, p. 54
Procurement panel 4/2, p. 55
House panel votes to cut spares proprietary rights 4/9, p. 22
Senate panel votes for industry protection on product liability 4/9, p. 26
CAB Sunset Act 4/9, p. 35
House approves Landsat commercialization 4/16, p. 30
Congressional panels propose defense cuts 4/16, p. 31
Congressional authority loss looms as issue in CAB sunset 4/16, p. 36
Lorenzo warns Senate on labor contract bill 4/16, p. 36
Armed services panel cuts defense budget $19 billion 4/23, p. 26
U.S. assesses technology leadership 4/23, p. 28
Senate votes measure cutting aircraft operator tax benefits 4/23, p. 30
House panel sets hearing on ALPA safety charges 4/23, p. 34
Report urges government cut larger airports' financial aid 4/23, p. 37
Defense Dept. appeals again on warranty law 4/30, p. 14
Research on ABM meets opposition from Senators 4/30, p. 21
House panel custs $317 million from ballistic missile defense 5/7, p. 22
House specifies defense funding costs 5/7, p. 24
Senator urges legislative limit to proprietary rights 5/7, p. 80
Senate unit votes space station funds 5/14, p. 25
House votes curtailed MX production 5/21, p. 20
Senate panel may ease spare parts plan 5/21, p. 22
Senators achieve compromise on eased weapon warranties 5/21, p. 22
Project chief asks full funds for strategic defense initiative 5/21, p. 23
Funding for Israeli fighter triggers debate in House 5/21, p. 24
House ties antisatellite tests to further activity by Soviets 5/28, p. 24
House bill would form teams to broaden bidding on spares 6/4, p. 20
Senate funding bill shifts spares policy 6/4, p. 20
House legislation restricts spare parts sole sourcing 6/4, p. 22
House funds space stations in NASA bill 6/4, p. 26
House bill offers alternatives to essential service program 6/4, p. 30
Senate votes to alter export income tax 6/4, p. 79
House bill assigns Transportation Dept. launcher licensing 6/11, p. 23
Senate, House diverging on MX production plan 6/11, p. 27
State Dept. briefs Senate on Stinger security 6/11, p. 27
House passes CAB Sunset Act 6/11, p. 30
Reprograming voted 6/18, p. 25
Senate panel votes to postpone Navy's aggressor aircraft buy 6/18, p. 30
Vote in Senate would aid Reagan's Asat authority 6/18, p. 30
Senate votes defense authorization 6/25, p. 23
Senate rejects NATO troop reduction 6/25, p. 26
Congress alters export taxes 7/2, p. 25
President, Senators proposing space rescue operation plans 7/9, p. 16
Congress backs aeronautical research 7/9, p. 48
Technical problems delay production of AMRAAM 7/16, p. 21
Congressional study questions requirement for space station 7/16, p. 22
Congress refuses extension of tax credits for research 7/23, p. 137
Conferees deadlocked on defense budget 8/6, p. 16
Satellite communications tests restart at NASA 8/6, p. 24
Congress reduces military construction $165 million 8/20, p. 24

Soviets accelerate missile defense efforts 1/16, p. 14
Soviets deploy new SS-20 missile battery 1/16, p. 15
Soviets stress helicopters in antiarmor role 1/16, p. 92
Interagency review lists Soviet arms violations 1/30, p. 60
Soviet defense spending 2/13, p. 11
NATO cites Soviet military funding slowdown 2/13, p. 140
Shuttle crew photographed Soviet missile site 2/27, p. 18
Parallel programs advance small ICBM 3/5, p. 14
Soviet technology advances erode U.S., allies advantages 3/12, p. 24
ICAO Council condemns Soviet downing of 747 3/12, p. 273
Strategic forces 3/12, p. 33
Strategic forces 3/12, p. 41
A comparison of average annual Soviet production and FY 1985 U.S. requests 3/12, p. 43
Tactical funding emphasizes readiness 3/12, p. 43
Japan plans new fighter as Soviet threat changes 3/12, p. 81
Mission 9 astronauts photographed Soviet submarine, fighter bases at Petropavlovsk 3/19, p. 17
New Soviet aircraft focus U.S. attention on advanced fighter 3/19, p. 46
U.S. space shuttle astronauts photographed Soviet flight test center 3/26, p. 17
Soviets use flares to counter missiles 3/26, p. 54
Soviets making gains in air defense 4/2, p. 22
Soviets plan Farnborough participation 4/9, p. 23
Smuggling advances Soviet technology 4/9, p. 24
Berlin air corridor incursions by Soviets draw Allied protest 4/16, p. 34
U.S. assesses technology leadership 4/23, p. 28
Soviet Union continues military buildup 4/23, p. 53
Soviets press airborne laser program 4/23, p. 54
Soviets adding mobility to missile force 4/23, p. 55
Soviets fill low-altitude air defense gap 4/23, p. 55
Soviets boost Mil helicopter civil utilization 4/30, p. 20
U.S. charges Soviets expand Afghanistan war 4/30, p. 21
Soviet carriers 4/30, p. 26
ICAO stymied in anti-force talks 4/30, p. 28
Soviets develop improved ABM defense system with phased-array radars 5/7, p. 115
Soviets realign research efforts 5/7, p. 14
NATO works to ease tensions with Soviets 5/21, p. 105
French politicians united in backing Western allies 5/21, p. 145
Arms deliveries—1982 5/21, p. 149
Soviet ship holds U.S. target drone 24 hours 5/21, p. 20
ICAO endorses weapon ban 5/21, p. 34
Economics, politics portend shifts 5/21, p. 50
Soviets reequip forward air forces 5/21, p. 65
U.S. urged to negotiate treaty based upon freedom of space 5/28, p. 118
House ties antisatellite tests to further activity by Soviets 5/28, p. 24
Norwegians photograph Soviet Oscar-class submarine 6/4, p. 75
The rhetoric gets rougher 6/11, p. 11
U.S. plan will boost NATO air defense 7/9, p. 21
Soviet western theater 7/16, p. 69
Soviet threat spurs Phoenix follow-on 7/23, p. 16
West screens Inmarsat technical bids 7/30, p. 18
Conferees deadlocked on defense budget 8/6, p. 16

ICAO pushes new intercept rules 8/6, p. 28
U.S. fighters escort Soviet military aircraft 8/6, p. 29
Soviets building aircraft carrier that will become operational in 1990s 8/13, p. 26
Aeroflot withdraws Tu-144 from operations 8/20, p. 29
Soviets monitor Cosmonauts during EVA 8/20, p. 82
Soviets attend first Farnborough show 9/3, p. 54
USSR An-72 displays aerobatic maneuverability 9/10, p. 31
Japan warns of Soviet Far East buildup 9/24, p. 23
Norwegians photograph new Soviet submarine 9/24, p. 87
Japanese intercept Soviet backfire bombers over Sea of Japan 10/8, p. 26
Analyst charged in satellite photo disclosure 10/8, p. 27
Soviets display helicopter, transport 10/8, p. 64
Shuttle photographs nuclear accident site 10/15, p. 16
Soviets form Cosmos radar data network 10/15, p. 23
Two landers targeted for Venus' night side 10/15, p. 23
Soviets assembling I1-86 transports in Voronezh plant 10/15, p. 78
Norwegian F-16 intercepts 707 transport near Soviet airspace 10/22, p. 34
Soviets using Su-25s in attacks on rebel units 10/29, p. 38
Soviet helicopters sustain damage from SAM-7 infrared missiles 10/29, p. 44
Military to withhold shuttle liftoff time 11/5, p. 14
President signs bill aimed at restoring cooperation in space 11/5, p. 16
Soviet helicopter airlifts television tower 11/5, p. 42
Soviets orbit seven military spacecraft 11/5, p. 70
Soviets using I1-86 wide-body transport on domestic, foreign routes 11/12, p. 88
Military issues condensed export list 11/26, p. 28
Soviet Tupolev Badgers refuel over East China Sea 12/3, p. 27
Iran joins Inmarsat; Soviets operate earth stations 12/3, p. 76
Soviet ability to fire through ice creates new SLBM basing mode 12/10, p. 16

**VENEZUELA**
Venezuelan Air Force testing U.S.-built aircraft arresting system 4/30, p. 43

**VENUS**
ESA uses Soviet data in comet mission 1/2, p. 46
Venus project team finds extensive volcanic activity 2/27, p. 44
Pioneer orbiter tested for Halley mission 6/18, p. 79

**VERTICAL LIFT AIRCRAFT**
Improved testing methods enhancing research 1/16, p. 101
Army, NASA lead testing of turboshaft components 1/16, p. 117
Companies expanding composite uses 1/16, p. 137
Bell designing tilt rotor craft with internal engines 1/16, p. 158
Military seeking upgraded capabilities 1/16, p. 84
JVX contracts 6/18, p. 23
Advanced Harrier 2 production progressing at British Aerospace plant 9/3, p. 229
British expand SkyHook launch system uses 10/22, p. 65

**VERY HIGH SPEED INTEGRATED CIRCUITS**
USAF nears air-to-surface missile start 2/20, p. 29
New circuits expected to exceed projections 7/30, p. 46
Mask access 7/30, p. 49
Protecting circuit technology raises numerous uncertainties 7/30, p. 50
VHSIC feature sizes 7/30, p. 50
Honeywell plans to supply samples early next year 7/30, p. 52
VHSIC Phase 1 prime contractors 7/30, p. 53
Westinghouse designs building blocks 7/30, p. 53
TRW, Motorola set brassboard tests 7/30, p. 57
IBM delivered Phase 1 devices and brassboard on schedule 7/30, p. 58
Hughes chip set supports signal processing needs 7/30, p. 61
Sales Decisions 7/30, p. 64
Texas Instruments seeks commonality 7/30, p. 64
Honeywell, IBM, TRW chosen for VHSIC phase 2 11/5, p. 24
General Electric company-funded project yields VHSIC-like chip 11/26, p. 74

**VIEWPOINT**
Non-Nuclear Bomber Forces 5/28, p. 11
Europe's New Independence 6/4, p. 11
Democrats and defense 10/15, p. 11
Republicans on defense 10/22, p. 13

**WARSAW PACT**
Berlin air corridor incursions by Soviets draw Allied protest 4/16, p. 34
Warsaw Pact increases arms delivery 5/21, p. 147
Pact personnel based in developing areas 5/21, p. 149
Soviets reequip forward air forces 5/21, p. 65
British minister supports emerging technology plan 5/21, p. 77
Warsaw Pact improving radar jamming abilities 7/16, p. 64
Soviet western theater 7/16, p. 69

**WEAPON SYSTEMS**
Soviets test new cruise missiles 1/2, p. 14
Westinghouse, MBB team on weapon 1/9, p. 61
Soviets accelerate missile defense efforts 1/16, p. 14
Soviets stress helicopters in antiarmor role 1/16, p. 92
Boeing delivers B-1B avionics shipsets 1/23, p. 117
Weld failure cited in third MX missile test flight 1/23, p. 20
U.S. realigns program on ballistic missile defense 1/23, p. 22
USAF awards initial contracts for small ICBM missile project 1/23, p. 22
French evaluate SM39 submarine-launched antiship missile 1/23, p. 94
Vought develops entrant in Navy target competition 1/23, p. 96
USAF flight tests Asat weapon 1/30, p. 19
Backers expect passage of bill limiting sole-source awards 1/30, p. 22
USAF studying combat aircraft decoys 1/30, p. 64
Defense Dept. stresses research, readiness, upgrades 2/6, p. 14

Delta anticipates savings in flight planning systems 4/30, p. 34

ADVERTISING IN AVIATION WEEK IS MONEY IN THE BANK ...WORLDWIDE!

When you advertise in Aviation Week, you reach over half a million aerospace decision-makers in 137 countries and major dependencies all around the world.

Pick an aerospace decision-maker, any decision-maker. Chances are he's a paid subscriber to Aviation Week, reading it every week for the news, the analysis and the vital industry information he can't get anywhere else.

No other publication even comes close to Aviation Week's market coverage, circulation or editorial authority in aviation and aerospace. If you're an advertiser, and want to reach the largest, most influential aerospace audience in the world, Aviation Week is all you need.

**All you need in the global aerospace industry...**
